LIST A.

List of English and Vernacular Text-books approved for all classes of Government and Recognised Schools in the Burdwan and Presidency Divisions of Bengal for the year 1919.

English Literature and Grammar.

For the books recommended by the University of Calcutta as indicating the standard of the Matriculation Examination in English Headmasters are referred to the University Calendar. It should be noted that these books are intended only to indicate the standard expected of pupils on the completion of the high school course. These books are not suitable for such junior classes as III and IV; and, if used, they should be confined to the last year of study.

For High School classes.

(1) For classes II, III and IV, the senior books of the following series :—

(*a*) New English Course for Indian Schools. (Longmans, Green & Co.)
(*b*) New English Readers. (Macmillan & Co.)
(*c*) Star of India Readers, Book V. (Blackie & Son.)

(*z*) For English texts suitable for additional and supplementary reading in classes II, III and IV, see list B. Care should be taken to select books that appeal to Indian boys; and some effort should be made to encourage their reading on historical lines, and to make them acquainted with current events. "England and India" (Longmans, Green & Co.) deals with the British Empire in the East, and explains the work done by the British Government in and for India. It is an advanced supplementary reader for senior pupils and teachers. For knowledge of the war a book like Nelson Fraser's "The World at War" (Oxford University Press) is of value.

(3) Poetry: for anthologies of verse—*see* List B.

(4) Grammar and Composition :—

Elementary Lessons in English composition. Nesfield (Macmillan & Co.)
The High School English Grammar. Tipping. (Macmillan & Co.)
Jenning's English Grammar. (Longmans, Green & Co.)
English Composition for Indian High Schools. (Oxford University Press.)

For Middle classes (Standards V and VI).

(1) New English Course for Indian Schools, Books III and IV. (Longmans, Green & Co.)
(2) Tipping's English Readers for Standards V and VI. (Macmillan & Co.)
(3) Star of India Readers, Books III and IV. (Blackie & Son.)
(4) New English Readers, III and IV.

Grammar and Composition :—

Junior School Grammar for India. (Longmans, Green & Co.)
Middle School English Grammar. Tipping. (Macmillan & Co.)

For Upper Primary classes (Standards III and IV).

(1) New English Course for Indian Schools: Primer Readers I and II.
(2) Tipping's English Readers for Standards III and IV.
(3) New English Readers, I and II.
(4) Star of India Readers, I and II. (Blackie & Son.)

Whenever it is found possible to introduce supplementary reading material in addition to the texts mentioned above, reference should be made to list B. At every stage the power of expression in simple English must be cultivated, along with correct pronunciation and articulation. Teachers will be assisted in this by the "Teachers' Book" in the Reformed series of Readers for India published by the Oxford University Press at As. 12. This series gives the simple principles of phonetics; and should be procured for school libraries and for teachers' use.

Geography.

The teaching of this subject by whatever method is adopted, must in every case be supplemented by the use of maps, charts and pictures. Teachers should consult the "Teacher's List" and apply to leading publishers for their lists as these are now comprehensive and specially adapted to the needs of Indian Schools. Such pictures as "Scenes from other lands" (Macmillan) are suitable for school work, are interesting to children and bring brightness and colour to the class room. Head Masters are requested to see that all the school maps and pictures are on view every day and not stored in office rooms.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned lots of land no longer required by Government, situated along the Bhairab Tangi Branch of the Assam-Bengal Railway, in the district of Dacca, will be put up to sale at the Dacca Collectorate, at 11 A.M., on the 21st day of December 1918, corresponding with the 6th of Paus 1325 B.S.

The purchasers of the several lots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway land, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in case of original sale.

4th.—The lots of land will be sold to the highest bidders subject to the payment of usual rent to their immediate superior landlords.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioners confirming it and a regular conveyance will then be granted to the purchasers.

Dacca, the 25th October 1918.

S. G. HART, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate, at noon, 6th November 1918, corresponding with 20th Kartic 1325 B. S., Wednesday.

The purchasers will be subject to the following conditions of sale :—

Conditions of sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings, and by the laws in force ; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR SEPTEMBER 1918.

I. **Character of the season.**—The rainfall during the month was defective in all the districts of North and West Bengal. In East Bengal, however the fall was somewhat in excess. The usual rainfall statement is appended.

II.—**Progress of agricultural operations.**—Cutting, steeping and washing of jute were still in progress. The transplantation of winter paddy was nearly completed. Weeding was continuing. Harvesting of autumn paddy was practically over.

III. **State of standing crops.**—The condition of the standing jute crop in the flooded areas was precarious. Elsewhere it was fair. The condition of the winter paddy crop was fairly satisfactory.

IV. **Prospects and probable outturn.**—The prospects of winter rice are so far hopeful, but more rain was urgently wanted in many places.

V. **Damage to standing crops.**—Both paddy and jute were damaged by the floods in Eastern and Northern Bengal. The flood-water, however, completely subsided by the end of the month.

VI.—**Condition of agricultural stock.**—Condition of agricultural stock was fair. Cattle-disease was prevalent in Burdwan, Bankura, Dinajpur, Jalpaiguri, Darjeeling, Cooch Behar and Mymensingh. Some loss of cattle from flood was also reported from places.

VII. **Failure of pasturage and fodder.**—Fodder was reported as scanty in most of the flood-affected areas.

VIII. **Prices of food-grains.**—During the second fortnight of the month under review the prices of common rice rose in ten districts, fell in seven and remained stationary in the rest. The prices varied from eleven seers a rupee at Contai to seven seers a rupee at Darjeeling.

IX. **Condition of agricultural people.**—The condition of agricultural people was reported as fair.

RESOLUTION IN THE ANNUAL REPORTS OF THE PORT OFFICER'S DEPARTMENT, CALCUTTA AND CHITTAGONG, FOR 1917-18.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

RESOLUTION No. 2633Mne.

CALCUTTA, THE 2ND NOVEMBER 1918

READ—

(1) Annual Report by the Port Officer, Calcutta, on his Department for the year 1917-18.

(2) Annual Report by the Port Officer, Chittagong, on his Department for the year 1917-18.

Port of Calcutta.

Bengal Pilot Service.—The number of Pilots including Leadsmen Apprentices in the cadre of the Bengal Pilot Service was 60. Two Pilots were permitted to proceed on active service : in all 13 Pilots and 4 Leadsmen Apprentices have proceeded on active service since the commencement of the war.

One Licensed Branch Pilot retired from service. He was the last of the Licensed Pilots.

As in the past year, the difficulty of the recruitment of Leadsmen Apprentices has continued, and although endeavours were made to obtain recruits from England or from the mercantile marine in the East, these endeavours proved unsuccessful. There were consequently no recruits during the year. This Government after a careful consideration of the circumstances have placed certain proposals before the Government of India with a view to overcome the deficiency of Leadsmen Apprentices in the Pilot Service at the present time : this scheme is still under consideration. Meanwhile, as a temporary measure, sanction was accorded to the appointment of outside candidates from the mercantile marine to the posts of junior officers of the two pilot vessels. This arrangement was made in order to enable the Leadsmen Apprentices to be relieved of their duties as junior officers of the pilot vessels, and to be placed on the running list so that they might study the conditions of the river Hughli. The earnings of Pilots and Leadsmen Apprentices were greatly affected as a result of the war, and as a compensatory measure, a bonus of 33 per cent. on their grade pay was granted to Leadsmen Apprentices with effect from 1st April 1917 for the period of the war and six months afterwards. The case of the Pilots was still under consideration during the year 1917-18 but after the close of the year a guaranteed minimum was fixed for each of the different grades of Pilots.

2. **Vessels piloted.**—The number of vessels piloted inwards was 899 with a gross tonnage of 3,441,569 and outwards 898 with a gross tonnage of 3,420,131, against 1,119 and 1,125 vessels with a gross tonnage of 4,513,255 and 4,549,737 respectively during the previous year. The number of vessels was above half the number of the year 1912-13. Vessels drawing over 21 feet piloted inwards and outwards were 299 and 544 against 304 and 738 vessels in the past year.

Only one inward-bound vessel was neaped for want of sufficient depth of water over the bars.

Three vessels were detained at the Sandheads for want of Pilots against five in 1916-17.

3. **Pilotage receipts.**—The receipts from pilotage fees amounted to Rs. 8,63,709 against Rs. 10,73,967 and Rs. 11,06,117 in the two previous years. The decrease in receipts is solely attributed to the war.

4. **Casualties to vessels.**—There were 12 cases of grounding against 18 in the preceding year. No damage resulted. In only two instances were the Pilots found to be guilty of error of judgment. There was one case of collision and in another case a vessel fouled the centre Saugor Flat Buoy, as against two collisions in the preceding year. In both cases damage resulted. In one of these two cases the Pilot was not held to blame.

Courts of Enquiry.—Three cases of casualties to vessels, viz., two affecting sea-going vessels and one affecting an inland steam vessel, were referred to special Courts of Enquiry.

Examinations.—Out of a total number of 69 candidates, 28 successfully passed the examinations for the grant of Colonial and Home-trade certificates of competency as Master, Mate, Engineer or Engine-driver of a sea-going vessel, and 94 out of 413 candidates passed the examinations for the grant of certificates of competency as Master, Serang or Engine-driver of inland steam-vessels.

There were 229 candidates for certificates of competency as 2nd class Master, Serang or Engine-driver of an inland steam-vessel plying in Mesopotamian waters, of whom 113 passed.

6. Captain D. F. Vines, R.I.M., held the office of the Port Officer and Shipping Master throughout the year except for the period of two months' war leave from 19th September to 18th November 1917, when Commander G. H. S. LaTouche, R.I.M., Deputy Port Officer and Senior Deputy Shipping Master, carried on these duties in addition to his own. Except for the periods from 10th August to 8th September 1917 and from the 28th January to 26th February 1918 when he was on war leave, Commander G. H. S. LaTouche, R.I.M., was Deputy Port Officer and Senior Deputy Shipping Master. Mr. S. H. Reaks, Senior Master Pilot, remained Assistant Port Officer and Deputy Shipping Master throughout the year.

Engineer Commander C. F. Laslett, R.I.M., Engineer Lieutenant Commander E. S. Borner, R.I.M., and Mr. G. F. Silley continued as First, Second and Third Engineer and Shipwright Surveyor, Calcutta, respectively during the year.

The thanks of Government are due to Captain Vines for his efficient administration of the Department and to the other officers of the Port Officer's Department for their co-operation during another year of strenuous work. The members of the Pilot service on duty during the year again co-operated freely and heartily in all measures necessitated by the war.

Port of Chittagong.

Arrival and departure of vessels.—Vessels numbering 600 (inclusive of 437 inland steamers) with a gross tonnage of 312,851 entered and 602 vessels (inclusive of 439 inland steamer) with a gross tonnage of 313,068 left the port as against 774 vessels (including 547 inland steamers) and 776 vessels (including 547 inland steamers) representing a gross tonnage of 529,517 and 525,423 respectively in the previous year.

2. **Casualties to vessels.**—There were 2 cases of accidents to vessels. In one case a brig sank and in another a cargo boat was totally lost.

3. **Examinations.**—Candidates for certificates of competency as Serang, 1st or 2nd class Engine-driver of an inland steam-vessel numbered 72, of whom 33 passed.

There was no R. I. M. officer in charge of the Port and Shipping Office, Chittagong, during the year. Mr. W. W. Nind, Collector of Customs, Chittagong, carried on the duties of the Port Officer and Shipping Master in addition to his own duties.

Engineer Lieutenant G. Hull, R.I.M., held the office of Engineer and Shipwright Surveyor, Chittagong, throughout the year.

The thanks of Government are due to Mr. W. W. Nind, Collector of Customs, for his efficient administration of the Department during the year.

By order of the Governor in Council,

F. A. A. COWLEY,

Secretary to the Government of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 31st October 1918.

Summary.—During the week light showers fell in a few places. More rain is urgently wanted throughout the province. Winter rice is reported to be withering in some districts. In the northern and western Bengal the prospects of the crop are generally unfavourable. Elsewhere the prospects are fair. Fields are being prepared for spring crops. Sowings are being impeded for want of rain. The average price of common rice for the province has risen by about 2·6 per cent. as compared with that of the previous week.

REWARDS.

No. 2652.—The following are the particulars of the acts of gallantry for which admissions to the Indian Order of Merit were sanctioned in the Fourth Supplement, dated 26th May 1917, to the *London Gazette* of 25th May 1917, republished in Army Department Notification No. 273, dated 9th February 1918.

Admitted to the 2nd class of the Order.

Jemadar Wazir Singh, Cavalry.

On the 11th April 1917, he was one of a party under a British officer sent forward to cut the wire to make a passage for the cavalry. Coming suddenly under machine gun fire 22 of the party of 55 were hit and the officer fell mortally wounded. Jemadar Wazir Singh helped to carry him behind a railway embankment 500 yards in the rear. He then took out 4 men and brought in two wounded men under shell and machine gun fire.

Subadar Jan Gul, Punjabis.

For conspicuous gallantry on the 27th September 1916. By his courageous example he led his men across the open up to 300 yards from the enemy's position, maintained them there for three hours and successfully withdrew. Throughout this time the enemy's fire was very heavy. This Indian officer had with him 20 rifles, and desired to lead a charge, but this was considered inadvisable owing to the enemy's superiority in numbers.

No. 4799, Naik Punna Khan, Pathans.

For conspicuous gallantry on the 27th September 1916 when he maintained his machine gun for three hours under heavy frontal machine gun and

rifle fire 300 yards from the enemy's position. During this time the enemy brought up another machine gun on his right flank in order to enfilade our lines, but Punna Khan silenced this machine gun every time it opened fire until he was wounded.

No. 596, Sepoy Munsib Dar Baluchis.

For conspicuous gallantry on the 7th December 1916 as No. 1 of his gun. He was continuously at his gun under heavy artillery and machine gun fire. He had no cover. His fire kept down the fire of two hostile machine guns being employed against the redoubt on his left. He was dangerously wounded next day, and has since died of his wounds.

No. 2238, Sepoy Sadda Singh, Jind Imperial Service Infantry.

For conspicuous gallantry on the 9th October 1916. The regiment having occupied some of the enemy's trenches, it became necessary to halt. In order to carry out a further advance, it was necessary to proceed along a communication trench which was enfiladed. In this trench, which was subject to a hot fire from the fort, were lying a number of killed, whose bodies impeded the advance. Sepoy Sadda Singh assisted by No. 1492, Sepoy Khiwan Singh, proceeded forward under fire and removed the corpses which were blocking the way.

PART IB.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

24-Parganas.

No. 2576M.—The 8th November 1918.—In exercise of the power conferred by section 221 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and upon the application of the Commissioners of the Gobardanga Municipality, in the district of the 24-Parganas, made in pursuance of a resolution passed at a meeting specially convened to consider the question, the Governor in Council is pleased to extend to the said Municipality all the provisions of Part VI of that Act, except sections 252, 253, 275 and 276.

Howrah.

No. 2587M.—The 8th November 1918.—The Governor in Council is pleased to declare his intention, in exercise of the power conferred by section 640 of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), read with section 22 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), to extend to the town of Howrah the following proviso to rule 50 of Schedule XVII of the Calcutta Municipal Act, 1899, subject to the modification therein, which is shown in antique type :—

"Provided that nothing contained in this rule shall authorise any addition to a building which would make it higher than any building which, **at the date of this notification,** is standing in the same place."

II. Any objection to such extension on the part of the Commissioners of the Municipality of Howrah or any inhabitant thereof should be submitted in writing, through the District Magistrate, Howrah, to the undersigned before the 15th December 1918.

Dacca.

No. 2610M.—The 9th November 1918.—In exercise of the power conferred by section 14 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to appoint the following gentlemen to be Commissioners of the Narainganj Municipality in the district of Dacca :—

Mr. H. M. Shircore.	Mr. R. J. Smith.
„ A. L. Godden.	„ L. V. N. Meares.

Hooghly.

No. 2614M.—The 9th November 1918.—The following draft of rules which, in exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council proposes to make and subject to which the Commissioners of the Uttarpara Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only are published for the information of persons likely to be affected thereby.

II. The draft rules will be taken into consideration on the 20th December 1918, and any objection or suggestion which may be received by the undersigned through the District Magistrate before that date will be duly considered.

Draft Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 50, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the municipal office.

2. A fee of Rs. 100 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe or a common communication-pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below, each holding must have a separate connection to the municipal main supply-pipe, and extensions from the communication-pipe of one holding to another holding shall not be permitted:

Provided that with the consent of the Commissioners in meeting connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe must be laid in a street or common passage and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding;

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (*1*) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*2*) No work shall be carried out under sub-rule (*1*), except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings:—

(*a*) a brass or gun-metal ferrule inserted in the main supply-pipe;
(*b*) a galvanized iron communication-pipe from the ferrule to the meter;
(*c*) a stop-cock and its surface-box;
(*d*) a meter;
(*e*) service-pipes from the stop-cock to the taps; and
(*f*) taps.

8. (*1*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(*2*) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(*3*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fittings so presented may, if considered satisfactory by the Chairman, be stamped and passed.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 60 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

Annual value of holding.			Size of ferrule.	Diameter of communication-pipe.	Number of taps.
	Rs.	Rs.	Inch.	Inch.	
From	50 to	99	$\frac{3}{16}$	$\frac{1}{2}$	1
„	100 „	299	$\frac{1}{4}$	$\frac{1}{2}$	2
„	300 „	599	$\frac{1}{3}$	$\frac{3}{4}$	3
„	600 „	1,199	$\frac{3}{8}$	$\frac{3}{4}$	4
„	1,200 „	2,999	$\frac{1}{2}$	$\frac{3}{4}$	5
„	3,000 „	4,999	$\frac{1}{2}$	$\frac{3}{4}$	6
„	5,000 upwards		$\frac{1}{2}$	$\frac{3}{4}$	6 or more at the discretion of the Commissioners.

Note.—In exceptional circumstances as in the case of boarding-houses, hospitals, etc, the Commissioners in a meeting may sanction a bigger size of ferrule and connection-pipe and a larger number of taps.

11. (*1*) On every communication-pipe a brass or gun-metal stop-cock having the same water-way as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(*2*) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(*3*) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (*1*) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(*2*) The meter must be fixed in a brick chamber covered over with a cast-iron surface-box of approved pattern.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. The Commissioners shall depute an authorized person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

15. (*1*) Every owner or occupier of any holding, in respect of which a connection has been made under these rules, shall be entitled to a supply of—

(*a*) 750 gallons of water per quarter for each four annas, and
(*b*) a further proportionate number of gallons per quarter for every additional fraction of four annas,

paid by him quarterly as water-rate in respect of such holding

(2) For all water in excess of the amount allowed under sub-rule (1) such owner or occupier shall be charged quarterly as follows :—

	Annas per 1,000 gallons
(a) For any excess quantity of water not exceeding one-half of the amount of the allowance prescribed in sub-rule (1)	4 as.
(b) For any excess quantity of water exceeding one-half of the amount of the allowance prescribed in sub-rule (1), but not exceeding that amount ...	8 as.
(c) For any excess quantity of water exceeding the amount of the allowance prescribed in sub-rule (1), but not exceeding twice that amount ...	12 as.
(d) For any excess quantity of water exceeding twice the amount of the allowance prescribed in sub-rule (1)	Re. 1.

16. The Commissioners may cut off the connection between any water-works of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely :—

(a) if the holding is unoccupied ;

(b) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorized under this Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection ;

(c) if the owner or occupier of the holding touches or interferes with his meter in any way except with the permission of the Chairman, or wilfully or negligently injures or damages it ;

(d) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood ;

(e) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same ;

(f) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes or any other works in connection with the water-supply not authorized by these rules ;

(g) if the pipes, taps, ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or a state of disrepair :

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (d) an officer authorized by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

17. Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down." Every tap shall be at least 3 feet above the surface of the ground beneath.

18. No cistern, tank or reservoir of any description which is intended to be supplied with water from the municipal water-works shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank or reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10.

19. No connection shall be permitted to any holding unless and until the owner or occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away.

NOTIFICATION.

PLEADERS' SURVEY CLASSES, 1919.

1. Classes for the training of Pleaders in Surveying will be opened in January and February 1919 in connection with the Civil Engineering College, Sibpur, the Bihar School of Engineering, Bankipur, the Dacca

School of Engineering, and the Survey School at Cuttack, provided sufficient candidates register their names at each centre.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the heads of the institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 30th November. His application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 34 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centre, and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed :—

(*a*) Practical work—

Chain surveying, prismatic compass surveying, plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.		Variation of compass.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned lots of land no longer required by Government, situated along the Bhairab-Tangi Branch of the Assam-Bengal Railway, in the district of Dacca, will be put up to sale at the Dacca Collectorate, at 11 A.M., on the 21st day of December 1918, corresponding with the 6th of Paus 1325 B.S.

The purchasers of the several lots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway land, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in case of original sale.

4th.—The lots of land will be sold to the highest bidders subject to the payment of usual rent to their immediate superior landlords.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioners confirming it and a regular conveyance will then be granted to the purchasers.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES; viz.,

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible, after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—
the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

III. SWATAU.

The following Regulations have been made by the Local Military Authorities at Swatau with reference to the existence of mines in the approaches to that port, and are now in force :—

1. Vessels are forbidden to proceed by the channel northward of Sugar Loaf lighthouse.
2. All vessels, including men-of-war, must enter and leave the port by the channel to the southward of Sugar Loaf lighthouse.
3. All vessels, including men-of-war, when entering and leaving, must, when at a distance of 3 miles from Sugar Loaf lighthouse, slow down to a speed not exceeding 6 knots.
4. Vessels leaving or approaching Sugar Loaf lighthouse may not anchor within a distance of 4 miles outside and 2 miles inside thereof, nor throw overboard heavy articles, to do so being dangerous.

5. A guardboat will be stationed by the authorities, which, in case of changes in the minefield, will approach and guide incoming and outgoing steamers.
6. All incoming and outgoing men-of-war and armed steamers should give 24 hours' notice of their expected arrival or departure to the Swatau police.
7. If vessels, including men-of-war, disregard the above rules and thereby incur risks, the local authorities will not accept responsibility.
8. The time for leaving and entering the port is fixed for the hours between 6 A.M. and 6 P.M.

IV. RUSSIAN MARITIME PROVINCE.

The Principal of the Bengal Veterinary College, Calcutta.

PRINCIPAL EVENTS.

Among the principal events of the year were the laying out of the new extension and the erection of the Berridge Fountain therein . . .

The Sunk Water Garden was finished and planted with lotus and water lilies. The base is made of patent stone and the sides of bricks plastered with cement. It is 150 feet long and 10 feet wide. A beautiful fountain was presented to the Garden by Mr. S. C. Berridge, who was Honorary Secretary to the Garden from 1915 to 1918. The work was designed by Mr. N. Sudlow and executed by Messrs. Martin & Co.

The fountain is constructed of buff coloured sandstone from Chunar and consists of four square columns about 10 feet high supporting a *jali* panelled dome with *chujja* cornice on brackets and a finial at top. The railing round the water basin consists of Gwalior stone with beautiful *jali* panelling. The best thanks of the Committee are due to Mr. Berridge for this handsome memento of his association with the Garden.

A figure of Atlas made of Mirzapur stone which formerly surmounted the Standard Assurance Company's office in Dalhousie Square was set up in the south-east corner of the new extension, the entire cost being generously met by Mr. W. K. Dods . . . . . .

IMPROVEMENTS.

Among the improvements to the existing buildings, Raneegunge tiles were substituted for the ornamental fish-tiled roofing of the Reptile House, and a patent stone border was inserted at the base of certain cages in the Dumraon House, where the lower portions of the iron gratings and doors had worn away.

ANNUAL REPAIRS.

Annual repairs to the buildings of the Garden were done departmentally as usual. The quinquennial repairs to the Hermitage were satisfactorily carried out.

. . . . . .

STAFF AND ESTABLISHMENT.

There was no change in the superior staff during the year. The *personnel* consists of :—

SUPERIOR STAFF.

Superintendent :

Mr. Bijay Krishna Basu, G.B.V.C., C.M.Z.S.

Assistant Superintendent :

Babu Somadev Ganguli.

Store-keeper :

Babu Jugal Kishore Roy.

Overseer :

Babu Niranjan Mukerji.

Clerk :

Babu Tarak Chandra Chatterji.

Gate Clerk:

Babu Panchanan Mukerji.

VISITORS.

There was a falling off in the attendance of paying visitors during the year, the turnstile records indicating a total of 583,343 visitors, a decrease of 88,152 as compared with the figures for 1916-17, attributable to reduced train services and absence of facilities generally for travel. In the following

table are shown the number of visitors and the gate receipts for the last three years :—

Year.	Visitors.	Receipts. Rs.	A.
1915-16	598,024	44,332	13
1916-17	671,495	50,024	11
1917-18	583,343	44,564	0

A large number of children under four years of age and school children in charge of their teachers were admitted free. On the day of the Fancy Fair when no individual charge is levied, it is estimated that about 11,600 people entered the Garden. In addition, 53,480 persons visited the Garden on free days, of which a list with the number of visitors on each will be found in Appendix C.

Special arrangements were made for the admission without payment of soldiers on leave and convalescents.

FINANCE.

In spite of the decrease in gate receipts the financial condition of the Garden during the year under review continued to be satisfactory. This is due to the strict economy which was observed in all departments. Expenditure was limited to necessary upkeep, and the policy of postponing new works was continued.

The details of income and expenditure are summarised in Appendix A.

GARDEN.

The Garden was well maintained, and there was a particularly good show of flowering annuals in the cold weather. For a number of exhibits sent to the Agri-Horticultural Society's Exhibition the Head Gardener was awarded a money prize.

CONCLUSION.

The Committee desire to express their thanks to the Corporation of Calcutta for their continued generosity in remitting the consolidated rates in respect of the Gardens.

The thanks of the Committee are also due to those ladies and gentlemen who have added to the Zoological collection by donations, a list of which is given in Appendix D. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted, either because the particular species of animals was already sufficiently well represented, or owing to want of accommodation.

The Committee also desire to express their thanks to the Railways and Steamer Companies for the conveyance of animals belonging to the Gardens free of charge.

W. K. DODS,
Honorary Secretary.

C. J. STEVENSON-MOORE,
President.

SUPERINTENDENT'S REPORT.

I HAVE the honour to submit the following report on the existing condition and the progress of the menagerie of the Gardens.

The following comparative table shows how the various collection of specimens in the Gardens has stood during the last four years :—

Year.	Mammals.	Birds.	Reptiles.	Year.	Mammals.	Birds.	Reptiles.
1914-15 ...	334	1,893	246	1916-17 ...	318	1,975	263
1915-16 ...	351	1,940	198	1917-18 ...	316	2,026	199

ACQUISITIONS.

A complete list of acquisitions will be found in Appendix D. Deserving special mention are a Malayan bear presented by Mr. I. H. Burkill and three Markhors and a Kiang (*Equus hemionus*) purchased.

GENERAL CONDITION OF THE ANIMALS.

The general health of the animals was satisfactory. There were no epidemics amongst the mammals and the larger carnivores were kept in splendid condition, while the Himalayan animals, such as, Markhor, Tahr, Serow, Uryal, Catbear, did remarkably well.

In the aviary there was an outbreak of chicken cholera amongst a lot of newly purchased pheasants, which were at once placed in the segregation shed under observation, and the disease was suppressed without difficulty.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE BRIGADE ACT I OF 1893.

NOTIFICATION.

No. 2579M.—The 8th November 1918.—The following is published for general information under section 41 of the Licensed Warehouse and Fire Brigade Act, 1893 (Bengal Act I of 1893).

L. S. S. O'MALLEY,
Secy. to the Govt. of Bengal.

No. 118M., dated Calcutta, the 20th July 1918.

From—THE HON'BLE MR. F. J. MONAHAN, I.C.S., Commissioner of the Presidency Division,

To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit, herewith, copies of the reports on the working of the Licensed Jute Warehouse and Fire Brigade Act I (B.C.) of 1893, for the year ending the 31st March 1918, in the Cossipore-Chitpur, Manicktola and Garden Reach Municipalities.

No. 1142, dated Talla, the 29th June 1918.

From—BABU HEM CHANDRA DE, M.A., Chairman, Cossipore-Chitpore Municipality,

To—The Magistrate of the 24-Parganas, Alipore.

WITH reference to your letter No. 426-1-18, dated the 15th June 1918, I have the honour to submit the following report on the working of Jute Warehouse and Fire Brigade Act within the municipality during the year 1917-18, together with the statement of receipts and disbursements and of the licensed warehouses in the forms prescribed by Government.

2. The rate of the license fee levied on the warehouses in the year of report was 7½ per cent. on the annual valuations of warehouses as was done in the previous year.

3. The total receipts from the fees and the rates specified in Statement I amounted to Rs. 32,391-9-3. The demand of the Commissioner of Police for the year on account of contribution towards the cost of maintenance of the Metropolitan Fire Brigade payable by this municipality being Rs. 33,692. The Municipal Commissioners had to pay Rs. 1,300-6-9 from their General Fund.

4. No rates were levied under section 25 (*1*) (*b*) and (c) of the Licensed Warehouse and Fire Brigade Act during the year of report but Rs. 3 was realized under section 25 (*1*) (*a*) of the Act.

5. No amount of fine inflicted on persons using warehouses without licenses was received from the Police Magistrate, Sealdah, during the year of report.

6. The warehouses licensed during the year of report are shown in Statement II put up herewith.

No. 136 G.M. dated the 21st June 1918.

From—W. F. DAVIE, ESQ., Chairman, Garden Reach Municipality,
To—The Magistrate of the 24-Parganas.

WITH reference to your letter No. M. 426-1-18 of the 15th instant, I have the honour to report as follows on the working of the Licensed Jute Warehouse and Fire Brigade Act in this municipality for the year 1917-18 and to submit Statements I and II in the prescribed form.

2. During the year under report the total income from jute warehouse fees and from rates under section 25(*b*) of the Fire Brigade Act, as shown in

Statement I, was Rs. 3,905-14-6 against Rs. 2,592-10-8 in the previous year. The amount of contribution paid to the Fire Brigade Fund was Rs. 6,317 against Rs. 6,429 in 1916-17.

In levying the jute warehouse fees the limitations prescribed by the provisions under section 10 of the Fire Brigade Act were strictly followed.

3. The rates at which the fees were levied were 7 per cent. on the annual value of all large warehouses, 8 per cent. on the annual value of wood and straw depôts, and ½ per cent. on the annual value of all *busti* lands with huts, if any, on them. A list of licensed warehouses within this municipality during the year under review is given in Statement II.

RESOLUTION ON THE REPORTS ON INLAND EMIGRATION UNDER THE ASSAM LABOUR AND EMIGRATION ACT FOR THE YEAR ENDING THE 30TH JUNE 1918.

GOVERNMENT OF BENGAL.

COMMERCE DEPARTMENT.

Emigration Branch.

CALCUTTA, THE 7TH NOVEMBER 1918.

RESOLUTION—No. 5081Emi.

READ—

The Reports on Inland Emigration under the Assam Labour and Emigration Act 1901 (VI of 1901), for the year ending the 30th June 1918, submitted by the Superintendent of Emigration, Calcutta, and the District and Assistant Superintendents of Emigration.

DURING the year under review recruitment by persons other than garden-sardars accredited to duly licensed local agents was prohibited. The object of this measure, which was the outcome of a recommendation made by the Assam Labour Board, was to prevent garden-sardars being deputed to work independently of a local agent, a practice which had frequently led to illicit recruiting through unlicensed persons. In order further to facilitate *bonâ fide* sardari recruitment, Government authorized Magistrates and Superintendents of Emigration in recruiting districts to correct technical errors in sardars' certificates.

2. Recruiting operations were conducted in the districts of Bankura, Birbhum, Burdwan and Midnapore. The largest number of emigrants went from the districts of Bankura and Midnapore. Seven licenses were granted to local agents in 1917-18 as against six in the previous year. The number of garden-sardars employed in this Presidency, however, fell to 640 (including 190 sardarnis) from 1,610 (including 357 sardarnis) in the year 1916-17. The number of emigrants recruited in Bengal during the year was 508, or 1,689 less than in the preceding year. It is satisfactory to note that only one criminal case connected with emigration was reported during the year.

3. The total number of emigrants, from Bengal and other provinces, who embarked during the year at Goalundo was 9,808 as against 29,990 in the preceding year. No explanation of this decrease has been given, but it is doubtless one of the results of the dislocation caused by the war, and is in continuation of a still larger drop in the previous year.

4. The places of accommodation and rest-houses for emigrants were properly inspected and maintained in good sanitary condition. The sanitary arrangements on steamers which conveyed emigrants to labour districts were in accordance with the rules, and were generally adequate. Two deaths were reported among emigrants during transit to Goalundo, and three among the 9,836 emigrants who arrived at that place. There was no death during the steamer journey to Chandpur among the 3,389 emigrants who embarked for Cachar and Sylhet; of the 6,419 emigrants who embarked for the Brahmaputra Valley two died during the voyage.

5. Twenty-six emigrants who refused to embark were released under the orders of the Subdivisional Officer, Goalundo, 11 were rejected as unfit to labour in tea estates, and 5 were repatriated from the labour districts through Goalundo.

6. There was a falling off both in receipts and expenditure in connection with the transport of labour to Assam, the figures being Rs. 1,566 and Rs. 1,884, respectively, as against Rs. 1,682 and Rs. 23,964 in the year 1916-17.

7. The Governor in Council desires to thank the Superintendent of Emigration and the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

J. DONALD,

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, *i.e.*, by rail, river, canal, road, and sea, of the Calcutta Block* in certain selected articles during the months of April to August, 1918, as compared with the corresponding period of 1917 and 1916. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta* by rail, river, canal, road, and sea (coastwise) during the months of April to August, 1918, amounted to 5,254,000 maunds as against 3,977,000 maunds in the corresponding period of the preceding year,—an increase of 32 per cent. There was a decrease (7 per cent) in the imports of coal and coke (33,271,000 maunds as against 35,765,000 maunds last year). The imports by rail, river, road, and sea (coastwise) of Indian cotton piece goods showed an increase of 34 per cent, the total value amounting to Rs. 2,30,18,000 as against Rs. 1,70,80,000 in 1917. The quantity of indigo imported during the months of April to August, 1918, increased by 2,900 maunds or 185 per cent. to 4,400 maunds. The imports of raw jute amounted to 1,965,000 bales as against 1,011,000 bales,—an increase of 94 per cent. The importations of gunny-bags also showed an increase of 4 per cent (193 million bags as against 186 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) increased by 19 per cent from 2,260,000 maunds to 2,692,000 maunds. The imports of tea increased by 17 per cent from 1,019,000 maunds to 1,200,000 maunds, and those of sugar by 5 per cent from 294,000 maunds to 309,000 maunds.

Exports.—The exports of cotton piece goods, foreign, from Calcutta* by all routes during the months of April to August, 1918, increased by 13 per cent (Rs. 10,73,39,000 as against Rs. 9,46,90,000 last year). The exports of gunny bags (excluding the exports by sea to foreign countries) increased from 42 million bags to 60 million bags. The shipments of gunny bags to other Indian ports increased by 7,983,000 in number in the period under review (17,252,000 as against 9,269,000 last year). The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) decreased from 2,426,000 maunds to 2,178,000 maunds, or by 10 per cent.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.
† One maund of paddy is equivalent to 25 seers of rice.

REWARDS.

No. 2697.—The Royal Red Cross Warrant, dated the 10th November 1915, and a Royal Warrant, dated the 30th April 1918, amending the Sixth Clause thereof, are republished for information:—

The Royal Red Cross Warrant.

GEORGE R. I.

GEORGE THE FIFTH by the Grace of God of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King Defender of the Faith, Emperor of India. To all whom these Presents shall come Greeting:—

Whereas Her late Majesty Our Beloved Grandmother Queen Victoria by a Warrant dated the 23rd day of April 1883, did institute, constitute and create a Decoration designated "The Royal Red Cross" to be awarded in recognition of special services rendered in nursing the sick and wounded of Our Army and Navy and did make, ordain and establish certain rules and ordinances for the government of the same, which rules and ordinances were subsequently amended by Royal Warrants, dated the 11th day of December 1897, the 24th day of July 1902, and the 8th day of September 1909:

And whereas it is Our Royal Will and Pleasure that further provision shall be made for recognition of such special services rendered in nursing the sick and wounded of Our Army and Navy :

Now therefore We do hereby declare that the rules and ordinances heretofore in force for the government of the said Decoration shall be abrogated, cancelled and annulled, and We are pleased to make, ordain and establish the following rules and ordinances in substitution for the same, which shall from henceforth be inviolably observed and kept :—

Firstly : The Decoration shall be styled and designated "The Royal Red Cross," and shall be divided into two Classes.

The first class shall consist of a Cross enamelled red, edged with gold having on the arms thereof the words Faith, Hope, Charity, with the date of the institution of the Decoration, the centre having thereon in relief the Royal and Imperial Effigy. On the reverse thereof the Royal and Imperial Cipher and Crown shall be shown in relief on the centre.

The Second Class shall consist of a Cross which shall be of the same form and size as in the First Class, but shall be of frosted silver and shall have superimposed thereon a Maltese Cross enamelled red not exceeding half its dimensions, the centre having thereon in relief the Royal and Imperial Effigy. The reverse shall have inscribed on the arms thereof the words Faith, Hope, Charity and the date of the institution of the original Decoration, and shall bear in the centre in relief the Royal and Imperial Cipher and Crown.

Secondly : The Cross in either Class shall be attached to a dark blue riband edged red of one inch in width, tied in a bow and worn on the left shoulder.

Thirdly : The Decoration may be worn by the Queen Regent, the Queen Consort, or the Queen Dowager of the United Kingdom of Great Britain and Ireland ; and it shall be competent for Us, Our Heirs and Successors to confer the Decoration upon any of the Princesses of the Royal Family of Great Britain and Ireland ; also upon the Queens or Princesses of Foreign Countries who may have specially exerted themselves in providing for the nursing of the sick and wounded of Foreign Armies and Navies.

Fourthly : It shall be competent for Us, Our Heirs and Successors, to confer either Class of this Decoration upon any members of the Nursing Services without restriction as to rank, or upon other persons engaged in nursing duties whether subjects or foreign persons, who may be recommended to Our notice by Our Secretary of State for War or by the First Lord of the Admiralty, as the case may be, for special devotion and competency which they may have displayed in their nursing duties with Our Army in the Field, or in Our Naval and Military Hospitals.

Fifthly : The number of awards in the First Class of the Decoration shall not exceed two per cent. of the total establishment of Nurses, and the number of awards in the Second Class of the Decoration shall not exceed five per cent. of the total establishment of Nurses, the allotments to be proportionate to the numbers of each Nursing Service provided nevertheless that it shall be competent for Us, Our Heirs and Successors to make such additions as, under exceptional circumstances, We may deem fitting.

Sixthly : Recipients of the Second Class of the Decoration shall be eligible for advancement to the First Class as vacancies may arise.

Seventhly : Recipients of the First Class of the Decoration shall be designated Members of the Royal Red Cross, and shall be entitled to the letters R.R.C. following their names. Recipients of the Second Class of the Decoration shall be designated Associates of the Royal Red Cross, and shall be entitled to the letters A.R.R.C. following their names.

Eighthly : It shall be competent for Us, Our Heirs and Successors, to confer either Class of the Decoration upon any ladies, whether subjects or foreign persons, who may be recommended to Our notice by our Secretary of State for War as having voluntarily undertaken the duties of establishing, conducting or assisting in hospitals for the treatment of sick and wounded soldiers and sailors of Our Army and Navy, or of Our Indian Military Forces or of the Naval and Military Forces of Our Self-governing Dominions beyond the Seas, or as having performed valuable services with the Red Cross or kindred societies at home or abroad, or as having otherwise rendered eminent services in the care of sick and wounded soldiers and sailors of Our Army and Navy :

and it is hereby ordained that all persons appointed under this Clause shall be regarded as Honorary Members or Associates, and their appointments shall be additional to the establishment ordained in the Fifth Clause of this Our Royal Warrant.

Ninthly: The names of those upon whom We may be pleased to confer the Decoration shall be published in the London Gazette, and a register thereof kept in the office of Our Secretary of State for War.

Tenthly: In order to make such additional provision as shall effectually preserve pure this honourable distinction, it is ordained that if any person on whom such distinction shall be conferred shall by her conduct become unworthy of it, her name shall be erased, by an order under the Royal Sign Manual, from the register of those upon whom the said Decoration shall have been conferred. And it is hereby declared that We, Our Heirs and Successors, shall be the sole judge of the conduct which may require the erasure from the register of the name of the offending person, and that it shall at all times be competent for Us, Our Heirs and Successors. to restore the name if such restoration should be justified by the circumstances of the case.

Lastly: We reserve to Ourself, Our Heirs and Successors, full power of annulling, altering, abrogating, augmenting, interpreting, or dispensing with these Regulations, or any part thereof, by a notification under the Royal Sign Manual.

Given at Our Court at *St. James's* this 10th day of *November*, one thousand nine hundred and fifteen, in the sixth year of Our Reign.

By His Majesty's Command,

H. H. ASQUITH.

Royal Warrant amending Sixth Clause of Royal Red Cross Warrant.

GEORGE R. I.

Whereas by Our Royal Warrant dated 10th November 1915, the Decoration of the Royal Red Cross was divided into two Classes, recipients of the Second Class being eligible for advancement to the First Class, and whereas no provision was made in Our said Royal Warrant for the disposal of the Cross of the Second Class of a recipient who is advanced to the First Class.

It is Our Will and Pleasure and We do hereby ordain that the Sixth Clause of Our said Royal Warrant shall, as from the date thereof, be read as follows:—

Sixthly.—Recipients of the Second Class of the Decoration shall be eligible for advancement to the First Class as vacancies may arise, and on such advancement the Cross shall be returned to the office of Our Secretary of State for War.

Given at Our Court at St. James's this thirtieth day of April 1918, in the Eighth year of Our Reign.

By His Majesty's Command,

MILNER.

No. 2678.—His Excellency the Governor General of India has been pleased to confer the Volunteer Officers' Decoration upon Captain Hugh Gordon Cotton, 9th Northern Bengal Mounted Rifles, Indian Defence Force.

1. Classes for the training of Pleaders in Surveying will be opened in January and February 1919 in connection with the Civil Engineering College, Sibpur, the Bihar School of Engineering, Bankipur, the Dacca School of Engineering, and the Survey School at Cuttack, provided sufficient candidates register their names at each centre.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the heads of the institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 30th November. His application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 34 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centre, and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed :—

(*a*) Practical work—

Chain surveying, prismatic compass surveying, plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.		Variation of compass.
Construction of scales	...	Preparation of field books from maps.
Mensuration of areas	...	Elementary principle of levelling.
Plotting ...	...	Plotting of level sections.

Candidates who obtain the required percentage of attendance at this course of instruction are qualified to appear at the Practical Examination held in 1920, 1921 and 1922.

NOTIFICATION.

ANNUAL EXAMINATION OF PLEADERS IN SURVEYING.

(*See* Government Notification No. 3157J., dated 25th November 1909.)

(*Modified in Government Notification No. 320J.D., dated 16th July 1914.*)

1. The next examination will be held in February 1919 and will be conducted at the following centres (provided that not less than five names be registered at each centre) :—Sibpur and Dacca, in Bengal, and Bankipur and Cuttack, in Bihar and Orissa.

2. Each examination is complete in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the examiner in it.

3. Candidates practising in the Courts of the Presidency and Burdwan Divisions will be required to present themselves at Sibpur, in Orissa at Cuttack, in Patna, Tirhoot, Bhagalpur and Chota Nagpur Divisions at Bankipur, and in Rajshahi, Dacca and Chittagong Divisions at Dacca.

4. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

5. No candidate will be admitted to the examination unless he has been enrolled as a Pleader and

(*i*) has obtained credit for attendance at the special course of instruction at Sibpur, Bankipur, Cuttack or Dacca, in 1915, 1916, 1917 or 1918, and has not previously appeared at the examination more than twice, or

(*ii*) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(*iii*) has passed the Sub-Overseer Examination, or

(*iv*) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(*v*) has been specially exempted from the operation of this rule by the Board controlling the examination.

6. Candidates wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose Court he is enrolled, and forward the same so as to reach the Secretary of the Examination Board at the Civil Engineering College, Sibpur, not later than the 11th January 1919. The form may be had from the Principal, Civil Engineering College.

7. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, *which fee will in no case be returned.*

8. The exact date of the examination and the proposed programme will be published in the Calcutta, Bihar and Orissa, and Assam Gazettes.

N.B.—These books are also intended for the corresponding classes of Girls' Schools in Bengal.

D.—In Lower Primary schools and in the corresponding classes of High, Middle Upper Primary Schools in this Presidency lessons on Hygiene should be entirely oral. These lessons should take the form of talks on the following or similar topics :—

(*a*) The necessity for personal cleanliness.

(*b*) The necessity for keeping rooms clean.

(*c*) The necessity for pure water, fresh air, sunlight and ventilation, the danger of shutting up sleeping-rooms.

(*d*) The danger of insanitary and dirty habits such as spitting.

(*e*) The necessity of exercise.

(*f*) Some information as to how simple complaints—wounds, snake-bites, burns, etc., should be treated; how a drowning person should be handled, etc.

The teaching must proceed not merely by precept but by example. The first essential then is that the teacher himself should be a man of healthy and clean habits; the second that the school should be well ventilated and scrupulously clean; the teacher should also insist that every child who comes to school must be clean and tidy.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned lots of land no longer required by Government, situated along the Bhairab-Tangi Branch of the Assam-Bengal Railway, in the district of Dacca, will be put up to sale at the Dacca Collectorate, at 11 A.M., on the 21st day of December 1918, corresponding with the 6th of Paus 1325 B.S.

The purchasers of the several lots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway land, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in case of original sale.

4th.—The lots of land will be sold to the highest bidders subject to the payment of usual rent to their immediate superior landlords.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioners confirming it and a regular conveyance will then be granted to the purchasers.

I. PHILIPPINE ISLANDS.

Manila Bay.

The South Channel into Manila Bay is closed to traffic and is protected by mines ; this channel extends from Caballo Island on the north to Restinga Point on the south.

The North Channel between Corregidor Island and the shore of Bataan province to the northward is closed to inward bound traffic from sunset to sunrise, except to certain vessels engaged in public service. Vessels are, however, permitted to leave Manila Bay by the North Channel without restriction as to time.

Obedience to the above regulations will be enforced by vessels of the United States Navy and by the shore batteries.

Failure to comply with any of the above regulations may result in the destruction of the offending vessels.

Súbic Bay.

Súbic Bay is closed to traffic ; any unauthorised vessel attempting to enter the port does so at her peril.

II. HONGKONG.

Cape Collinson light is extinguished.

▬▬▌ ▌▬▬, ▬▬▌ ▌▬▬, Green Island light is normally extinguished, but will be exhibited when the local Typhoon signals are hoisted, and will be shown until the signals are hauled down.

III. SWATAU.

The following Regulations have been made by the Local Military Authorities at Swatau with reference to the existence of mines in the approaches to that port, and are now in force :—

1. Vessels are forbidden to proceed by the channel northward of Sugar Loaf lighthouse.
2. All vessels, including men-of-war, must enter and leave the port by the channel to the southward of Sugar Loaf lighthouse.
3. All vessels, including men-of-war, when entering and leaving, must, when at a distance of 3 miles from Sugar Loaf lighthouse, slow down to a speed not exceeding 6 knots.
4. Vessels leaving or approaching Sugar Loaf lighthouse may not anchor within a distance of 4 miles outside and 2 miles inside thereof, nor throw overboard heavy articles, to do so being dangerous.

5. A guardboat will be stationed by the authorities, which, in case of changes in the minefield, will approach and guide incoming and outgoing steamers.
6. All incoming and outgoing men-of-war and armed steamers should give 24 hours' notice of their expected arrival or departure to the Swatau police.
7. If vessels, including men-of-war, disregard the above rules and thereby incur risks, the local authorities will not accept responsibility.
8. The time for leaving and entering the port is fixed for the hours between 6 A.M. and 6 P.M.

IV. RUSSIAN MARITIME PROVINCE.

READ—

The Administration Report on the Howrah Bridge for the year 1917-18.

THE year under review opened with a deficit balance of Rs. 3,19,033 on Revenue Account.

2. The income of the Bridge during the year amounted Rs. 3,43,284 against Rs. 2,50,546 in the previous year. The total expenditure was Rs. 4,27,195, including Rs. 1,41,492 expended on renewals to the Bridge

structure and repairs to the ferry landing stage at Howrah. In the preceding year (1916-17) the total expenditure was Rs. 4,51,455, which included an abnormal expenditure of Rs. 2,13,556 on renewals and repairs to the Bridge structure.

The increase in the income is principally the result of—

(1) the increased receipts from the terminal fee payable by the East Indian Railway traffic, consequent on the re-imposition of the fee on edible grains and seeds passing over the Bridge to and from Howrah ;

(2) the contribution of Rs. 26,000 made by the Bengal-Nagpur Railway in consideration of their passenger traffic over the Bridge ; and

(3) the increased earings of the two ferry steamers of the Bridge.

3. The increase in expenditure during the year under review, as compared with the previous year, under the head of "Maintenance and Repairs," is chiefly due to increase in the price of materials due to the war ; and that under "Miscellaneous charges" to the interest charged on the larger advances of funds by the Port Commissioners to the Bridge Fund.

4. The working result of the year was a deficit of Rs. 83,911, as compared with Rs. 2,00,908 of the previous year, so that the closing debit balance on Revenue Account on the 31st March 1918 stood at Rs. 4,02,944. The renewals to the Bridge structure and repairs to the Howrah ferry landing stage which cost Rs. 3.55,048, were completed during the year ; and it is anticipated that the present large debit will be extinguished gradually from future surpluses.

5. The number of vessels that passed through the Bridge during the year and the preceding four years is given below :—

	1917-18	1916-17	1915-16.	1914-15	1913-14.
Sea-going vessels	60	61	80	75	87
Inland steamers and flats ...	2,345	2,806	2,704	2,442	2,887
Steam-tugs and steam-launches ...	773	886	897	805	569
Port Commissioners' vessels ...	39	27	39	71	44
Government steamers and flats ...	7	9	9	...	20
Total ...	3,224	3,780	3,729	3,372	3,607

6. The total number of accidents during the year was 39 against 17 in the preceding year. As the result of these accidents four boats and one life were lost.

7. The Bridge was opened on 304 occasions, viz., 39 times during the day and 265 times at night.

8. The receipt of the report by Mr. Basil Mott on the type of the proposed new bridge best suited to the locality and the traffic using the river, to which reference was made in the Resolution on the report for the year 1916-17, is still awaited.

APPOINTMENT OF A COMMITTEE TO CONSIDER THE MEASURES TO BE TAKEN AT PRESENT TO SECURE RECRUITS FOR THE BENGAL PILOT SERVICE.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 15TH NOVEMBER 1918.

RESOLUTION—No. 2711Marine.

SINCE the beginning of the war the question of the recruitment of Leadsmen Apprentices for the Bengal Pilot Service has been one of extreme difficulty. In a despatch from His Majesty's Secretary of State for India, dated the 6th August 1915, it was intimated that attempts to obtain qualified candidates from the training ships in England had failed. Accordingly in his despatch, dated the 8th October 1915, His Lordship sanctioned the proposal submitted by this Government to obtain recruits from the Merchant Service in the East, but in spite of all the efforts of this Government and of the relaxations of the conditions of recruitment allowed in particular cases, the arrangement has not proved a success. As a temporary measure, however, certificated officers from the Mercantile Marine have been appointed as second and additional second officers of the two pilot vessels to relieve the Leadsmen Apprentices holding those appointments.

2. The present position of the service is such as to cause the gravest anxiety to the Government of Bengal as well as to the mercantile community, inasmuch as the training reserve of the Pilot Service has been reduced almost to nil. The situation, therefore, calls for emergent measures. Various suggestions have been made to meet the situation by the Port Officer, Calcutta, the Port Commissioners, Calcutta, and the Bengal Chamber of Commerce. Of the suggestions made the following may be mentioned :—

(*i*) the appointment of cadets direct from the training ships without the usual intermediate sea experience ;

(*ii*) the appointment of probationers who are Anglo-Indians direct from the Indian schools ;

(*iii*) the enlistment of Master Mariners who should be able with comparatively short training to take charge of vessels.

3. The Governor in Council considers that the most important question at this moment is to overcome the present difficulties as to recruitment with a view to augment immediately the training reserve of the Pilot Service. He has accordingly decided, with the approval of the Government of India, to convene a Committee to advise Government as to what steps can be taken at the present time to secure recruits for that service without reference to the question of future recruitment. The Committee will consist of the following members :—

1. The Hon'ble Member in charge of the Marine Department, *President.*
2. The Secretary to the Government in the Marine Department ;
3. The Port Officer, Calcutta ;
4. A representative of the Bengal Pilot Service ;
5 & 6. Two nominees of the Bengal Chamber of Commerce representing shipping and commercial interests, respectively ;
7. A representative of the Calcutta Trades Association ; and
8. The Hon'ble Mr. W. H. H. Arden-Wood, C.I.E., representing the Anglo-Indian interests.

The Committee will sit at 11 A.M. on Tuesday, the 10th December, 1918, in the Committee room in Writers' Buildings.

Copies of the relevant papers will be forwarded beforehand to the members.

ORDER.—Ordered that a copy of the Resolution be forwarded to—

(1) the Port Officer, Calcutta, with the request that he will arrange for the selection of a representative of the Bengal Pilot Service ;
(2) the Bengal Chamber of Commerce with the request that two nominees as indicated above may be arranged for, the names of the gentlemen nominated being reported to this department for information ;
(3) the Calcutta Trades Association with the request for the nomination of a representative ; and
(4) the Hon'ble Mr. W. H. H. Arden-Wood, C.I.E.,

for information.

ORDERED also that it be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council,

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT OF THE PUBLIC SERVICES COMMISSION.

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

CALCUTTA, THE 19TH NOVEMBER 1918.

RESOLUTION—No. 6279A.

READ—

Report of the Royal Commission on the Public Services in India.
Proceedings of the meeting of the Bengal Legislative Council held on the 14th March 1918.
Letter to the Registrar, Calcutta High Court, No. 1979A., dated the 23rd March 1918.
Report on Indian Constitutional Reforms.
Letter from the Registrar, Calcutta High Court, No. 3116, dated the 5th September 1918.

THE question of the adequacy of the scales of pay in the Provincial Judicial Service has engaged the attention of Government for some years past. It was originally proposed that a special grade of munsifs should be created and that the pay of the lowest grade should be raised. On the reconstitution of the provinces it was decided to retain for Bengal the special grade on Rs. 500 which had been sanctioned for munsifs in Eastern Bengal and Assam; but the proposal to raise the pay of the lowest grade was relegated for further consideration, as the question could more conveniently be dealt with independently on its merits. In 1914 the High Court came forward with a scheme, which not only provided for an increase in the pay of the last grade of munsifs from Rs. 200 to Rs. 250, but also suggested wide and important changes in the conditions of service, salary and leave of provincial judicial officers; but as these were matters within the scope of the enquiry made by the Public Services Commission, it was not considered desirable to anticipate their recommendations. The report of the Commission was published in January 1917, and the general principles underlying their recommendations first came under examination. As, however, it was recognised that the delay which had occurred had caused disappointment to the provincial judicial officers, it was decided to take up this question in advance, so that the local Government might be in a position to submit their conclusions as soon as the cases of individual services came up for consideration. Government gave an assurance to this effect when, in reply to resolutions moved at the meeting of the Bengal Legislative Council on the 14th March 1918, it was stated that they proposed to consult the High Court at once. The High Court were accordingly addressed on the subject on the 23rd idem. The views of the Honourable Judges have now been received; but, before committing himself to a definite opinion on the various points which arise out of the recommendations of the commission, the Governor in Council desires to place them before the public in order that those interested may have an opportunity of expressing their views in the matter. For the sake of convenience the more important points are summarised in the following paragraphs under specified heads in the order in which they occur in the Commission's report.

2. **Organisation.**—The Provincial Judicial Service was formed to fill charges of minor responsibility in the civil judicial administration of the province. One of the principles laid down by the Commission is that, so long as there is in any department a large body of work of varying importance and responsibility, it is desirable to constitute it in separate branches, the officers performing less responsible duties being required to occupy a position inferior to those who perform the higher ones. The Provincial Judicial Service, which represents the lower branch of the Civil Service in the sphere of judicial administration, was formed to fill charges of minor responsibility in that sphere. The principle has been generally accepted as sound, and the arrangement is regarded as satisfactory.

3. **Recruitment.**—Under the existing system, the Provincial Judicial Service is recruited from the practising members of the bar under the rules made by the local Government in consultation with the High Court under section 7, Act XII of 1887 The appointments are made by nomination, the qualifications required being that a candidate must not be over 27 years of age and must have obtained the degree of B.L. This system has been in force for the last fifty years ; and, although alternative methods of examination or a combination of examination and nomination have at times been suggested, the existing procedure has been maintained, largely with the object of securing the representation of different communities in the service. The Commission have tentatively recommended nomination as the method of recruitment for the public services generally, and in regard to the Provincial Judicial Service the qualifications which they propose to lay down are :—

(1) that candidates should have attained the B. L. degree ;
(2) that their age should not exceed 30 years ; and
(3) that, although experience at the bar should not be obligatory, the judicial authorities may rightly take this consideration into account in making their recommendations.

The utility of a B. L. degree as a qualification for appointment to this service has never been questioned, but the Commission's proposal in the matter of age presents some difficulty. Under the rules now in force, the name of a candidate who has been enrolled for appointment is removed from the list, if he has not been appointed to officiate as a munsif before reaching the age of 29. It may be argued that the age-limit which the Commission propose is unnecessarily high, especially if the provision requiring from candidates a period of practice at the bar is abolished as has been suggested. There are disadvantages in a late system of recruitment, inasmuch as the State is deprived thereby of an officer's services for several years during which he is capable of doing valuable work. It is also of doubtful advantage to the candidate himself to have to wait till so late before adopting a profession. It is understood that it is not ordinarily possible for a candidate to pass the B. L. examination until he is above the age of 25 years ; and the candidate for employment in the Provincial Judicial Service is unlikely to obtain any considerable practice at the bar between the time when he takes his B. L. degree and the age of 30, when he would usually be recruited according to the Commission's proposal. It is open to question whether his time would not be more profitably spent in being trained for judicial work during this interval under an experienced judge. These considerations point to the conclusion that the age-limit for recruitment should be fixed as low as possible ; but, as it is necessary to obtain a sufficient number of good candidates, it is doubtful whether any age lower than 27 should be fixed. In regard to the third recommendation it seems sound that experience at the bar should not be obligatory and should be taken into account only in very exceptional circumstances.

As to the method of selection the Commission's proposal that Government should make the appointments on the advice of the High Court merely involves the retention of the existing practice in the matter. The Commission also recommend that—

(*a*) in making their recommendations the High Court should follow the results of the B. L. examination for the larger share of the vacancies, provided that the candidates are otherwise suitable, and

(*b*) for the remaining vacancies the nominating authority, *i.e.*, the Court, should submit the names of candidates who have done less well, but who, for other reasons, appear fitted for public service, due regard being had to the claims of the various communities and interests in the country.

The acceptance of the Commission's proposals would restrict the discretion of the nominating authority which at present can nominate the best candidate available with due regard to the requirements of the service.

4. **Probation and Training.**—The Commission's recommendations under this head are :—

(1) that a grade of probationers should be created ;
(2) that the period of probation should be fixed at two years ;
(3) that during the period of probation recruits should be trained under the orders of the highest judicial authorities ; and
(4) that, while on probation, recruits should be paid at the rate of Rs. 200 a month.

The first three of these proposals are *primâ facie* unexceptionable. In regard to the fourth it is for consideration whether it would not be unduly extravagant to pay the probationers at the rate of Rs. 200 a month. The recommendation that probationary munsifs should be paid at this rate is based on the assumption that the maximum age for recruitment to the Provincial Judicial Service will be 30. If, for the reasons stated in paragraph 3 above, a lower age-limit is fixed, it may not be necessary to grant so large an allowance to probationers. For probationers in the executive branch an allowance of Rs. 150 has been proposed by the Commission ; and, bearing in mind that probationary munsifs will have had a longer educational course and will be older when they join their appointments, it would seem to follow that they should draw a higher allowance ; but Rs. 175 might be regarded as adequate.

5. **Salary.**—In regard to salary the Commission propose the substitution of an incremental for the existing graded system of payment ; they recommend that, on confirmation, officers should be remunerated on a scale of Rs. 300—$\frac{40}{5}$—500 a month, and on promotion to subordinate judgeships, on a scale of Rs. 600—40—800 a month, with a further grade of Rs. 1,000 for selected officers. For the reasons stated in paragraph 50 of the Commission's report, there are obvious advantages in an incremental system of pay ; and, in consideration of the type of recruits whom it is desired to attract, the proposed scale would seem to be suitable. The question, however, will require consideration from its general aspect, and no final decision can be arrived at without reference to the conditions and claims of other provincial services. According to the scale proposed by the Commission, provincial judicial officers will begin on a higher initial salary and reach the top of the incremental scale earlier in their career than officers in the executive service. If the proposal that candidates should be recruited at the maximum age of 27 is accepted, the respective rates of pay open to provincial judicial and executive officers of the age of 27 to 41 will be as follows :—

Age	Rate of pay.	
	Provincial Judicial Service	Provincial Executive Service.
	Rs.	Rs.
27	175	250
28	175	250
29	300	250
32	340	290
35	380	330
38	420	370
41	460	410

It will appear that a Munsif after his confirmation will draw Rs. 50 a month more than his confrère in the executive service between the ages of 29 and 41, but against this has to be set the consideration that the executive officer is recruited at an earlier age and so has a longer time to serve, and that the service offers other incidental advantages and a larger number of special appointments.

In paragraph 65, annexure X to their report, the Commission recommend that all appointments carrying a salary of Rs. 500 a month and upwards should be ranked as selection posts, and that this higher scale of salary should be attainable only by such officers as are specially empowered to do and are actually doing the higher forms of judicial work. As it is already the rule to treat the Rs. 500 grade as a selection grade, this part of the proposal may be readily accepted. Otherwise the question whether munsifs should be vested with special powers depends largely on the administrative necessities

of the district to which they are posted. It is therefore suggested, in modification of the Commission's proposal in this respect, that it should be laid down as a general principle that no officer should be promoted to the Rs. 500 grade who is considered incapable of exercising the special powers or is unfit for promotion to the third grade of subordinate judges.

6. **Leave.**—The Commission recommend that members of services recruited provincially should continue to serve under the Indian service leave rules, subject to the changes outlined in paragraph 82 of the report, the most important of which is that such officers should be permitted to accumulate privilege leave up to four months. The further suggestion has been made that, whereas at present any privilege leave taken is on half pay, subordinate judges and munsifs should be granted fifteen days' privilege leave per annum on full pay, retaining the right to another fifteen days' leave on half pay as at present, and that, in special cases, they should be permitted to combine such leave with the vacation—a concession which they do not enjoy at present.

7. **Pension.**—The Commission recommend that members of the judicial branch should be allowed to reckon as service qualifying for superannuation pension, the number of completed years by which their age at the time of appointment exceeded 25 years. This recommendation is regarded as of special value to provincial judicial officers. Further suggestions are contained in paragraph 70 of annexure X and in paragraph 91, page 57, of the report, which include provision for officers who have completed 25 years' qualifying service to retire, at their option, before attaining the age of 55, on pensions calculated in accordance with a graduated scale.

8. Another question, which is likely to affect the consideration of the points raised, is the extent to which provision should be made for the higher employment of provincial judicial officers. Under the existing system, the number of judgeships to which members of the Provincial Judicial Service can aspire is six. In dealing with questions relating to the Indian Civil Service, the Public Services Commission proposed that on the judicial side only four such posts should be held by provincial officers. On the other hand, they suggested that six judgeships should be thrown open to the bar. The objections to the present system under which selected provincial service officers are appointed to fill specified posts in the higher service are set forth in paragraph 15 of annexure X to the Commission's report, where, in addition to other arguments against the selection of officers from the Provincial Service, it is stated that the officers so selected enjoy only an inferior status, while they are promoted towards the end of their career, when ordinarily they have only a short while to serve before reaching the time prescribed for retirement. These objections are not without force, but on the other hand there is the fact that members of the Provincial Judicial Service are eligible for appointment to a limited number of district and sessions judgeships, and this is regarded as a factor of great weight in attracting highly qualified candidates to the service. In paragraph 317 of the report on Indian Constitutional Reforms, His Excellency the Viceroy and the Secretary of State have raised the question of the proportion of higher appointments, which may, under present conditions, be thrown open to Indians generally, and until this and other questions of broader principles are settled, these points of detail cannot be satisfactorily worked out. Although, therefore, it may be somewhat premature to ask for a considered opinion on this point, His Excellency in Council will be glad to receive the views of the public in the matter. As it is proposed to place the Government of India in possession of the views of the local Government at the earliest possible opportunity, it is requested that any remarks or criticisms on the specific points which have been outlined above may be forwarded to the Chief Secretary to the Government of Bengal not later than the 23rd December 1918.

ORDER.—Ordered that a copy of the Resolution be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council,

H. R. WILKINSON,

Offg. Chief Secy. to the Govt. of Bengal.

REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT IN BENGAL DURING THE YEAR 1917-18.

NOTIFICATION.

No. 3146S.R.—The 15th November 1918.—The following extracts from the Report of the Commissioner of Excise and Salt on the administration of the Excise Department in Bengal during the year 1917-18, are published for general information.

J. DONALD,

Secy. to the Govt. of Bengal.

No. 4014E., dated Calcutta, the 18th September 1913.

From—A. N. MOBERLY, ESQ., I.C.S., Commissioner of Excise and Salt, Bengal,

To—The Secretary to the Government of Bengal, Financial Dept.

I HAVE the honour to submit the following report on the administration of the Excise Department in the Presidency of Bengal for the year 1917-18.

I was in charge of the Department throughout the year.

5. **Temperance teaching in schools.**—The following has been communicated to me in compliance with Government Memorandum No. 1850 R. S., dated the 24th September 1915, for incorporation in this report:—

The question of teaching temperance in the higher and lower classes of schools in the Presidency was considered at the Inspectors' Conference, held at Darjeeling last year, and a special committee was appointed for the purpose of preparing a syllabus for teaching drill, hygiene and temperance in connection with the revision of curricula. The matter is still under consideration. Several hundred copies of a medical pronouncement on the consumption of alcohol and drugs in India have recently been distributed to schools and colleges in Bengal.

6. **Comparison of 1917-18 with 1912-13.**—As five years have now passed since Temperance Deputations waited on the Right Honourable the Secretary of State for India and His Excellency the Viceroy in 1912-13, it may be of interest to note comparative figures for that year and 1917-18, showing the number of shops for the retail sale of country spirit, *ganja* and opium, the three articles from which the bulk of the Excise revenue in Bengal is derived, and the consumption, the revenue and the incidence of taxation in each case. To facilitate comparison the figures relating to country spirit in the Chittagong Division have been omitted from both years, as the outstill system was in force there in 1912-13 and accurate statistics of consumption are not available. The cost price of opium has been included in the figures for revenue of both years, as this forms part of the taxation and has been considerably increased during the period under review. The cost price of country spirit has not, however, been included, as there has been no appreciable change during the period, nor has that of *ganja*, as it cannot

be accurately ascertained, though it was certainly higher in 1917-18 than in 1912-13.

The heavy decrease in consumption is largely due to the war and cannot be expected to be permanent, though much of the decrease in the consumption of opium is due to the precautions taken to prevent the sale of opium to smugglers and it seems hardly likely that the figure of 1912-13 will again be reached as long as these precautions are continued. Attention may be invited to two points. In the first place it has taken a very large increase in the incidence of taxation, particularly in the case of drugs, as well as considerable restrictions of the hours of sale to produce these decreases even in a time of economic stress. This increase in the incidence of taxation has been effected within a comparatively short period and the rate of increase cannot be maintained indefinitely. In the second place, notwithstanding the decrease in consumption, there has been an increase of revenue under each head. Had consumption not been affected by the war as well as by the increase in taxation, this increase of revenue would certainly have been very large. It is sometimes assumed that an increase in the revenue necessarily connotes an increase in consumption and that it should therefore be unhesitatingly condemned. The present example shows clearly that an increase of revenue should not be condemned without further enquiry. It is possible that in the circumstances caused by the war there might have been a decrease of revenue if the enhancement of taxation had not been carried so far, but it is certain that without the enhancement of taxation which has been effected the decrease in consumption would have been less.

The number of shops has been decreased wherever possible, but this again is a matter in which there must be a limit, and I think the limit has

very nearly been reached as regards shops for the sale of country spirit, *ganja* and opium. In certain areas it may be possible to make some further reduction. On the other hand, it cannot be denied that in areas in which communications are difficult, and this applies to a considerable part of Bengal either throughout the year or at certain seasons, moderate consumers have not always been provided with adequate facilities for obtaining supplies and some additional shops are really needed.

7. **Temperance movements.**—The temperance movement at Teknaaf continued and the liquor shops were not re-opened although two cases of illicit distillation were detected during the year.

8. **Excise Advisory Committees.**—Excise Advisory Committees were convened for all municipalities outside the Calcutta district and for all rural areas. All their recommendations were very carefully considered and effect was given to them wherever practicable. One foreign liquor shop, one *tari* shop and seven *pachwai* shops were abolished, and the sites of one foreign liquor shop, thirteen country spirit shops, ten *tari* shops, six *pachwai* shops, four *ganja* shops and five opium shops were changed in accordance with their advice. Sites would have been changed in other cases if suitable places could have been found to which the shops could be removed. In some cases objections were met by the erection of screens.

9. **Licensing Boards.**—The Licensing Boards held seventeen meetings during the year as compared with twelve in 1916-17.

* * * * * *

The action taken is summarized in the following statement :—

At a meeting held on the 11th April 1917, the Calcutta Licensing Board recommended that as a temporary measure all late-closing licenses authorising hotels and restaurants to remain open for the sale of intoxicating liquor after 11 P.M. should be withdrawn. Effect was given to this recommendation from the 22nd April 1917.

At their meeting of the 16th July 1917, the Calcutta Licensing Board decided experimentally for one year, with effect from the 1st April 1918, to remove all shops from the area bounded on the north by Beadon Street, on the south by Bowbazar Street, on the east by Circular Road, and on the west by Chitpore Road, which is largely inhabited by students. Shops situated on or near the boundary roads mentioned above were, however, not affected. In accordance with this decision, one country spirit, one *tari*, one opium, one foreign liquor "off" and one *ganja* shop have been abolished, and one opium, two *ganja*, one *bhang*, and one foreign liquor "off" shop have been removed to sites approved by the Board on the border of the area.

One new license was sanctioned for a Chinese restaurant to meet a particular demand among the Chinese residents. All other applications for new licenses were rejected.

A considerable advance was made during the year in improving the sanitary condition of country spirit and *tari* shops in Calcutta. The Health Officer of the Calcutta Corporation arranged that all these premises should

be visited by his Inspectors and advised the Excise Department as to the sanitary improvements necessary in each place. The licensees were directed to carry out the improvements suggested by the Health Officer within a specified time. Most of them have carried out the improvements, whilst others have been granted time to make the necessary structural alterations to their premises.

13. **Actual receipts.**—Deducting the advance collections (Rs. 7,70,522) for 1918-19 and adding the revenue (Rs. 9,72,835) which was collected in advance in 1916-17, the actual receipts on account of 1917-18 were Rs. 1,58,27,704 against Rs. 1,46,28,850 (after similar adjustment) of the preceding year, showing an increase of Rs. 11,98,854 or 8·19 per cent.

14. **Excise Charges.**—The total expenditure of the Excise and Salt Department, excluding refunds, shows an increase of Rs. 67,339 as compared with 1916-17. The principal increases occurred under the heads of "Salaries and establishment" (Rs. 29,131). "Allowances" (Rs. 26,299), "Rewards" (Rs. 20,066) and "Other charges" (Rs. 18,951). The greater part of the increases under "Salaries and establishment" and "Allowances" was due to the fact that the Deputy Commissioner, Dacca, was employed for the whole year and that the officers added to the cadre in 1916-17 drew pay and allowances throughout the year. The Superintendents on the time-scale received increments of salary. Towards the close of the year further additions were made to the cadres of Superintendents and Inspectors and the allowances of Inspectors and Sub-Inspectors in Calcutta were increased. Expenditure on rewards rose with the detection of a larger number of important cases. The increase under "Other charges" was due to the transfer to this head of the expenditure incurred on account of repairs to boats and launches. It had previously been shown under the head "Contingencies and special charges." The total expenditure in 1917-18 under these two heads was less than in the preceding year.

15. **Revenue under different heads** * * *

Revenue increased under all the main heads except "Total duty on hemp drugs," which decreased by Rs. 1,96,131. Country spirit gave the largest increase of revenue (Rs. 7,85,913); receipts under "Wines and spirits" (foreign liquors, other than beer, medicated wines and commercial spirits) came next with an increase of Rs. 2,67,812, followed by "Hemp drugs, license fees and warehouse dues" (Rs. 1,37,334), "Receipts from commercial spirits" (Rs. 92,251), "Opium" (Rs. 73,809), *Pachwai* (Rs. 28,450) and *Tari* (Rs. 17,506).

16. **Demand and Collection** * * * Of the gross demand of Rs. 1,56,52,985 a sum of Rs. 1,56,25,391 or 99·82 per cent. was realized. Rs. 9,690 was remitted as irrecoverable. Taking the population of the Presidency of Bengal, according to the census of 1911, to be 45,329,247, the incidence of Excise revenue (exclusive of revenue derived from issues of excisable articles to other provinces, native states and foreign countries) was 5 annas 5 pies against 5 annas 1 pie in the previous year.

17. **Result of settlements for the current year up to 31st May 1918.**— * * * * * * * The settlements for the current year show a net increase of Rs. 23,887.

The results under the different heads were as follows :—

		Rs.
Country spirit	+	33,561
Foreign liquor	–	7,727
Fermented *tari*	–	4,202
Pachwai retail	+	2,05,699
Hemp drugs	–	32,780
Opium	–	1,70,664

License fees for country spirit increased in ten districts and decreased in the remaining seventeen districts. The largest increase occurred in Burdwan (Rs. 44,664) and was due to the increase in consumption in 1917-18. The figures for Hooghly, Howrah, the 24-Parganas and Calcutta under this head and also under "opium" and "hemp drugs" can only be regarded as an estimate, as the license fees in these districts for the current year will depend upon the current year's consumption. There were no very large fluctuations under foreign liquor or *tari*. The almost general decrease under the former head in districts in which the shops chiefly depend upon Indian consumers is due to a further reduction in consumption due to continued high prices.

The greater part of the large increase under *pachwai* was contributed by Burdwan (Rs. 1,79,832), Birbhum (Rs. 17,028) and Bankura (Rs. 14,963) and was due to the low price of rice and, in the Asansol subdivision, to the large number of labourers required for the different industries. Opium license fees fell in most districts owing to the enhancement of the treasury price. More than 90 per cent. of the license fees for the sale of hemp drugs is derived from *ganja*. Vendors of this drug suffered considerably in 1917-18 from the high wholesale prices, and though these have now been reduced it is only natural that many vendors should not be prepared to commit themselves to the high license fees which they paid last year.

SECTION II.—Country Liquor.

* * * * * *

Country spirit.

19. **System.**—The system of contract supply was the only system in force in this Presidency during the year under report.

20. **Country spirit licenses.**—The number of licenses for the sale of country spirit was 1,162 as compared with 1,158 in 1916-17, an increase of 4. One new shop was opened with the approval of the Advisory Committee in a village in Birbhum in a locality where the demand was being met by illicit distillation. A shop was opened for similar reasons in Rajshahi on the recommendation of the Advisory Committee. Two shops were opened in

Khulna with the approval of the Advisory Committees to supply a demand which could not be met from the existing shops. The management of the shop at Dinbazar Kajaldighi, which is situated in a Cooch Behar *chhit* surrounded by British territory, was transferred from the Cooch Behar State to Jalpaiguri in consequence of the agreement arrived at in 1916-17. On the other hand 23 outstills situated in Bhutan, within a few yards of British territory, which were only maintained by the profits derived from the sale of liquor to British subjects, were either removed to a distance of ten miles from the border or closed. One shop was abolished in each of the districts of Midnapore and Darjeeling and one was transferred from Malda to Dinajpur where the rate of duty is higher.

21. **The fixed fee system in Calcutta.**—Further considerable changes were made during the year in the arrangements for the vend of country spirit in Calcutta, with the object of eliminating the element of uncertainty from the business, so that taxation could be regulated more accurately and closer control secured over consumption. The decision to introduce the fixed fee system was only arrived at a few days before the end of 1915-16, and all that could then be done was to fix a comparatively high rate of duty and comparatively low license fees based on the consumption in that year. In other respects the former system continued. Although spirit was issued at a fixed strength of 22° U. P. the vendors were permitted to dilute it as they pleased and to sell it at any price they chose. They had to pay a fixed monthly license fee based on the probabilities of sales in a year irrespective of the quantity of liquor they sold and the price at which they sold it. It was impossible to ascertain the vendors' profits and therefore impossible to adjust taxation with any degree of accuracy.

It was accordingly decided to fix strengths and prices and so to adjust license fees that the vendors should be left a fair profit on every gallon. In order that this profit might be secured to them and at the same time to remove the temptation to push sales it was necessary to base license fees on a much shorter period than a year. The license fees of each shop were accordingly adjusted monthly on the basis of the issues in the preceding month, on a sliding scale which provided that the incidence of license fees per proof gallon should rise with the consumption. At the same time the business was opened to men of small capital by the reduction of the advance deposit required from two months' fees to half a month's fees. Separate rates of duty were fixed for each strength so that if it were found desirable to increase the price of any strength it would only be necessary to increase the rate of duty on that strength to the same extent without interference with the scale of license fees. The strengths were fixed at 25° U. P., 40° U. P. and 70° U. P. It was, however, difficult to fix prices, as there had been no fixity of prices before. The price of 25° U. P. liquor was fixed considerably above the generally prevailing nominal rate, but the allowance to be made for dilution was an uncertain factor. The price of 40° U. P. liquor was fixed proportionately to that of 25° U. P., and that of 70° U. P. at a figure somewhat less than proportionate, in order to encourage the consumption of weak rather than of strong liquor.

It was anticipated that under any system there would be an increase of consumption as compared with 1916-17, when conditions were abnormal, as many of the vendors had diluted the liquor to an unusual extent in order to recoup themselves for the losses which they had suffered in the previous year. The high price of foreign liquor led a certain number of persons to drink country spirit as a substitute and thus increased consumption. Steps were taken to check consumption by raising prices on two occasions during the year. The price of and duty on 25° U. P. liquor, which was most in demand, was raised by 7 annas per gallon from the 1st August and by a further 7 annas from the 1st January, that of 40° U. P. liquor by half that sum on each occasion and that of 70° U. P. liquor by 3½ annas per gallon from the 1st January 1918. Consumption was eventually almost exactly the same as in 1915-16.

The following figures will show that the taxation per proof gallon of liquor consumed was higher in 1917-18 than it had ever been before and that it exceeded that in the previous year by about 9½ annas :—

Year	Consumption in L. P. gallons	Taxation (license fees and duty).	Incidence of taxation per L. P. gallon in rupees.
		Rs.	
1911-12 ...	332,242	27,27,245	8·2
1912-13 ...	345,777	28,22,775	8·1
1913-14 ...	307,175	29,05,276	9·4
1914-15 ...	277,429	27,63,846	9·9
1915-16 ...	272,007	29,28,250	10·7
1916-17 ...	206,977	22,70,322	10·9
1917-18 ...	272,496	31,52,590	11·6

Under the present system it is possible at any time, by raising the rate of duty and the retail price, to provide without any dislocation of business that an increase in consumption shall be accompanied by an increase in taxation—in other words, if consumers show a tendency to drink more country spirit they can at once be made to pay a higher price for it.

22. **The fixed fee system in other districts.**—From the 1st April 1917 the fixed fee system was introduced into the Sadar and Serampore subdivisions of Hooghly and the whole of the districts of Howrah and the 24-Parganas on a system of license fees fixed for the whole year. Enquiries indicated that sales above the maximum price had not been checked, though there were fewer flagrant cases of dilution, and it seemed probable that the profits left to the vendors were insufficient and too uncertain to induce them to conduct their business honestly. The Calcutta system of adjusting license fees monthly has therefore been introduced from the beginning of the current year, retail prices have been raised and fixed and the incidence scale has been revised. As in Calcutta, settlements have only been made with vendors who undertook to manage the business personally.

23. **Consumption.**—The total consumption of country spirit in the Presidency amounted to 700,586 proof gallons as compared with 626,454 proof gallons in the preceding year, an increase of 74,132 proof gallons.

Consumption increased in 15 districts and decreased in 12. In six of the former districts and four of the latter the fluctuation was less than 5 per cent. The increase in Calcutta has been discussed above. The tendency for the high price of foreign liquor to drive consumers to country spirit is also reported to have been observed in the Asansol subdivision of Burdwan and in the districts of Mymensingh, Bakarganj, Tippera, Pabna and Darjeeling. Outside Calcutta the only increases of 12 per cent. or more occurred in Tippera (966 proof gallons or 16·6 per cent.), where scarcity had, in the course of the three preceding years, reduced consumption from 10,494 to 5,815 proof gallons, Birbhum (935 proof gallons or 14·5 per cent.), where economic conditions improved, and Burdwan (4,846 proof gallons or 12·0 per cent.), where the increase was chiefly due to the employment of more labour in the different industries in the Asansol subdivision. The increase exceeded 1,500 proof gallons in Jalpaiguri (5,195 proof gallons or 10·9 per cent.), where the Bhutan outstills were at last removed with effect from the 1st November. It was decided that no additional shops should be opened in British territory to replace the 23 outstills which had been abolished unless this was rendered necessary by a serious increase of illicit distillation in the neighbourhood. It was therefore considered advisable to wait for at least a year before beginning to force up prices, as a sudden rise would be likely to stimulate illicit distillation. The closing hour, which was 9 P.M. from 16th March to 15th October and 8 P.M. from 16th October to 15th March in all shops within ten miles of the Bhutan border, has however been put forward to sunset with effect from the 1st April 1918. There is at present no clear evidence that illicit distillation has increased.

The only district in which the decrease exceeded 10 per cent. was Nadia (1,152 proof gallons or 17·2 per cent.). The decrease in Hooghly again exceeded 2,000 proof gallons. In both districts the decrease is attributed to the bad economic condition of the people as the result of the war.

* * * * * * *

25. **Total revenue from country spirit.**—The total revenue—license and distillery fees and duty—from country spirit was Rs. 64,99,172 against Rs. 57,13,259, an increase of Rs. 7,85,913. The revenue derived from duty and distillery fees increased by Rs. 8,18,467 whilst that from license fees decreased by Rs. 32,554. The only districts in which the variation exceeded Rs. 25,000 were Calcutta, where the revenue increased by Rs. 8,84,264, and Hooghly, where it fell by Rs. 48,361.

26. **Convictions for drunkenness and action taken against licensees for permitting it.** * * * * *

In Calcutta 9,213 persons were convicted of drunkenness as compared with 6,965 in the previous year, but it is impossible to say what proportions of these cases were due to country spirit, *tari* and foreign liquor, respectively. A particularly careful watch was kept on the country spirit shops in Calcutta in connection with the system of fixed strengths and prices, and the large majority were well conducted. Three cases have been reported—one from each of the districts of Calcutta, Faridpur and Burdwan—in which vendors of country spirit permitted drunkenness or disorderly conduct on or near licensed premises. All the cases were compounded under section 65 of the Bengal Excise Act on payment of sums of Rs. 10 in Calcutta, Rs. 20 in Faridpur and Rs. 10 in Burdwan Three *tari* vendors were similarly dealt with in Calcutta and one vendor of foreign liquor in Faridpur.

27. **Distilleries and Warehouses.**—There was no change in the number of contract distilleries. The contract with the Bengal Distilleries Company at Konnagar, which expired on the 31st March 1918, was extended for a further period of one year during the year under report. The warehouse at Netrokona has been abolished from the 1st April 1918.

Supplies from distilleries to the various bonded warehouses were generally adequate. Stocks occasionally fell below the prescribed minimum, but only on one occasion at Jessore did the stock fall so low as to cause apprehension of difficulty in supplying the retail vendors. There has been some improvement as regards wastages in contract warehouses generally, but wastages are still excessive in several of them.

Tari.

* * * * * * *

29. **Statistics.**—The total number of licenses issued for the sale of fermented and fresh *tari* increased from 1,954 to 2,319 or by 365 and the total receipts from Rs. 4,76,666 to Rs. 4,94,172 or by Rs. 17,506.

30. **Fermented tari.**—The number of fermented *tari* licenses decreased from 649 to 630. The chief reductions were effected in Midnapore, Hooghly and Howrah where 8, 6 and 7 shops, respectively, were abolished.

The bulk of the fermented *tari* revenue is derived from the Burdwan and Presidency Divisions and the district of Malda, which contributed Rs. 4,60,093 out of a total revenue under this head of Rs. 4,88,888. License fees increased by Rs. 17,222 as compared with the previous year. The increase was most marked in Calcutta (Rs. 23,712), Malda (Rs. 2,010) and Rajshahi (Rs. 1,688), whilst there were decreases of Rs. 4,969 in Midnapore, Rs. 4,858 in Hooghly, Rs. 1,183 in the 24-Parganas and Rs. 1,067 in Chittagong.

Pachwai.

32. **Licenses.**—The total number of licenses issued for retail sale, home-brewing (annual) and manufacture on special occasions was 34,787 as compared with 33,511 in 1916-17 :—

	1916-17	1917-18
Retail sale	1,333	1,313
Home-brewing (annual)	31,795	33,040
Manufacture on special occasions ...	383	434

The number of retail licenses decreased in Bankura (17), Birbhum (6), Hooghly (5), Nadia (3) and Murshidabad (1). The decreases in Hooghly and Nadia were due to the fact that some shops remained unsettled ; elsewhere they were due to the abolition of shops. Nine more shops were settled in the 24-Parganas than in 1916-17. The shop system has never proved satisfactory in that district, owing to the difficulty of communications and the opposition of the aborigines, and licenses were taken out rather as a cloak for home-brewing than to supply the demand for *pachwai*. After a trial for seven years the shop system has now been abandoned and the home-brewing system has been re-introduced from the 1st April 1918. Three new shops were opened in Midnapore with the approval of the Advisory Committees to meet a demand for *pachwai* in localities in which there were no shops and where the needs of consumers could only be met by illicit manufacture.

The number of home-brewing licenses increased by 1,584 in Malda, 680 in Mymensingh, 346 in Rangpur, 298 in Rajshahi and 70 in Bogra. There was a decrease of 700 licenses in Darjeeling, 621 in Dinajpur, 349 in Jalpaiguri, 215 in Dacca, 92 in Pabna and 21 in Tippera.

The increases in Malda, Rangpur, Rajshahi and Bogra were due to careful patrolling by the Excise staff who prosecuted persons who were found to be manufacturing without licenses. Many of the aborigines, however, still do their best to evade taxation. The increase in Mymensingh only partly counterbalances the decrease in 1916-17. The continuous decrease in Darjeeling is reported to be due to the fact that the settlement of licenses has been left entirely to the *mandals* (village headmen) since the withdrawal of the Inspector in 1915. Attention will now be given to this matter by the Sub-Inspectors. The decrease in Dinajpur was due to the migration of Santals, to a partial failure of crops and to high prices.

33. **Revenue.**—The revenue from retail license fees increased from Rs. 7,63,363 to Rs. 7,91,521. The increase was considerable in Birbhum (Rs. 13,401), Burdwan (Rs. 10,901), Bankura (Rs. 8,038) and Midnapore (Rs. 2,196) and was due to some improvement in the condition of consumers and, in Bankura, to a more accurate valuation of the shops. In the other three districts the increase was less, and in Burdwan and Birbhum much less, than the decrease in 1916-17. The chief decreases occurred in Nadia (Rs. 1,461), and Murshidabad (Rs. 1,407). The revenue from home-brewing licenses increased from Rs. 52,239 to Rs. 52,531.

The Customs Department have kindly furnished the following statistics of imports and issues on payment of duty of potable foreign spirits at the Calcutta Custom House :—

Years.	Imported (L. P. gallons).				Issued on payment of duty (L. P. gallons).

* * * * * * *

37. **Licenses and Revenue.**—The total number of licenses issued for wholesale and retail vend was 569 against 606 in the previous year. In paragraph 33 of the Annual Report for 1916-17 the total number of licenses was shown as 626. The difference is due to the inclusion last year of 34 compounding and bottling licenses, which are not licenses for sale, and the exclusion of 14 late-closing licenses. There were decreases under heads wholesale (1) "on" (1), railway refreshment rooms (1), dining cars (7), steamers (20), temporary bars (24) and dâk bungalows (1) and increases under "off" (2), restaurants (2), bars in hotels and restaurants (10) and late closing (4). An "off" license at Contai in the Midnapore district, which had not been settled in 1916-17, was settled in the year under report, as it was found to be necessary. A license for the sale of beer only was settled at Kharagpur on the recommendation of the Station Committee. The increase in the number of bars in hotels and restaurants occurred in Calcutta. The revised form of restaurant license makes it clear that unless he has a bar license the holder can only sell liquor to persons taking their meals on the premises. License holders had therefore to take out bar licenses to enable them to do legally what they had actually been doing all along. The increase in the number of late-closing licenses was due to the issue of six

temporary late-closing licenses at Calcutta and Darjeeling as compared with none in the previous year. All the late-closing licenses in Calcutta were withdrawn from the 22nd April 1917 on the recommendation of the Licensing Board.

The total receipts from license fees amounted to Rs. 2,98,725 against Rs. 3,26,146 in the preceding year. The decrease was due to the fall in consumption in 1916-17, which affected the settlements. The receipts from duty on potable foreign spirit manufactured in India were Rs. 5,97,053 against Rs. 3,01,820 in 1916-17. The high price of imported liquor stimulated the consumption of rum and of local blends of whisky and brandy, and the consequent demand for rum and rectified spirits was met by Indian made spirit, owing to the shortage of Java spirit, which would ordinarily have supplied the greater part of it.

38. **Rum manufactured in India.**—The following quantities of rum manufactured in India were issued during the year from distilleries and Excise warehouses in Bengal :—

Place of manufacture	On payment of duty.	Duty free.
	L. P. gallons.	L. P. gallons.
Konnagar	207	...
Russa	7,850	...
Asansol	4,864	...
Shahjehanpur	26,609	289
Anwarganj	3,859	...

The above figures include 600 proof gallons of Shahjehanpur rum issued at a reduced rate of duty of Rs. 5 per proof gallon to the Lakhimpur Battalion. The duty-free issues were made to the Campbell and Medical College Hospitals, Calcutta, and to the Central Lunatic Asylum, Berhampore.

In addition to the issues of rum, which increased by nearly 60 per cent. as compared with the preceding year, 8,716 proof gallons of Russa spirit and 1,089 proof gallons of Asansol spirit were issued to holders of compounding licenses, who manufacture local blends of brandy, whisky and rum, whilst 209 proof gallons of brandy and whisky received in bond from Anwarganj were issued from the Calcutta Excise warehouse.

39. **Sale of spirits at strengths below the prescribed minimum.**—No case of this nature was brought to notice during the year under report.

40. **Locally manufactured beer.**—The number of breweries was two as in the previous year, but only the brewery at Sonada manufactured beer in the year under report. Duty was charged on 59,123 gallons as compared with 48,030 gallons in 1916-17. The demand for Indian made beer increased owing to the high price of the imported article. Receipts from license fees and duty amounted to Rs. 16,793 against Rs. 13,674 in the previous year.

Medicated wines and rectified spirits.

41. **Licenses and Revenue.**—The number of licenses for the retail sale of medicated wines and rectified spirits was 117 and 24, respectively, as compared with 114 and 20 in 1916-17. The revenue from license fees increased from Rs. 5,453 to Rs. 7,000.

42. **Manufacture and issue of rectified spirits.**—Rectified spirits were manufactured in the Asansol, Konnagar, and Russa distilleries and in the new distillery at Bahir-Mirzapore Road, Maniktala.

The following quantities of rectified spirit were issued during the year for medicinal, industrial or scientific purposes from distilleries and Excise warehouses in Bengal :—

Place of manufacture.	On payment of duty.	Duty free	For manufacture of tincture and absolute alcohol in bonded laboratories.
	L. P. gallons.	L. P. gallons.	L. P. gallons.
Asansol	2,709	17,542	10,953
Konnagar	7,104	113	2,271
Russa	9,962	...	2,727
Anwarganj	1,832	...	...
Bahir-Mirzapore Road ...	1,197	...	4,048

The duty-free issues of Asansol spirit were made to the Medical Storekeeper to Government, Calcutta, the Indian Museum, the Botanical Survey of India, the Director of Ordnance, Allahabad, and, through Smith, Stanistreet & Co. from the warehouse attached to their bonded laboratory, to charitable dispensaries in Bengal, Bihar and Orissa and Assam. Konnagar spirit was issued duty-free to the Medical College, Calcutta, and to the Bengal Fisheries Department.

43. **Manufacture of tinctures, etc., in bonded laboratories.**—In the course of the year under report, Messrs. B. K. Paul & Co. opened a bonded laboratory at Dum-Dum for the manufacture of tinctures and other medicinal preparations containing alcohol. Duty was paid on 7,923·8 proof gallons of spirit contained in tinctures and medicinal preparations issued from the four laboratories which were working during the year, whilst medicinal preparations containing 5,070·4 proof gallons of spirit were issued duty-free to charitable dispensaries in various provinces. Under Government order No. 312 Medl., dated the 2nd February 1918, the privilege of supplying rectified spirit and tinctures and other medicinal preparations containing alcohol duty-free to charitable dispensaries in several provinces, which had hitherto been enjoyed only by Messrs. Smith, Stanistreet & Co., was extended from the 1st April 1918 to all firms in Bengal which manufacture in bond.

SECTION IV.—Hemp Drugs.

* * * * * * *

Ganja.

49. **Retail Licenses.**—The total number of licenses issued in the Presidency for the retail sale of *ganja* was 1,267 as compared with 1,268* in 1916-17. * * * * * * *

50. **Consumption of Ganja.**—The total quantity of *ganja* consumed in the Presidency amounted to 1,908 maunds 20 seers as compared with 2,149 maunds 30 seers in 1916-17, a decrease of 241 maunds 10 seers. Consumption decreased in every district except Burdwan and Bankura, where the increases were very small. It exceeded 10 per cent. in eighteen districts and 20 per cent. in Hooghly (25·1 or 20½ maunds) and Nadia (21·2 or 9½ maunds), where the decrease in the consumption of country spirit was also most marked. Elsewhere the largest actual decreases occurred in Mymensingh (40 maunds 17 seers), Calcutta (35 maunds 1 seer) and Rangpur (19 maunds 12 seers), whilst four other districts showed decreases of more than ten maunds. The general decrease in consumption was mainly due to the high retail prices, which resulted from a general increase in license fees and the rise in the wholesale price of *ganja* at Naugaon. In the five districts in which the percentage decrease was largest there was also a decrease in the consumption of country spirit and the bad financial position of consumers was undoubtedly responsible for the heaviness of the fall.

51. **Total Revenue.**—The total receipts for the year amounted to Rs. 34,18,874 against Rs. 34,89,134 in 1916-17, a decrease of Rs. 70,260. There was a fall of Rs. 1,97,655 in the receipts from duty whilst receipts from license fees increased by Rs. 1,27,395.

52. **Incidence of Taxation.**—The incidence of license fees per seer of *ganja* consumed was Rs. 23·3 and that of duty Rs. 20. The total taxation was Rs. 43·3 per seer as compared with 39·2 in the previous year.

* * * * * *

* Revised figures.

55, **Cultivation and outturn of Ganja at Naugáon in Rajshahi.**—The smallness of the crop of 1917, which had already raised prices to a higher level than they had reached for four years and which assured still higher prices in the near future, caused an increased demand for licenses to cultivate *ganja*. Three thousand four hundred and forty-four applications were received for an area of 5,541 bighas against 2,672 applications for an area of 4,207 bighas in the preceding year. The decision that a Co-operative Society of *ganja* growers should be formed to purchase at fixed rates all *ganja* produced had, however, a disturbing effect. The brokers, whose exactions had been one of the chief reasons for the change of system, and who stood to lose a very lucrative business, managed to persuade the cultivators, who are an extremely suspicious and conservative body, that the scheme would be contrary to their interests. An agitation was started and only came to an end in April 1918, when prompt payment for a large crop, which would normally have fetched very poor prices, convinced the cultivators that the establishment of the Society was greatly to their advantage. A number of the cultivators hesitated for some time to take out licenses. The distribution of licenses was not completed until the middle of September, but licenses were eventually issued for the whole of the sanctioned area. Three thousand and eight licenses, covering an area of 3,099 bighas 17 cottahs and 2 chataks, were granted as compared with 2,513 licenses covering an area of 2,850 bighas in 1916-17. The area actually cultivated with *ganja* was 3,082 bighas 9 cottahs and 10 chataks against 2,501 bighas 17 cottahs and 11 chataks in the preceding year. The prospects of the crop were very good till the end of December when red-spider appeared. Although the attack seemed to have done serious damage and a poor outturn was anticipated, the outturn eventually proved to be better than in any of the three preceding years and averaged 2 maunds 25 seers 9 chataks per bigha. The total quantity of *ganja* stored in the public *golas* amounted to 8,132 maunds 24 seers 14 chataks as compared with 4,642 maunds 27 seers 7 chataks in the preceding season.

56. **Manufacture and storage.**— * * * * * * * The cost of cultivation and manufacture is reported to have been Rs. 43 per maund as compared with Rs. 58 in 1916-17. * * * * * * *

58. **Receipts, Issues and Balances at the Public Golas and wholesale prices at Naugaon.**— * * * * * * * * * The total exports from Naugaon during the year amounted to 5,140 maunds 2 chataks against 5,899 maunds 25 seers 2 chataks in the preceding year.

* * * * * * * *

Bhang.

60. **Licenses and revenue.**—The number of retail licenses in the year under report was 220 against 219* in 1916-17. One shop was abolished in Midnapore whilst two new shops were opened in Rangpur, with the approval of the Advisory Committees, to supply a demand which was being met illicitly. The total number of druggists' permits issued was 261 as compared with 219 in the preceding year. The increase chiefly occurred in the Presidency, Dacca and Rajshahi Divisions. The total revenue from both license fees and duty amounted to Rs. 1,24,496 as compared with Rs. 1,12,483 in 1916-17.

61. **Consumption.**—The total consumption within the Presidency amounted to 605 maunds 4 seers against 538 maunds 36 seers in the previous year. The increase exceeded 5 maunds in Calcutta (43 maunds) and the 24-Parganas (25 maunds), where consumers had begun to be accustomed to the higher prices which caused so large a decrease last year. In Calcutta consumption was still nearly 30 maunds less than in 1915-16. In the 24-Parganas the increase was partly due to a large increase in the number of Indian troops at Barrackpore.

*Revised figures.

Three maunds of duty-paid *bhang* were exported from Calcutta to French Chandernagore.

Charas.

62. **Licenses and Revenue.**—Thirty retail licenses were in force during the year as in 1916-17. Four wholesale licenses were issued against three in the previous year. The total revenue amounted to Rs. 52,668 as compared with Rs. 48,963 in 1916-17. There was an increase of Rs. 4,252 in the receipts from license fees, whilst receipts from duty decreased by Rs. 547.

63. **Imports and Consumption.**—The total quantity of *charas* imported into Bengal was 20 maunds against 19 maunds 8 seers in the preceding year. The wholesale dealers import the drug direct from the Punjab and supply retail vendors throughout the Presidency.

The total issues to retail shops in Bengal amounted to 19 maunds 34 seers as compared with 18 maunds 17 seers in 1916-17. The only noticeable fluctuation was an increase of forty-five seers in Calcutta. Twenty seers of *charas* were exported to Bihar and Orissa and one seer to French Chandernagore.

SECTION V.—Opium.

* * * * * *

64. **Restricted supply of opium.**—The system under which the issue of opium to retail shops is restricted to the estimated local demand continued in Midnapore, Hooghly, Howrah, the 24-Parganas, Calcutta, Khulna, Bakarganj, Chittagong, Noakhali, Tippera and Jalpaiguri, and in a few shops in Nadia, Jessore, Dinajpur and Malda. It was extended to several shops in Burdwan, the issues to which showed a tendency to increase unduly, and to the two shops at Darjeeling and Kalimpong. It was withdrawn experimentally from the five shops in Birbhum in which it had been in force for four years, as the abandonment of restrictions in the Santhal Parganas had led to the illicit import of opium by local consumers and had defeated the primary object of the restrictions in Birbhum by opening a new field to smugglers in the immediate neighbourhood.

65. **Licenses for retail sale.**—The total number of licenses issued for the retail sale of opium was 819 as compared with 820 in 1916-17. Two shops were abolished in the district of Rajshahi and one in each of the districts of Calcutta, Mymensingh and Bakarganj. The number of shops increased by one in each of the districts of Midnapore, Khulna, Dacca and Jalpaiguri. The increase in Midnapore was due to the settlement of a shop near the border of Balasore which could not be settled in the previous year owing to the prevalence of petty smuggling from that district. A new shop was opened in Khulna, with the approval of the Advisory Committee, to meet the demand of a locality in which the consumers had great difficulty in obtaining supplies owing to the lack of communications, and another in Dacca, on the recommendation of the Advisory Committee, to meet the demand of a locality within 12 miles of which there was no opium shop. The increase in Jalpaiguri was due to the transfer from the Cooch Behar State of the existing shop at Dinbazar Kajaldighi.

66. **Druggists' permits.**—The number of druggists' permits was 400 as compared with 366 in the preceding year. One license was issued for the sale of poppy heads against three in 1916-17.

67. **Consumption.**—The total quantity of opium consumed within the Presidency was 1,074 maunds 12 seers as compared with 1,127 maunds 29 seers in the previous year, a decrease of 53 maunds 17 seers.

Consumption decreased in 20 districts and increased in 7. The increases were inconsiderable; the largest both in actual quantity and proportionately amounted to 37 seers or 4·2 per cent. in Birbhum and 35 seers or 5·2 per cent. in Bankura. The largest proportionate decreases occurred in Darjeeling 35·7 per cent. or 153 seers) and Jalpaiguri (35·0 per cent. or 206 seers), in

both of which districts issues had been abnormally large in 1916-17. Issues to Sikkim only decreased by 22 seers, but restrictions have now been introduced and it is anticipated that issues will be more nearly normal in the current year. The decrease exceeded 20 per cent. in Nadia (251 seers or 23·5 per cent.) and Chittagong (245 seers or 21·2 per cent.). Economic conditions were bad in both districts and there was an increase in retail prices. The decrease in Nadia was largely due to the considerably smaller quantities taken by certain shops from which it was strongly suspected that opium had been smuggled in 1916-17. Issues also decreased by more than 10 per cent. in Tippera (15·4 per cent. or 43 seers), Khulna (10·7 per cent. or 94 seers) and Hooghly (10·6 per cent. or 319 seers) and by more than 100 seers in Midnapore (205 seers), the 24-Parganas (196 seers), Howrah (163 seers) and Rangpur (103 seers). The decrease in Midnapore would have been larger had not the shops near the border of Bihar and Orissa been settled at very much reduced license fees and thus enabled to compete more successfully than in 1916-17 for the custom of the local consumers.

Thirty-six persons were arrested in Midnapore in possession of 57 seers of opium from the districts of Balasore, Cuttack, Puri and Singhbhum. The bulk of this opium was probably intended for export to Burma or China, but in eleven cases, in each of which less than a quarter of a seer was seized, there can be little doubt that the opium was intended for consumption in Midnapore.

Prices rose generally and reached so high a level in the south-eastern districts that there was some danger that the local demand might be met by smuggled opium. Cases actually occurred in which opium was brought from shops in the north of the Bakarganj district for illicit sale in the Patuakhali subdivision, where the retail price, Rs. 200 per seer, was the highest in Bengal. Maximum prices have therefore been fixed from the 1st April 1918 in the Patuakhali subdivision and throughout the Chittagong Division. As has been mentioned in paragraph 4 above retail prices have been fixed in Hooghly, Howrah, the 24-Parganas and Calcutta.

68. **Total receipts.**—The total receipts amounted to Rs. 29,44,947 as compared with Rs. 28,71,138 in 1916-17, an increase of Rs. 73,809, or 2·6 per cent., which occurred entirely under the head of license fees.

69. **Madak and Chandu.**—The habit of opium smoking exists in most districts, but is usually confined to the towns. It is, however, very common in the south-western part of the Midnapore district which borders on Balasore and Mayurbhanj, and is believed to be spreading in Birbhum, Nadia and Malda. The Collector of Nadia reports that some of the poorer classes have taken to opium smoking on account of the high price of *ganja*. It is hoped that the recent restriction of the legal limit of possession of smoking preparations may facilitate the suppression of the habit. The Collector of Malda reports, however, that the main difficulty in checking it is that when a case is detected influence is brought to bear on the witnesses.

70. **Morphia and Opium pills.**—The use of morphia as a substitute for opium is reported to exist to a limited extent in the district of Hooghly, and to be prevalent among the respectable classes in parts of Nadia.

No sale of opium pills was brought to light during the year. It was reported that two men were administering a remedy for the opium habit in the Contai subdivision of Midnapore. This remedy very probably contains opium, but it has not yet been found possible to obtain a sample, as the medicine is administered personally and not sold for removal.

* * * * * *

SECTION VI.—Cocaine.

* * * * * *

73. **Licenses and revenue.**—Two hundred and twenty-seven licenses were issued during the year to chemists and druggists for the sale of cocaine as compared with 218 in 1916-17. Thirty-three permits for the possession of cocaine were issued free to managers of hospitals or dispensaries not under

Government supervision, viz., nineteen licenses for tea gardens in Jalpaiguri, five for charitable dispensaries in Tippera, three in Midnapore, two in each of the districts of the 24-Parganas and Murshidabad and one each in Calcutta and Khulna. Six permits were issued to dentists in Calcutta and one to a dentist and one to a medical practitioner in Dacca for possession and use of the drug in the course of their practice.

74. **Preventive operations and illicit transactions.**—The abuse of cocaine continues in the Calcutta district and the neighbouring parts of the 24-Parganas and Howrah, in the towns of Burdwan and Raniganj, in the Serampore Subdivision of Hooghly and in Dacca city. The habit is suspected to exist in parts of Nadia.

The number of persons convicted of illicit possession or sale of cocaine fell from 263 to 191. In Calcutta the number was 162 as compared with 234 in 1916-17. Several important cases were detected, details of which have already been given in the Excise Supplement to the *Criminal Intelligence Gazette*. Special mention may be made of the arrest by the Calcutta Police and the conviction of Umar Bux, perhaps the most notorious smuggler of opium and cocaine in Northern India. Several members of his gang were successfully prosecuted on another occasion in a case detected by Excise officers, and one of the leading European smugglers was convicted during the year. In Burdwan an informer was found in possession of 22 grains of cocaine which he was about to introduce into the house of a person against whom he had given information. He was put on his trial and convicted.

The total quantity of cocaine seized in Bengal during the year was 39 lbs. 7 ounces 388 grains as compared with 50 lbs. 7 ounces 188 grains in 1916-17. Only 2¼ lbs. were seized outside the Calcutta district, and of this quantity more than 2 lbs. were seized in the 24-Parganas. In Calcutta 204 ounces were seized by Excise officers, 371 ounces by Customs officers and 18 ounces by Police officers.

Cocaine is becoming less plentiful, though the quantity seized shows that the illicit traffic is far from becoming extinct. The greater part of the cocaine seized during the year was of Japanese origin.

* * * * * *

SECTION VII.—Offences against the Excise and Opium Laws.

76. **Prosecutions and convictions.**— * * *

The total number of persons arrested during the year was 6,353, as compared with 5,303 in the previous year. Of these, 5,691 were convicted during the year against 4,700 in 1916-17. The number of arrests increased in 21 districts out of 27. The increase was due to a further improvement in the working of the re-organised establishment and was most marked in Midnapore (422), Birbhum (226), the 24-Parganas (198), Dacca (60), Bankura (59), Malda (54) and Nadia (51). The decrease of 106 persons in Calcutta was due to the smaller number of persons arrested by the Customs and Police officers. The decrease in Faridpur (95) was chiefly due to the smaller number of persons arrested by officers of the Special Staff for the possession of *bhang*.

77. **Classification of offences.**—Seven hundred and ninety-three persons were arrested for illicit distillation and 182 for possession or sale of illicit country spirit as compared with 623 and 115 respectively in the preceding year. In a case in Pabna, two persons, one of whom was a warehouse peon, were found in possession of overproof liquor which they had been enabled to steal from the warehouse at Serajganj by the neglect of the warehouse officer to weigh the drums after they had been supposedly emptied. In the other possession cases the liquor was the product of illicit distillation. The chief increases under these two heads taken together occurred in Midnapore (178), Bankura (51), the 24-Parganas (22) and Chittagong (20) and the chief

decrease in Burdwan (51). The most important case of illicit distillation was detected at Cossipore in the Suburbs of Calcutta by a Sub-Inspector of the 24-Parganas. The principal offender, who had a previous conviction, used to manufacture spirit on an extensive scale in different places. Two places were raided and a very large quantity of wash and spirit and a number of stills and connected implements were seized. The outstanding feature in the case was the finding inside an oven of a counterfeit Excise seal (which was a remarkably clever imitation of the seals supplied to officers of the Department) with which the bottles used to be sealed before despatch to the mill areas where the spirit was in great demand. The prevalence of illicit distillation in the industrial area, in which unusually large profits can be made owing to the high rate of duty, was also indicated by the detection of other important cases. In two of them (one in the Serampore and the other in the Barrackpore subdivision) the culprits were Madrassis. In Birbhum a *kaviraj*, who had for more than three years been manufacturing Mrita Sanjibani Sura and selling it for use as an intoxicant to selected customers, was convicted. The large increases in Midnapore and Bankura appear to be due to better preventive work rather than to any extension of the practice of illicit distillation. Information was received on which some Maghs in the Colonisation area in Bakarganj were found, shortly after the close of the year, to be using Nipa juice as a base for illicit distillation. Illicit distillation seems to be even more common and widespread in that district than was formerly suspected, and it is desirable that special measures should be taken to deal with it. One of the difficulties is that the facilities for obtaining illicit liquor are inadequate for a district in which consumers are scattered over a wide area and communications are very difficult. Illicit liquor is often preferred even in the neighbourhood of a shop ; and when consumers, who do not belong to the lower classes alone, have to travel a long distance to obtain illicit liquor, it is not surprising that the illicit business should flourish under influential support. In Mymensingh the illicit distillers are usually aborigines from the Garo Hills, but the liquor finds a ready market. In Jalpaiguri the offenders are usually Paharias and Bhutias employed on tea gardens.

The number of persons arrested for unlicensed sale of duty-paid country spirit increased from 75 to 120. The increase was chiefly due to the prosecution of 100 persons in Calcutta against 49 in the previous year. The accused in most of the cases were prostitutes. The number of persons prosecuted for illicit possession of duty-paid country spirit fell from 33 to 15.

The only marked fluctuation under the head "Illicit import, export or transport of country liquor" was a decrease of 20 in the number of persons arrested for smuggling outstill liquor from Bhutan into Jalpaiguri, which was due to the removal of the outstills.

There were 34 arrests for illicit sale of foreign liquor as compared with 21 in 1916-17. In Pabna the son of a religious devotee was convicted of selling liquor which he had stolen from the offerings which disciples had made for his father's consumption.

The number of arrests in *tari* cases increased by 118. The chief increases occurred in the 24-Parganas (80), Hooghly (23) and Malda (20). There was a decrease of 33 in Calcutta and of 18 in Jessore.

Under the head "Illicit manufacture, possession or sale of *pachwai*" there was an increase of 584, Birbhum (195), Midnapore (178), Malda (36), Hooghly (34), Dinajpur (31), the 24-Parganas (21), Bankura (19), Nadia (19), and Darjeeling (19) showing considerable increases, whilst there was a decrease of 17 in Calcutta.

It is very difficult to obtain accurate reports as to whether opium seized is illicit opium or Treasury opium, and, as a large quantity of opium is seized in parcels or on board ship in circumstances in which no arrests can be made, and is therefore not dealt with at all in Provincial Table XI, it seems hardly worth while to continue attempts to make this distinction. Taking the figures under the two heads together the number of arrests fell from 605 to 420. Arrests decreased by 150 in Calcutta, 34 in Hooghly and 17 in Nadia, whilst there were increases of 20 in Burdwan, 11 in Midnapore and 10 in Jalpaiguri.

There was, however, a further increase in the total quantity of opium seized in Bengal, which amounted to 89 maunds 23 seers, of which 57 maunds were seized in Calcutta and 24¾ maunds by the Special Staff. The Customs officers made 55 seizures amounting in all to 11 maunds. Thirty-seven and a quarter maunds were seized by Excise officers in Calcutta as compared with 24½ maunds in 1916-17, nearly 3½ maunds by the Calcutta Police and over 4½ maunds by the Howrah Railway Police. Some very important arrests were made, especially by the Calcutta staff, but as details have already been given in the Excise Supplement to the *Criminal Intelligence Gazette* it is unnecessary to reproduce them here. Mention may, however, be made of a case in which some officers in Calcutta were deputed to Patna in consequence of information which they had obtained, with the result that 20 seers of opium were seized and three persons, one of whom was a Muhammadan of some position, were convicted.

Two hundred and fifty-nine persons were arrested for the illicit possession or sale of *madak* or *chandu* against 136 in the previous year. The number of arrests increased by 103 in Calcutta and by 16 in Midnapore.

There was an increase of 44 in the number of arrests for the illicit cultivation or collection of *ganja* or *bhang*, to which Pabna contributed 17. Two hundred and seventy-eight arrests were made for the illicit sale of hemp drugs (usually *ganja*) as compared with 261 in the previous year. There were increases of 47 in Calcutta, 16 in Bakarganj and 15 in Tippera, whilst Jessore and Mymensingh showed decreases of 20 and 19, respectively. There was no marked fluctuation in any district under the head "Illicit possession of *ganja*." Under the head "Illicit possession of *bhang*" the chief increases occurred in the 24-Parganas (63), Nadia (55), Rangpur (42) and Dacca (34) and decreases in Faridpur (68), Calcutta (16) and Jalpaiguri (13). The increase (65) in the number of persons arrested for the unlawful import of hemp drugs chiefly occurred in the districts of Jalpaiguri (28), Burdwan (15) and Birbhum (15), whilst there was a decrease of 27 in Hooghly.

N. GUPTA,
for *Director of Agriculture, Bengal.*

DACCA,
The 14th November 1918.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 7th November 1918.

Summary.—The week was practically rainless. The winter rice crop has been badly affected by the drought. The conditon and prospects of the crop in Western and Northern Bengal are generally unsatisfactory but fair in Eastern Bengal. The *rabi* sowings are proceeding with difficulty for want of rain and moisture. The avorage price of common rice for the province remained stationary as compared with that of the previous week.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 14th October 1918.

Summary.—No rain fell during the week. Rain is urgently wanted for transplanted winter paddy and other standing crops. Sowing of spring crops is being retarded owing to drought. Condition and prospects of winter paddy are generally unsatisfactory in the western and northern districts; but fair only in the eastern districts. The average price of common rice for the province has risen by about 1·2 per cent. as compared with that of the previous week.

No. 3281P.J.—The 25th November 1918.—The following draft of amendments which, in exercise of the power conferred by section 11 of the Indian Motor Vehicles Act, 1914 (VIII of 1914), read with section 21 of the General Clauses Act, 1897 (X of 1897), the Governor in Council proposes to make in the rules regulating the use of motor vehicles in Calcutta (including suburbs) and the Municipality of Howrah (published under Political Department Notification No. 4095P., dated the 1st April 1915, on pages 1-25 of the *Calcutta Gazette Extraordinary* of the same date), is hereby published for the information of persons likely to be affected thereby.

Calcutta. Howrah.

II. The draft will be taken into consideration on or after the 1st January 1919, and any objection or suggestion received by the undersigned with regard thereto before that date will be duly considered :—

Draft amendments.

(1) After rule 3 in Part II of the said Rules (All Motor Vehicles) *insert* the following as a new rule :—

"3A. No person shall drive or have charge of, or cause or permit to be used, any motor vehicle without the permission or consent of the owner."

(2) *For* the proviso to sub-rule (*3*) of rule 15 in Part II of the said Rules, (All Motor Vehicles) *substitute* the following :—

"Provided that if a licensee is desirous of renewing a license granted to him, and makes an application with the prescribed fee to the Commissioner of Police in this behalf on or within a period of one calendar month before the date of expiry of the license, the Commissioner of Poice may renew the license, and the license so renewed shall continue in force for a further period of twelve months from the date on which it would otherwise have expired."

(3) After rule 19 in Part II of the said rules (All Motor Vehicles) *insert* the following as a new rule :—

"19A. The driver or person in charge of a motor vehicle shall not carry any attendant or other person on the foot-board or any other portion of the vehicle except within the body thereof or in a seat provided on the near side or behind the vehicle which has been passed by the registering authority."

(4) After rule 4 in Part IV of the said Rules (Motor Cabs—"Taxis") *insert* the following as a new rule :—

"4A. Every registered motor cab shall be produced for inspection within two weeks of the expiry of a period of six months from the date of its registration or re-registration."

(5) After rule 6 in Part IV of the said Rules (Motor Cabs—"Taxis") *insert* the following as a new rule :—

"6A. No person shall act as an attendant or in any other capacity on a motor-cab unless he is the holder of a subsisting license to drive a motor cab."

(6) *Amalgamate* the existing sub-rule (*2*) of rule 40 in Part IV of the said Rules (Motor Cabs—"Taxis") with sub-rule (*1*) and *insert* the following as sub-rule (*2*) :—

"(2) Every motor cab on the stand shall be kept as near as possible to the kerb or near side of the stand. No motor cab shall be kept at the stand at a greater distance than one foot from the motor cab next in front or remain with its front wheels off the straight or at an angle to the sides of the stand."

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned lots of land no longer required by Government, situated along the Bhairab-Tangi Branch of the Assam-Bengal Railway, in the district of Dacca, will be put up to sale at the Dacca Collectorate, at 11 A.M., on the 21st day of December 1918, corresponding with the 6th of Paus 1325 B.S.

The purchasers of the several lots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway land, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in case of original sale.

4th.—The lots of land will be sold to the highest bidders subject to the payment of usual rent to their immediate superior landlords.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioners confirming it and a regular conveyance will then be granted to the purchasers.

The Commissioners for the Port of Chittagong.

NOTIFICATION.

WHEREAS, owing to the heavy loss of traffic due to the War, it appears to the Commissioners for the Port of Chittagong and to the Governor in Council of the Presidency of Fort William in Bengal, that the ordinary revenue of the Trust will be insufficient to meet the working expenses and that it is, therefore, necessary to resort temporarily to further special measures of additional taxation on goods and shipping.

It is notified, for general information, under section 58 of the Chittagong Port Act, 1914 (Bengal Act V of 1914), as amended by the Bengal Act V of 1918, that, with the previous sanction of the Governor in Council, a temporary surtax of 12 annas per ton will be levied, as a temporary measure, with effect from the 1st December 1918, in addition to the river dues at present levied, on all goods landed from, or shipped into, any sea-going vessels lying or being within the limits of the Port of Chittagong (except bunker coal on which a temporary surtax of four annas per ton will be levied) whether such goods shall or shall not be landed or shipped at any wharf, quay, stage, jetty or pier belonging to the Commissioners.

LIST OF BUSINESS—ITEM No. 1.

Oath of Allegiance.

The Hon'ble MR. G. A. BAYLEY made an oath of his allegiance to the Crown.

The President's address.

The PRESIDENT said :—

"I think it will be well if I say one or two words describing the procedure which I propose to follow in the course of the proceedings to-day. This meeting of the Council, as Hon'ble Members will remember, has been called at the request of the non-official members in order that they may have an opportunity of expressing their opinions upon the Reform Scheme. Under those circumstances since it is the opinions of the non-official members that we are to receive I have asked the official members of the Council either to abstain from attending or if they attend to take no part in the proceedings. At the same time Government are naturally anxious to give to the Council any assistance which they may require, and all the members of the Government are therefore present and should they be able to assist the Council in their deliberations by giving them informations as to facts upon any point which may crop up they will be very pleased to do so. But apart from that they will make no attempt of any kind to influence the decision of the Council. I should like to call the attention of Hon'ble Members before we start on our discussions to items Nos. 10, 11 and 12 which stand upon the agenda paper. The proposal there put forward is that the non-official members should resolve themselves into a Committee for the purpose of considering the Reform Scheme and submitting a report thereon to the Government of Bengal. I would point out to Hon'ble Members that if any such resolution is carried it would render any further proceedings in open Council to-day somewhat irregular. It would indeed be wholly contrary to the recognised practice of deliberative assemblies, for the Council to hold a debate and record its decisions upon the matters under discussion, and after having done so, to resolve itself into a committee for the same purpose. There is one obvious objection to such a proceeding which is, I think, of itself, conclusive. The authority of the Council is superior to the authority of any committee of the Council, so that the position would be this : the Council would have recorded its decisions and with those decisions the subsequent committee could either agree or disagree. There would be no other course open to it. If it agreed with them its formation would have been thereby proved to have been superfluous. If, on the other hand, it disagreed with them its formation would have been proved to have been both futile and mischievous—futile because its views could not prevail against the superior authority of the Council itself with which it disagreed, and mischievous because although its views could not prevail against those of the Council itself, they would obviously do much to stultify the decisions deliberately arrived at and recorded by the Council in open session. Under those circumstances it appears to me that there are only two courses open to the Council. If they decide to move item No. 10 on the agenda paper and if it is carried I should have to rule further proceedings in open Council to-day out of order. On the other hand, if the Council prefer to hold their discussion in open session to-day and to record their opinions in open session, then I shall have to rule that items Nos. 10, 11 and 12 should not be moved. I have no desire to influence the Council one way or the other. I have merely explained the position as it appears to me and I have informed you of the ruling which I shall have to give. I would suggest that Hon'ble Members should think over what I have said while we are proceeding with

President's address; Victory Resolution.

The President; Sir Deba Prasad Sarbadhikari; Babu A. C. Mazumdar.

the first resolution which stands upon the paper and which is a resolution of a general character. In the event of the Council deciding not to move items Nos. 10, 11 or 12 but to hold their discussion in open Council to-day, I would point out that there are, of course, a large number of motions on the paper which are covered by others. Then again there are some motions standing on the paper which it will be more convenient to move as amendments to other substantive motions. I shall be prepared to give rulings on each item so far as that is concerned as it comes up for discussion. I will now call upon the Hon'ble Rai Debender Chunder Ghose Bahadur to move the first resolution."

The Hon'ble SIR DEBA PRASAD SARBADHIKARI said :—

"May I, with Your Excellency's leave, say a few words so far as I am concerned. My lord, in sending this resolution I was only following the line which was followed in the Supreme Council at Simla with notable results. Having regard, however, to what Your Excellency has just been pleased to say and having regard to the discussion which I have just had with some of my European friends here, I am prepared to say that I would not wish to move my resolution if it really retards business. I do not know what my other colleagues would do....."

The PRESIDENT said :—

"Order, order. I think it would be more in order if the Hon'ble Member will make any observation on that point when I call on him when we reach item No. 10."

THE VICTORY RESOLUTION.

The PRESIDENT said :—

"An Hon'ble Member has asked my permission to move formally a resolution which he desires to submit to the Council and which under the exceptional circumstances at the present time I am prepared to admit."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"On behalf of the Indian members, I beg to submit the following resolution :—

'This Council receives with profound joy the happy news of the signing of an armistice between the Allies and Germany marking the final victory of the allied army after four long years of strenuous fighting for the vindication of the cause of liberty and freedom, and is grateful to His Excellency the Viceroy for his kind communication on behalf of India to His Majesty the King-Emperor of the exact feelings of His Majesty's Indian subjects at this hour; this Council further very gratefully appreciates the announcement that India will be represented and her interest protected at the Peace Conference.'

I need not say much on the resolution. It is a very happy hour no doubt. It is the final triumph of justice over violence. The Prussian militarism which it was sought at the very outset of the war to crush has been crushed, and, I believe, militarism with all the horrors of its vandalism has now come to an end; and I hope Your Excellency will accept our appreciation of the situation as well as the great faith which the Government has shown us particularly by receiving one of the representatives of India to represent her interests at the coming Peace Conference."

Victory Resolution ; Resolutions.

Mr. Ashraf Ali Khan Chaudhuri; Mr. P. C. Mitter ; Rai Radha Charan Pal Bahadur ; Sir Deba Prasad Sarbadhikari ; Mr. Crum ; Babu Kishori Mohan Chaudhuri ; Rai Debender Chunder Ghose Bahadur.

The Hon'ble MR. ASHRAF ALI KHAN CHAUDHURI said :—

"On behalf of the Muhammadans especially I have the greatest pleasure in supporting this resolution and in expressing the sense of its extreme satisfaction at the conclusion of the peace."

The Hon'ble MR. P. C. MITTER said :—

"As the representative of the landholders' interests in this Council I have much pleasure in associating myself with the resolution."

The Hon'ble RAI, RADHA CHARAN PAL BAHADUR said :—

"Representing the citizens of Calcutta in this Council I have much pleasure in associating myself with the resolution which has been so ably moved by the Hon'ble Babu Ambika Charan Mazumdar."

The Hon'ble SIR DEBA PRASAD SARBADHIKARI said :—

"'We want King George'. That was the cry raised by the crowd which assembled before the Buckingham Palace when the terms of the armistice were announced. In the sense that I read the call. it was a fitting counterblast in advance to the world-wide revolutionary ideas preceding and following the armistice. His Excellency the Viceroy has done exceedingly well—if one may say so without impertinence—to give expression to the feelings of unalterable loyalty of India towards the Throne and the person of His Majesty the King-Emperor. India whole-heartedly rejoices with the Empire at the approaching peace and all that it would stand for towards progress, civilization, humanity and righteousness."

The Hon'ble MR. CRUM said :—

"I should like to associate myself with the resolution proposed by the Hon'ble Babu Ambika Charan Mazumdar. I am sure we are all unanimous in congratulating the Viceroy and the British Empire on the great victory that they have won."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"As a representative of the Municipalities in the mufassal I am glad to associate myself with the object of the resolution and I heartily support it."

The resolution was then put and unanimously agreed to.

LIST OF BUSINESS—ITEM Nos. 2 AND 6.

RESOLUTIONS.

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR moved the following resolution :—

"This Council is of opinion that the Constitutional Reform proposals laid before this country and the Parliament in England, by His Excellency the Viceroy and the Secretary of State for India, are a genuine effort and a definite advance towards the progressive realization of responsible Government in India."

He said :—"Peace reigns over the earth. The world's tribulation has come to an end, and people of every land, except perhaps those of an accursed

country, are beaming with joy. By the heroic part which England has played in the greatest war since the birth of humanity, she has more than justified the old saying, 'righteousness exalteth a nation.' Good will to mankind, especially to India, England has not only expressed in words and declarations during the progress of the war, but she has during that period made a serious effort to raise us in the scale of nations by devising a workable scheme of progressive self-government for this ancient land within the British Empire. Her promises will no doubt be fulfilled, and now that the distractions of war are over, we of the older generation will live the remaining span of our life, in the hope that, through God's blessing and England's generosity, we shall soon have the privilege of administering our own affairs to some extent. This hope we have been cherishing in our mind since the memorable declaration in the House of Commons made on the 20th day of August, 1917. There was then, however, one cause of uneasiness. With all our faith in the might of England and of her allies in the field at that time, there was no near vision of victory, and our political life was bound up with decisive success to their arms. This uneasiness did not trouble the Cabinet at Home and England's Minister and India's Viceroy who were commissioned to formulate a workable scheme have between them produced one which is certainly a genuine effort to give the people of this country a measure of self-government hedged in no doubt by conditions dictated by considerations of prudence and caution, but not of mistrust. It is a distinct, definite and substantial step towards the gradual and progressive realization of responsible government, as promised in the declaration of the Cabinet made in August 1917, for which we cannot be too grateful to the illustrious authors of the Reform proposals. The scheme will be as it were an inclined plane to us which is bound to lead us to full responsible government at no distant time. Probably there will be a weaker degree of efficiency in the administration of affairs connected with transferred subjects in the beginning, and probably there will be more mistakes than when their conduct was in the hands of British Civil Service men. Mistakes and the remedying of the evil arising out of mistakes are a part in the growth of a nation, and such a state of things in the near future has to be tolerated as a normal state leading to better things. The illiteracy of the masses for which the East India Company and subsequently the Crown are responsible, ought not to stand in the way of the introduction of representative government in this country. The political reforms of 1832 and 1868 in England were introduced when the masses there were no better. But this educational and social defect did not stand in the way of democracy in that country, and the democratic plunge made by Mr. Disraeli in 1868 led to the passing of Mr. Forster's Education Act in 1870. In the matter of mass education in India, with the fate of Gokhale's Education Bill of 1910 before our eyes, I can only say that not till there is some sort of self-government in the matter of finances and primary education, the dumb millions will ever see the light of knowledge, and it would be arguing in a circle and it would not be fair to say, you cannot approve of the introduction of representative government because in the beginning it will be an oligarchy and not democracy. People of the last conquering nation—the British—do not choose to live permanently in this land as their predecessors the Moguls and Pathans did. If they did that, they would have felt that their interests and our interests are identical, and this country would have got a representative and responsible Government long ago. As it is, the European commercial community, if they had their own way, would put off the introduction of any form of self-government in their day. People in England are more generous in instincts. I appeal to my European friends here—and they are all picked men—to forsake their narrowness, to rise equal to the occasion and join in the holy work of the inauguration of responsible government in this ancient land of the Aryans."

Resolutions.

The President; Sir Deba Prasad Sarbadhikari; Rai Radha Charan Pal Bahadur; Rai Debender Chander Ghose Bahadur.

The PRESIDENT said :—

"I would call attention of the Hon'ble Members to the fact that items Nos. 3, 4, 5, 6, 7 and 8 are all covered by the motion which is now before the Council. It will not be in order, therefore, to move any of these motions but any Hon'ble Member, of course, can speak upon the motion which is now before us. There is a small difference in one or two of the motions to which I have referred in which one or two Hon'ble Members desire to point out that the Reform Scheme may be imperfect or defective in certain respects. It will be open, therefore, for the Hon'ble Babu Ambika Charan Mazumdar, if he wishes it, to move as an amendment to the motion now before us the following :—

'To insert after the words "Secretary of State for India" in line 3 of the original motion the following words—"even though they may be imperfect or defective in certain respects."'

If the Hon'ble Member wishes to move that as an amendment he should do so now."

The Hon'ble SIR DEBA PRASAD SARBADHIKARI said :—

"May I suggest that if the resolution standing in my name is made a part of the original motion, then it will not be necessary for me to move an amendment."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"I beg to submit, my lord, that my resolution is differently worded. My resolution begins with the same words as his, but it is otherwise quite different."

The PRESIDENT said :—

"I am prepared to accept the suggestion of the Hon'ble Sir Deba Prasad Sarbadhikari. He will move his resolution as an amendment to the original motion."

The Hon'ble SIR DEBA PRASAD SARBADHIKARI moved, by way of amendment, that the following be added to the resolution, namely :—

"and also desires to record and offer its grateful thanks to His Excellency the Viceroy and the Right Hon'ble the Secretary of State for India for their Reform proposals."

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"I accept the amendment."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My lord, while the Council welcomes the first modification on the resolution, I desire to draw attention to the second paragraph of the resolution."

The PRESIDENT said :—

"If the Hon'ble Member reads out the exact amendment which he wishes to move I will consider it. In the meantime the discussion on the main point may continue."

Resolutions.

Babu Ambika Charan Mazumdar; Rai Debender Chunder Ghose Bahadur; The President; Babu Mahendra Nath Ray.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My lord, I have accepted the first portion of my hon'ble friend's resolution, but I have got another clause in my resolution which is 'and it is further of opinion that the Government should adhere to the policy and principle of responsible Government which have dictated those proposals and give effect to them, with such modifications and improvements as have been urged by the majority of the Indian public, in fulfilment of the memorable declaration of the 20th August, 1917.' This is my addition. If my hon'ble friend will accept it I believe the debate may go on upon his resolution as a whole."

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"I have felt some difficulty in accepting the proposed amendment : it appears to me to be a little vague and indefinite and that is why it is difficult to agree with my hon'ble friend."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"In that case, subject to Your Excellency's decision, I shall have to move it as an independent resolution."

The PRESIDENT said :—

"I think the amendment which the Hon'ble Rai Radha Charan Pal Bahadur is about to move will cover the point suggested by the Hon'ble Member. I understand that the Rai Bahadur would like to move the second part of item No. 7 as a separate motion. I think that will probably meet the Hon'ble Member's object."

The Hon'ble BABU MAHENDRA NATH RAY said :—

"My lord, the motion which is before the Council and which, in terms, is similar to item No. 5 which stands in my name, and which is probably identical with the one before the Council, is made with a special point of view which I shall respectfully ask the Council not to overlook. The educated Indians who have expressed their opinion on the Reform proposals are generally agreed that they should be accepted, but they suggest that they should be accepted with certain important modifications, especially in the direction of the Government of India being made more responsible to the Representative Assemblies : but many of us are of opinion and hold that even if such modifications are not conceded at present we should be content with the reforms as proposed in the report as a substantial first instalment. It was with that point of view that I drafted the resolution which stood in my name, and I take it that is also the point of view from which my hon'ble friend, Rai Debender Chunder Ghose Bahadur, made his motion. Let it, therefore, be distinctly understood that the motion which has been put before the Council which is substantially the same as the motion of which I had given notice takes this position and takes this position with perfect clearness. So far as educated India has expressed itself, it has said that certain important modifications, specially in respect of the Government of India, are desirable, but it does not say that even if such modifications are not allowed at the present moment, the people do not desire to have the Reform proposals as they are embodied in the Report.

Your Excellency, the only additional observation which with Your Excellency's leave I would venture to make before the Council is this : We cannot ignore the chief objections which have been urged against the Reform proposals as embodied in the Report and with Your Excellency's leave I shall notice only two of them. It is said that the reforms are demanded only by a very small minority of people, the educated and the higher classes, and that

India is not and ought not to be the home of democracy. Of the many eminent critics who have said so one may single out two very distinguished names—Lord Sydenham, a great Engineer and the ex-Governor of Bombay, and Sir John Hewett, a distinguished member of the Indian Civil Service and an ex-Lieutenant-Governor of the United Provinces. The *Times of London* never said a wiser thing than when it referred, in refutation of this view, to Japan. We all remember that before representative Government was granted to Japan 30 years ago the reformers who fought for it consisted of a very small proportion of the population, the Samurai, and a small band of young men and thinkers who had returned from a direct observation of the working of the constitutional system in Europe and America. I am quoting Captain Brinkley, the famous authority on Japan, who says 'The bulk of the people—the agricultural, the industrial and mercantile classes—remained outside the sphere of politics not taking any serious interest in the great questions of the time.' And Constitutional Government in Japan has proved a success. The lessons of the great war which is just over ought not to be lost upon us. It has brought home the triumph of responsible Government all over the world. The other objection which has been very strongly urged by the two distinguished statesmen I have just named and others appears to me to be this—that the proposals, if adopted, will lead to complications in the administrative machinery. It is said, for instance, that one of the most important reforms proposed—that dual system of reserved and transferred subjects—will lead to serious complications in practice, and the ex-Governor of Bombay actually said that as the Indian genius excels in intrigue Indian legislators will take advantage of such complications to oppress his fellow countrymen. I have no doubt that the British people would refuse to listen to such suggestions but will accept the unavoidable complications which are due to the very necessities of the case. These complications are a compromise between, on the one hand, the paramount duty of the Executive Government to safeguard the interests of peace, order and good government and, on the other hand, the necessity of at least a partial realisation of responsible government in India as a first step in accordance with the announcement of the 20th August. The people must be taught, as my hon'ble friend the mover has already said, in the art of self-government. Your Excellency, with these words I shall support the motion of my hon'ble friend Rai Dobendra Chunder Ghosh Bahadur, and the motion which stands in my name, No. 5, which is practically identical with No. 2, necessarily drops."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My lord, I have already said in my note submitted to Government that it is impossible to rise from a calm and dispassionate perusal of the elaborate and masterly report of the Right Hon'ble the Secretary of State and His Excellency the Viceroy without being profoundly impressed with the sincerity and genuineness of the policy which have dictated the proposals formulated in it. It cannot be doubted that these proposals, however imperfect or defective they may be, are honestly intended to form the nucleus of a constitution which, if whole-heartedly and systematically fostered and developed, is purely calculated to prove at no distant time a real and substantial measure of responsible government in India. It is easy to point out defects of these proposals—in fact the illustrious authors of the scheme nowhere claim for perfection or finality for it. It may be also possible to say that some of these proposals in their present form even go to militate to some extent against the fundamental conception of the scheme; but it would be difficult for honest criticism not to admit that the constitution as proposed is a clear and decisive advance upon the existing unconstitutional constitution of the country, and to ignore the broad fact that underlying these defective proposals there is the germ of responsible government

which may require only time and opportunities to grow and expand in the process of our national evolution. My lord, it is some of these defects which has evoked sharp criticisms from certain quarters ; but I sincerely believe that those of my countrymen who have assumed a hostile attitude towards this scheme have their eyes more upon these defects than upon the real principles underlying this scheme. To some of these defects I reserve my right to speak later on when my hon'ble friend, Rai Radha Charan Pal Bahadur, will move his resolution as I have accepted it. But before I do so, I think I ought not to pass over some of the criticisms which have been made both here as well as in England against the scheme without a passing notice. My lord, the Reform proposals have been subjected to flanking attacks from two sides, each of which is diametrically opposite to the other. In the first place, those who are firmly wedded to the fetish of traditional prestige and are labouring under long-standing prejudices, shudder at the very idea of a change and would have none of it. The sum and substance of their opposition seems to be that they are afraid that any change in the present constitution would mean the beginning of the end of their only interests in this country and lead to the utter collapse of the British enterprise in India. My lord, I do not blame those critics. Any people similarly circumstanced and enjoying similar privileges, immunities and advantages during the lifetime of four or five generations, would be naturally seized with such fears. But is there any reasonable or rational ground for such fears? These fears were seriously expressed by the British settlers in South Africa on the eve of the South African Union, but to-day there are perhaps no more staunch supporters of the British Empire outside Great Britain than Generals Smuts and Botha, and British capitalists perhaps are now as safe in Pretoria as in London.

I admit that there is not much of cordiality at present between the two communities ; in spite of the repeated efforts of Government to bring them together, there are still lurking jealousy and distrust between the two communities, but the thing is that it is only among fellow citizens and not among fellow subjects that there can be mutual trust and confidence and it is only mutual trust and confidence which go to dissipate prejudices, harmonise relations between the different communities and inspire their minds with respect and regard for mutual interests. Those critics imagine that it would be a mistake to introduce responsible government in India at the present stage. It seems to me that not exactly knowing their own minds and having no clear idea as to when and under what circumstances they might be disposed to recommend such a change in the constitution, they simply want to take comfortable shelter under an indefinite postponement. My lord, is there any ground for such fears on their part ? It is nearly 70 years to-day that Macaulay in his prophetic vision foresaw the present situation when he said that the minds and ideas of Indian people widened by western education will aspire to western institutions, but he would not be sorry for it, for he said if that day ever came he would regard it as the proudest day of England. My lord, the 'proudest day of England' has come ; unfortunately, however, there are those who, with their judgment crowded by selfish considerations or through timidity, cannot appreciate their own national greatness and are not able to rejoice in their own triumph. It is really a day of triumph of England in the East. My lord, I will not argue with the Noble Lord who, having eaten the salt of India and after either ruling or misruling an Indian province for five years, is now leading a crusade against her in England and who has engineered an organisation whose very name is a deception and fraud and which has now come forward as a desperate effort to avert the inevitable, with a grotesque suggestion for the establishment of a few model farms in a few selected districts in each province for the cultivation and demonstration of responsible government in India. My lord, it is more regrettable than surprising to find that Lord Curzon, at the top of these reactionaries, has come forward with a statement which

Raja Hrishikesh Laha.

has startled the Indian public. Speaking in the House of Commons His ex-Excellency is reported to have said that the Government has not yet committed itself to the Reform proposals. I really wonder if His Lordship really means what he says. Was not the declaration of 20th August an act of Government? And I ask in the name of my countrymen—was not the expensive misson of Mr. Montagu in pursuance of that declaration, an act of the Cabinet in England, and are we to understand that a report of a Secretary of State and a Viceroy is to be treated as a mere 'scrap of paper' without any binding force? My lord, the fortunes of war have happily changed entirely in favour of the Allies and Teutonic militarism with all the horrors of Teutonic vandalism has come down on its knees begging for peace. The complete victory is now in our hands. At such a moment—at such a happy moment—to suggest anything so mischievous is to lead the people of this country to suspect that the Government may go back upon its own pledges or promises, and to whittle down the Reform proposals would be, to say the least of it, very deplorable if not disastrous. It is to be hoped that the British public will strongly repudiate any such unworthy suggestion and strongly denounce such a change in the angle of vision. Above all, it is to be hoped that the British statesmanship will rise to the full height of the occasion and vindicate British justice and British faith which more than anything else, even more than the Grand Fleet, is the strongest bulwork of this vast Empire.

My lord, I have done. I will not take up much of Your Excellency's time. After centuries of dismal darkness in which the people lay in deathlike slumber and during which a civilization more ancient than that of Greece and Rome and even older than that of Babylon and Niniveh was swept away by successive convulsions and revolutions unparalleled in the history of nations, the light which in the early morning of this world travelled from the East to the West has come back from the West to the East and revealed to the astonished gaze of modern civilization tha. if there is one India above, there is another India not far beneath its surface; at the touch of that magic light the people have been rudely awakened to a sense of self-consciousness and during the last thirty years or more they have struggled hard, though struggled in vain, to recover their long-lost birthrights. After years of weary wandering in the desert the hour of deliverance has at last come and we are in view of the promised land. A calamitous war, the most terrible recorded in history in ancient or modern times, has proved a great blessing in disguise to the world; to us it has furnished an opportunity of not only conclusively proving our reasoned attachment to the British connection, but also our capacity to share the burdens of that connection as equal partners of this vast Empire. To the British public it has revealed the fact that if the liberties of the great nations of the world have to be maintained, those of the smaller and the less fortunate ones must also be respected. It has been truly observed by the greatest political philosopher of Great Britain that a great Empire and a little mind go ill together. Let England extend the right hand of fellowship to us, and we shall grasp it with all the fervour and warmth of an Indian heart, and the Indian heart is as warm as the Indian sun. Let her raise us from the position of British subjects to the proud position of British citizens and she may rest assured that India and England will ever remain indissolubly bound together by hooks of steel."

The Hon'ble RAJA HRISHIKESH LAHA said :—

"Your Excellency, the memorable announcement made by His Majesty's Government on the 20th August, 1917, has been taken as the basis of the impending reforms, and we have to see as to how far the reforms now proposed seek to give practical effect to the announcement which has been

truly characterised as 'making the end of the epoch and the beginning of a new one.' The changes proposed and the modifications suggested in the present system of administration are intended, as I understand, to place India in a position to reach the final goal of responsible government within a measurable distance of time. It is for the first time in the annals of British Administration in India that the desire for self-determination on the part of the people has been recognised by the authorities as the natural outcome of the work of a hundred and fifty years of British rule, and the aim of the illustrious authors of the Report in formulating the scheme which is now before the country is obviously that 'of enabling Indians in so far as they attain responsibilities to determine for themselves what they want done and how they want it to be done,' and for this the people have every reason to be grateful to them. It is but meet that my countrymen should be extremely grateful to His Excellency the Viceroy and the Right Hon'ble the Secretary of State for India for the genuine spirit of sympathy with the hopes and aspirations of the people which they have evinced in this momentous document.

So far as the present system of Government is concerned, three defects have been pointed out in the Report, viz., (1) that the present machinery no longer meets the needs of time, (2) that it works slowly, and (3) that it produces irritation. The people fully endorse this view and the reforms proposed will be acceptable to them in proportion as they seek to or succeed in removing those defects from the body politic.

We have no desire to make any detailed criticism of the scheme, and while we reserve to ourselves the right to take exception to such of the details as may call for amendment, we cannot shut our eyes to the fact that the scheme as a whole, expressing as it does the intention of the illustrious authors, is to open wide to the people of this country the gates of opportunity, and if the educated classes would only show their fitness by their integrity, energy and public spirit in the faithful discharge of their public duties, the clear conception of India's future as summed up in paragraph 349 as stated below stands to be realised within a measurable distance of time.

> Our conception of the eventual future of India is sisterhood of States, self-governing in all matters of purely local or provincial interest, in some cases corresponding to existing provinces, in others perhaps modified in area according to the character and economic interests of their people. Over this congeries of States would preside a central Government, increasingly representative of and responsible to the people of all of them; dealing with matters, both internal and external, of common interest to the whole of India; acting as arbiter in inter-state relations, and representing the interests of all India on equal terms with the self-governing units of the British Empire.

We must always keep the above ideal in view and if at the commencement we can pilot the ship through the shoals and narrows and reach port in safety our claims to higher powers and preferment would be indisputable.

There are two points to which a brief reference is made in the Report but which have been unfortunately left out undisposed of as having been outside the purview of the Report, viz.: (1) the Army, (2) Industries and Tariffs. Both these are of vital importance to India, if she has to occupy and retain her position in the world as a self-governing unit of the British Empire. The two most essential conditions of a self-governing country must be fulfilled, namely, that it should be able to defend itself and secondly, that it should be self-contained. To achieve these ends it is absolutely necessary that the future military and the industrial policy of the Government must be radically changed and definitely settled: as for the military policy of the Government it has long been a source of great disappointment to the people, and the whole country is grateful to His Majesty's Government for the

Dr. Abdulla al-Mamun Suhrawardy.

announcement that 'the bar which has hitherto prevented the admission of Indians to command ranks in His Majesty's Army should be removed.' I would rather suggest that it should be expressly provided that no racial bars shall henceforth exist in regulations for appointment to the military service, and that in accordance with the statement of the authors 'it is not enough merely to assert a principle, we must act on it' and 'that a considerable number of commissions should be given,' a liberal percentage should be fixed to satisfy popular demand.

With regard to the second point, namely, the question of industries and tariffs, I need only say that the authors of the Report have truly voiced the opinion of the Indian public on the subject in paragraph 342. India demands fiscal autonomy as nothing short of that will enable India to stand upon its own legs. As stated in the Report 'India rightly wishes to find another substantial base than that of the source for Indian Revenue and it turns to a tariff to provide one.' Unless fiscal autonomy is granted to India and until the Government of India is allowed to pursue its own policy with the sole object of improving India's own industries and commerce, the resources of the Indian Government could never be sufficiently developed to cope with the fresh responsibilities which the new reform scheme will entail. The demand for fiscal autonomy on the part of India is genuine and in the very interest of the country it is essential. It is hoped that His Majesty's Government and the British Parliament will realise this, and under the new scheme of reforms the Government of India will be authorised to control their own fiscal policy.

I cannot do better than conclude my remarks in the words of His Excellency the Viceroy 'Diversity of opinion there must always be; diversity indeed is the very law of life. But there is a higher law still, the law of unity. and it is the task of the Council to reconcile the many divergent interests of India into one whole and to bring her ever nearer to the goal towards which we are all striving.' I hope His Excellency's anticipation will be verified and that by a spirit of sympathy and co-operation the different races will do their utmost to bring about the happy consummation of the scheme which is expected to bring contentment to the people of the country. We must record our general approval of this epoch-making measure. It immediately gives us much that we had hardly dreamt of before and promises us more in the not distant future. It marks a satisfactory advance upon the past policy and professions of our rulers, and holds up before our eyes a glorious vision of the future which will mark the fulfilment of England's mission in India than which a nobler one has never inspired the energies of man or deserved to win the blessings of the Most High."

The Hon'ble DR. ABDULLA-AL-MAMUN SUHRAWARDY said :—

"I rise to support the resolution before the House. I have no hesitation in declaring that the Reforms constitute a distinct advance upon existing conditions and mark a substantial step towards the progressive realisation of the goal of responsible government. But I cannot lend my whole-hearted support to the resolution without inviting Your Excellency's attention to the keen sense of disappointment. dissatisfaction and dismay with which the Reforms are received by Muslims of all shades of opinion. I cannot sit down without placing prominently before Your Excellency the principal modifications which the Muslims demand and without which the Reforms lose their significance for them.

The Muslim demands have been placed before Government in forcible terms by the All-India Muslim Association, and the Central National Muhammadan Association, and I need not repeat them here. All that I need say is to declare my full concurrence with the views expressed by these two

Resolutions.

Dr. Abdulla-al-Mamun Suhrawardy.

important Muslim Associations. But I shall, with Your Excellency's permission, dwell on one of the main demands in order to show that the Muslims are not an unreasonable people. that they have no desire to retard the progress and arrest the growth of national sentiment in India, but that they have a just cause for alarm and discontent. That demand is the demand for the adequate representation of Muslims through communal electorates. Let me briefly recount the history of this demand. It was in October 1906 that the first sign of the awakening of Muslim political consciousness became distinctly visible. It was in that year that the memorable Muslim deputation headed by His Highness the Aga Khan waited upon His Excellency Lord Minto and obtained from him those words of assurance of the protection of Muslim political rights and interests as a community that are justly regarded by them as the Magna Charta of the political rights and liberties of minorities. The assurance given by Lord Minto was confirmed by Lord Morley in the House of Commons in the following words :—

'The Muhammadans demand three things. I had the pleasure of receiving a deputation from them and I know very well what is in their minds.

They demand the election of their own representatives to these Councils in all the stages just as in Cyprus, where, I think, the Muhammadans vote by themselves . . . . . Secondly, they want a number of seats in excess of their numerical strength. These two demands we are quite ready, and intend, to meet in full.'

Your Excellency is well aware that in spite of the assurance thus given in clear and unmistakable terms statements were made by persons in authority both in India and in England which 'created a suspicion in Muslim minds that these promises were liable to violation, that the Government in England were deliberately trying to find a way out of redeeming the express pledges they had given to various Muhammadan deputations which attended upon the Viceroy and the Secretary of State." However, the Minto-Morley Reforms came and our own Council is a standing testimony of the way in which pledges given to Muslims were redeemed. In a province which may well be described a Muhammadan province we are given only five seats through communal electorates and we are given the very remote and distant chance of returning as many Muslims as we can through mixed electorates. The result is that there are only six elected Muslim members in the Council to-day against seventeen Hindu and five European elected members. It is thus that the Muslim demands have been met in full by Lord Morley. Far from assuring us a number of seats in excess of our numerical strength he has allotted us a number of seats far below it. Yet the Muslims acquiesced in the arrangement and accepted the Morley-Minto Reforms without murmur.

The Muslim attitude continued acquiescent till the fateful 12th of December 1911—a day which is the starting-point of that strong current of Muslim dissatisfaction and discontent which culminated in the Congress-League *Concordat* of December 1916. The annulment of the Partition of Bengal came as a severe shock to the faith of the Muslims in the Government. Whether the revelation of the dangerous secret that the pledges of a Governor-General or a Secretary of State can be broken by his successor, whether this breach of faith has inspired others with greater trust and confidence in the words of Ministers and Viceroys, I do not care to ascertain. But this unsettling of a settled fact has undoubtedly shattered the implicit faith of Muslims in Government and has made them extremely suspicious of Government promises. Then came the world-wide war which has happily just terminated in the unqualified triumph of the principles for which England arrayed herself on the side of the Allies—the principles of justice and humanity, the defence of the rights of small and weak nations and the sanctity of pledges and promises. The participation of Turkey in the war followed

Resolutions.

Dr. Abdulla-al-Mamun Suhrawardy.

and with it there has grown 'a feeling among Muslims that Government is less mindful of their interests than in the past.' In the appointment of only one Muslim out of three Indians in the Secretary of State's Council, the absence of a Muslim representative from the War Cabinets and the Peace Conference although the future of the sacred places of Islam—Mecca, Medina, Baghdad, Kerbela and Jerusalem—is involved, the absence of a Muslim in the India Council to-day in the place of Sahibzada Aftab Ahmad—these, amongst others, are regarded as indications of Government's change of attitude towards Muslim.

The Indian Muslim Association in its address to the Secretary of State and His Excellency the Viceroy expressed itself as follows :—

In conclusion, we venture to express the hope that you will redeem in full the promise Lord Morley had given us and recognise the just claims of our community. We do not rest our claims on any concession or favour granted by the Great Moguls to the East India Company. We do not base our demands on any *Sanad* or *Firman* of Shah Jahan, Alamgir or Shah Alam—faded and forgotten parchments, grown musty with the march of time. But we do base and rest our claims and demands on the assurances given and accorded to us by responsible ministers of the Crown and representatives of His Majesty the King-Emperor whose utterances are fresh in the memory of living men. In considering our claims, we beg of you to remember that they rest not only on the numerical strength of the followers of Islam, great as it is in India, and greater still in the British Empire ; not only on their historic and political importance, great as it is in this country, and greater still in the history of three different continents, but also on our profound, continued and proved loyalty to the person and throne of the King-Emperor, a loyalty which has stood the severest of tests on many occasion in peace and war.

But to their great disappointment the Muslims find their loyalty strangely rewarded. They find a homily preached to them on the evils of communal representation : 'It is against the teachings of history.' The history of what nation, what country, one naturally asks? With due respects to the authors of the Report, I submit that their conclusions are due to a misreading of the teachings of history. If one goes to history for assistance one stands upon dangerous grounds. In the history of what nation, and of what country, have we got an example of the system of Government which is offered under the reforms scheme? We cannot find a historic precedent and example anywhere. The only reasonable reply to a demand for historic example would be that the conditions and circumstances of India are unique and unprecedented. It is on these unique and unprecedented conditions and circumstances peculiar to India that the Muslims base their claims for communal representation. 'It perpetuates class divisions.' This proposition provokes the smile of every student of Indian history. Class and caste divisions stereotyped in the adamantine mould of immemorial custom going back to the days of Asoka and Vikramaditya and beyond, do not, for their perpetuation, stand in need of a council election every three or five years, which touches only the barest fringe of the vast population of India. Finally the authors of the report take away with the left hand what they grudgingly give with the right. They plainly indicate that the communal representation granted to Muslims is temporary and liable to be withdrawn. Paragraph 262, line 8 of the Report reads as follows :—

'Lastly the Commission should consider the working of the franchise and the constitution of electorates, including the important matter of the retention of communal representation.'

Now, I ask the House, have not the Muslims just cause for alarm and discontent? My lord, I cannot do better than to conclude by quoting the words of the Raja of Mahmudabad which voice the feeling of the Muslims as truly to-day as they did in 1909 when quoted by Your Excellency in the House of Commons :—

'..... I can safely state that the general state of feeling amongst the Muhamadans at the present moment in regard to the question of their rights

Babu Kishori Mohan Chaudhuri.

and privileges under the Reform Scheme. but specially in regard to the matter of a separate electorate, is one of utter confusion They fear, however. that a great wrong is about to be inflicted upon them ; that they are to be treated with an injustice wholly undeserved by them and undreamed of, and they are deeply disappointed. They are not politicians, they do not understand the language of diplomacy, they are a patient. loyal, God-fearing people, who have trusted in solemn pledge given to them by their rulers and who ask for a sign that that pledge is about to be fulfilled.'

My lord, on behalf of the Muslim community I urge that the Muslim demands be satisfied to the fullest extent possible, and that assurance be given to them in clear and unmistakable terms that this will be done. Otherwise I am afraid. with a sullen and discontented Muslim population the vast and bold experiment of responsible Government upon which we are about to embark is doomed to failure. I yield to none in my desire to see the dawn of responsible Government in India. But I know and realise that the path to responsible Government is long and weary and full of dangers and pitfalls. The Reforms, undoubtedly, mark a substantial step towards the goal of responsible Government. but it is long, long way to Delhi هنوز دلي دور است and one is liable to go astray. Let us not deviate from the path of right and justice, lest the words of the Persian poet come true :—

ترسم نرسي بكعبه اي اعرابي كين ره كه تو ميروي به ترکستان است

'I am afraid thou shalt never reach the Mecca of thy destination, O Bedouin, for the way thou wendest leads, not to Mecca but to Turkestan.'"

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My lord, I rise to explain the language of the resolution which stands in my name on this subject. I have stated in clear and unmistakeable language in submitting my opinion to Government that the proposals are a decided and distinctive improvement upon the existing machinery of Government, and we are grateful to the illustrious authors of this scheme. It has been suggested in several quarters that some modifications are necessary. They are necessary no doubt, but at the same time it is to be made clear to the Government that while we accept the proposals we suggest modifications only expressing a hope that there may not be any difficulty in the smooth working of the proposals and it may facilitate the early realisation of responsible government in the near future. It is better no doubt that there should be two resolutions on the subject. and I am grateful to Your Excellency in ruling that there should be one resolution for this and another in which we should suggest the modifications which we think will be necessary as I have just now stated. Doubts are expressed in some quarters that the scheme will not work well, and as stated by the previous speaker, the Moslems are not satisfied with the proposals and they apprehend that their rights and privileges will not be protected. It is to be borne in mind that this is an experimental measure and we must proceed cautiously. The announcement in the House of Commons was that this should be a progressive step towards responsible government in India and in that view the proposals have been submitted ; so that we may gradually demonstrate our ability to manage affairs and that we may gradually succeed in obtaining the privileges which will now be reserved. I do not for a moment think that there will be any deviation and that the Government will not adhere to the principles enunciated in the Report, and I fully believe that they will be worked out in a sympathetic

Maulvi A. K. Fazl-ul-Haq

spirit to make the experiment a success. When I submitted my resolutions, there were two things uppermost in my mind; one was the reports of the two Committees which have been constituted and upon which much of the success depends, are not known; and the other was: there may be long delay as has been expressed in paragraph 289, in the latter part of which it has been stated that full responsible government will be granted to the Provincial Government first and then a beginning will be made in the Government of India; that is not the question, but there is a natural desire and the natural aspiration of our countrymen that we should be placed on an equal footing with the other Dominions. We are proud of the achievements of India in the battlefield of Mesopotamia and their material contribution in other fields of war at a very great sacrifice, and it is but natural after the demonstration of the loyalty by the people and their participation with full responsibility in the defence of the Empire, we should be granted an equal position which every self-respecting man wishes to enjoy and in that hope we express a hope that there may not be delay, and therefore we suggested modifications. It is not in the spirit that unless these modifications are made we are not prepared to accept anything; we say clearly that it is a distinct advance; but at the same time we say that some further modifications are necessary and we express a hope that the working out of the scheme by the Sub-Committees will be made in the sympathetic spirit in which the proposals have been conceived. It is in that view that while drafting this resolution, I expressed a hope after stating that it is a real advance, that this might be done. The language may be misunderstood in some quarters, and therefore I rise to clear my meaning. In fact, I fully agree with the previous speakers, but I disagree with the speaker who has just spoken before me, that it will not be carried out in the spirit in which it has been conceived, but I hope that our suggestions about the modifications will be received in the spirit in which they are offered."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ, said:—

"My Lord, although I heartily support that portion of the resolution which seeks to record the grateful thanks of this Council to the Right Hon'ble the Secretary of State and His Excellency the Viceroy for the very genuine and earnest endeavours they have made towards liberalizing India's political institutions, I regret, I cannot subscribe to the terms of the resolution in the form in which it now stands before the Council. I agree generally with the remarks that have been made by the Hon'ble Dr. Suhrawardy regarding the Moslems' position in the proposed scheme of reforms, but I go a little further and say that although there has been a genuine effort and the sincerest appreciation of India's political aspirations, there have been reasons why the illustrious authors have not been able to succeed in propounding a scheme not only free from objections, but also free from very serious defects. My Lord, we have got to test the proposals that have been made in the light of the announcement of the 20th of August. We are all agreed that this announcement is one of the most momentous ever made in the history of India's political institutions; inasmuch as it embodies a solemn pledge that responsible government is the final goal of British rule in India. I think that if we are to accept this announcement as the fundamental basis of a scheme of reforms, we cannot go beyond the terms of the announcement itself. Looking to the terms of the announcement, we find that there is also a declaration that substantial steps towards the grant of responsible government should be taken as soon as possible, and it is in pursuance of that declaration that the Right Hon'ble the Secretary of State for India and His

Excellency the Viceroy have promulgated the present scheme of reforms. If therefore, the present scheme of reforms in the form in which they now stand do really constitute a substantial step towards responsible government I submit there is no reason why a substantial modification should be proposed, because on our own showing they fulfil the very terms of the announcement. In my opinion, once we take up that position, we stultify our own criticisms and from this point of view I beg to submit that the phrase which originally stood in the resolution which was going to be proposed by the Hon'ble Babu Ambika Charan Mazumdar, as regards the limitation to the scheme, should be clearly emphasized. In other words, the phrase that "although the proposals may be defective and imperfect in certain particulars" should be inserted in the resolution. My Lord, so far as the reform schemes are concerned, they have got to be taken with reference to the limitations which the distinguished authors themselves had not failed to recognise. There is the question of the communal representation. There are questions as regards limitations that have got to be placed even when some sort of responsible government is introduced, and I fully endorse the remarks of the Hon'ble Dr. Suhrawardy, that in many instances the distinguished authors have unfortunately and unconsciously it taken away with one hand what they have given with the other. After what has fallen from the Hon'ble Dr. Suhrawardy, I do not think that this Council can endorse the resolution in its present form, without some sort of limitation like the one which was suggested in the original motion of the Hon'ble Babu Ambika Charan Mazumdar. Without taking up the time of the Council, and without going into details, because occasion for a detailed discussion will come when individual resolutions are discussed, I propose that the words even though they may be imperfect or defected in certain respects, be added as was pointed out by Your Excellency. If this is done, I shall give my wholehearted support to the resolution. If this is not done, I shall deem it my painful duty to oppose the resolution. I do not know how my friends can say that the scheme in its present shape is a genuine and distinct advance towards the realisation of responsible government when it requires 240 resolutions in one provincial Council alone to set matters right. With these few words I beg formally to press that these words may be added to the original motion."

The PRESIDENT said :—

"Does any Hon'ble Member second the amendment?"

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, I beg to second the motion moved by my hon'ble friend to my left, and I do not think it requires many words from me to recommend it to the Council. I agree in his statement that the very fact that we want so many modifications in the reform proposals show that it is neither perfect nor free from defects, and therefore I think the Council will accept the motion as has been moved by my hon'ble friend.

The PRESIDENT said :—

"To the original motion the following amendment has been moved :—

That the words 'even though they may be imperfect or defective in certain respects,' be added at the end of the resolution."

"This Council is of opinion that the Constitutional Reform proposals laid before this country and the Parliament in England, by His Excellency the Viceroy and the Secretary of State for India, are a genuine effort and a definite advance towards the progressive realization of responsible government in India, and also desires to record and offer its grateful thanks to His Excellency the Viceroy and the Right Hon'ble the Secretary of State for India for their Reform proposals."

LIST OF BUSINESS—Items Nos. 3, 4, 5, 7 and 8.

The following resolutions were held to be covered by the debate on the previous resolution as amended and were deemed to be withdrawn :—

By the Hon'ble Raja Hrishikesh Laha :—

This Council records its sense of gratitude to His Excellency the Viceroy and the Right Hon'ble the Secretary of State for the Reform proposals formulated in their joint report, which are in accord with the memorable pronouncement made on behalf of His Majesty's Government in the House of Commons on the 20th of August, 1917, and are calculated to lead, by gradual stages, to the attainment of responsible Government.

By the Hon'ble Babu Ambika Charan Mazumdar :—

This Council is of opinion that the Reform proposals formulated by the Right Hon'ble the Secretary of State and His Excellency the Viceroy, even though they may be imperfect or defective in certain respects, do constitute

a distinct step in advance towards progressive realisation of Responsible Government in India; and it is further of opinion that the Government should adhere to the policy and principle of Responsible Government which have dictated those proposals and give effect to them, with such modifications and improvements as have been urged by the majority of the Indian public. in fulfilment of the memorable declaration of the 20th August, 1917.

By the Hon'ble Babu Mahendra Nath Ray :—

This Council is of opinion that the recommendations made by the Viceroy and the Secretary of State in the Report on Indian Constitutional Reforms constitute a substantial first step towards the progressive realization of Responsible Government in India.

By the Hon'ble Rai Radha Charan Pal Bahadur :—

This Council tenders its grateful acknowledgments to His Excellency the Viceroy and the Right Hon'ble the Secretary of State for India for their earnest endeavour to devise a scheme of Constitutional Reforms, such as, in their opinion, would fulfil the terms of the announcement of the 20th August, 1917, and for the deep and sincere sympathy with Indian political aspirations, and the large-hearted statesmanship which they have manifested throughout their report.

By Hon'ble Babu Kishori Mohan Chaudhuri :—

This Council is of opinion that—

(*a*) the Report on Indian Constitutional Reforms is a genuine effort for improving the existing Government machinery; and

(*b*) that the scheme, if worked out in a sympathetic spirit with modifications to make it effective and to meet the natural aspirations of the country, will prove a real step towards the realization of responsible Government in India.

The Hon'ble Rai Radha Charan Pal Bahadur, by leave of the President, moved the following resolution, in place of the original resolution* which stood in his name :—

This Council desires, while welcoming the proposals generally, subject to such modifications as have been urged by the majority of the Indian public, to record its acceptance of the policy of the gradual realization of responsible Government.

He said :—

"My Lord, at the outset I desire to say one or two words with reference to what has fallen from my hon'ble friend Maulvi Fazl-ul-Haq. I believe that I echo the voice of the entire Indian community when I say that we all desire some modification of the scheme as published, but even if there is no modification of the scheme we are not prepared to throw it away. In such a case will the Hon'ble Maulvi Fazl-ul-Haq say 'No, we discard the scheme altogether' : that is my question to him. What we want to say to the British people and the British Cabinet is that we welcome the scheme thankfully and whole-heartedly but that we should like to have some modifications

* The original resolution ran as follows :—

This Council welcomes the proposals generally, subject to such modifications as may appear feasible, and accepts the policy of the gradual realization of responsible Government.

of the original scheme, but even if that is not granted we are prepared to accept it and that we will continue to urge modifications till they are granted and they are bound to come under the ægis of British rule. That is the position we have taken up.

The Report of His Excellency the Viceroy and the Right Hon'ble the Secretary of State is one of the most thoroughly sincere documents ever placed before the Indian public. It deserves to be read, and re-read, and the more we read it, the more are we struck with the enlightened and generous statesmanship with which every line is instinct. The Report is not simply a blind plea for self-government for India. It contains a review of the past policy of the Government, takes stock of the present situation, of the present limitations and future possibilities. Even a national Government could not have written more frankly about India's political destiny and place in the Empire. I do not claim that the work of Government will in the first instance be done better than if it remained in the sole hands of Government officers. The present Constitutional Reforms have been put forward not for the improvement of administrative efficiency, but with a view to furnish an instrument of political and popular education, and to lead us on in course of time to the realisation of full responsible gov rnment. The policy hitherto has been to keep the people in perpetual leading strings, and to treat them as if they have no national rights as a political entity. It was left to His Excellency Lord Chelmsford and Mr. Montagu to inaugurate the new era of genuine self-government. To critics who point to the possibility of failures, I would reply in the words of Lord Ripon's resolution on local self-government as follows :—

'At starting, there will doubtless be many failures, calculated to discourage exaggerated hopes, and even in some cases to cast apparent discredit upon the practice of self-government itself. If, however, the officers of Government only set themselves to foster sedulously independent political life, if they accept loyally and as their own, the policy enunciated ; and if they come to realise that the system really opens to them a fairer field for the exercise of administrative tact and directive energy than the autocratic system it is proposed to supersede, then it may be hoped that the period of failures will be short, and that real and substantial progress will very soon become manifest. If it be said that in some cases the experiments in this direction have not been encouraging, there is reason to fear that previous attempts have been too often overridden and practically crushed by direct though well meant, official interference.'

After all, My Lord, democratic institutions are not altogether exotic in India. It has been said that the East is the parent of municipalities. From the early days of society, the people of this country have been acquainted with forms of local self-government. The village institutions which still survive in many parts of the country are living monuments of the national capacity in this respect. It is true as was observed by Lord Ripon that the people of India are remarkably tolerant of existing facts. The people of no other country are so mild, so patient, so uncomplaining as the people of India. Even the wildest caprice, the most arbitrary conduct and the bitterest antipathy are passed over by them with the coolness of a philosopher or an ascetic. The people of India, however treated, are loyal to the backbone to the powers that be. But the time has arrived when the educated classes of India ought to be allowed a better scope to their advanced thoughts and aspirations. It is England which has educated them, and it is therefore befitting that it should accord to them the rights of educated intelligence. By recognising such rights England will fulfil her mission in the East and Lord Chelmsford and Mr. Montagu are truly representing her in the fulfilment of that mission.

We are frequently reminded that the educated classes are only a handful, and that the vast mass of the population are illiterates. Critics who advance this argument conveniently forget history. I ask how far was England

Resolutions.

Rai Radha Charan Pal Bahadur.

educated when the Reform Bill of 1832 was passed ; how far was she educated at the time of the passing of the Act of 1867. Only since 1867 which gave household suffrage, has England possessed a system of free and compulsory education. Then again how far was Japan educated when the Samurai renounced power and popular Government was introduced. Our masses may be illiterate, but they cannot be called ignorant. The educated classes are a minority everywhere, but they are not quite so small as the handful of Europeans in whose hands are centered all authority and power. The masses, will I have no doubt, gradually understand and appreciate their new role. It would be contradicting human nature to say that man, intelligent man, will not prefer freedom to fetters in the administration of national affairs. Those who are now in leading strings will be the first to appreciate their freedom when they will see that they are no longer the slaves of the official *huzur*, that as he is a tax-payer, he has the right to say how the tax paid by him is to be disposed of and that the district officer shall not be the perpetual keeper of his conscience. If once this feeling gets root in the popular mind, the people of India will become a new race of men altogether.

My Lord, it was Lord Cornwallis who reduced the chaos of British Indian administration to order by enacting the regulations. It was Lord William Bentinck who first recognised the right of the people of India to serve their country and sovereign in the higher offices of the State and this gave them a share in the practical administration of their fatherland. It was Lord Canning who established a mixed Legislative Council in which non-official members however few in number, were declared to be at liberty to discuss measures of State with the rulers of the land on an equal footing. It was Lord Ripon who accorded to the people of India the Magna Charta of local self-government. Although the Legislative Councils were expanded in the time of Lord Lansdowne it was not until about 16 years later that they were given a certain amount of representative character It was Lord Minto and the illustrious Lord Morley who gave practical and tangible proof of the theory which had too often been overlooked in practice that colour was no bar to the highest offices of the Crown by admitting a coloured man to a share in the executive Government of India. It was Lord Hardinge and Mr. Austen Chamberlian who secured the admission of Indians to the innermost councils of the British Empire. It has now been the proud privilege of His Excellency Lord Chelmsford and the Secretary of State, Mr. Edwin Montagu, to put a coping stone to the edifice by granting to us the first substantial instalment of self-government and to help us to realise by successive stages our political destinies as an integral part of the British Empire. Their names will for ever remain enshrined in our hearts. May they stay long to carry the schemes through and to nurse into a vigorous growth the magnificent experiment connected with our national advancement.

In a large scheme of political reconstruction, acute differences of opinion are inevitable. A section of my countrymen want responsible government all at once, some want larger subjects, while some are content with only a modicum of changes. I do not propose to enumerate all the differences of opinion that divide Indian public men into opposite camps. Suffice it to say that the country as a whole welcomes the measures generally, but legitimately expects some modifications in certain directions. For instance we want that the salary and status of Ministers should be the same as those of members of Executive Councils and that Ministers should be liable to removal on an adverse vote of a substantial majority of the Legislative Council. We want that the list of transferred subjects should embrace a wide field and include all departments which afford the greatest scope for local knowledge and initiative. We want that there should be greater representation of the elected element on the Grand Committees and that resolutions of

Resolutions.

Rai Radha Charan Pal Bahadur.

the Council on transferred subjects should be binding. Some of us want that the constitution of the Government of India should be modified on the lines of the Provincial Constitutions. A large section of my countrymen consider that additional members of the Executive Government without portfolios are not necessary, that the proposed Council of State is not required and that there is very little use of a Privy Council for India. There are some of the principal items in regard to which Indian opinion demands a change.

In the discussions of the scheme, much is said about the Home Rule party being opposed to the scheme but on a critical examination it does not seem that there is much difference in the ideals of the Home Rule party and the non-Home Rule party. My Lord, in my view every Indian is and ought to be a Home Ruler. I am myself a Home Ruler, but Home Rulers may agree to differ among themselves as to the measure of our advance to reach the desired goal of full responsible government. I am proud to say that I am a keen aspirant after the political advancement of my country, but I sincerely believe that it is, in our own interests, necessary that we should advance by successive stages, that we should be educated, trained and drilled in the art of government at each stage, so that we may march onward with firm and unfaltering steps to the promised land. This is the difference, My Lord, between me a Home Ruler and my brother Home Rulers. But unfortunately the very words Home Rule stink in the nostrils of some people. A Home Ruler is shunned as a most dangerous, seditious and disloyal element. Time will arrive when this aversion will pass away and the Home Ruler, working with a devotion, energy and patriotism will be recognised as an indispensable factor in gathering up his distracted fellow-countrymen together into one fold of a happy, contented and prosperous self-governing nation under the ægis of England. I feel justified in hoping for such a consummation when I remember how the very name of the Congress was anathema, and how the bare sight of a *swadeshi* rivetted the attention of the C. I. D. Happily a marvellous change of attitude has come over. I hope for a similar change in the attitude of Anglo-Indians towards my educated countrymen, who have the interest of the country at heart, and whatever their differences with individual rulers or the bureaucracy, recognise the value and the necessity of the British connection and long to remain as an integral part of the British Empire.

My Lord, Sir John Hewett said the other day that India is a caste-ridden country and that, under the Reform Scheme, Brahmins will have everything in their own way. I do not know whether the statement refers to Bengal. I cannot speak of any other province, but so far as Bengal is concerned, I may say, that a more untrue statement has never been made. My Lord, I am connected with the political affairs of this country for two generations Pardon me for my egotism when I say that I bear a name which led the public opinion of Bengal for over a quarter of a century. The bearer of that name was not only the people's representative and the trusted interpreter between the rulers and the ruled and *vice versâ* but also the representative of the territorial aristocracy of the land and he was neither a Brahman nor a Kayastha but belonged to a humble trading caste. Another name which occurs to me, was the name of the late Dr. Mahendra Lal Sarkar, C.I.E. Your lordship is comparatively new to this country; otherwise you would have known that this great man, belonging to the agricultural class, was considered one of the leaders of thought in Bengal. He was one of our foremost public men and the Bengali public never grudged him his leadership. Then there was the Revd. Kali Charan Banerji—a convert who had renounced his caste and community—who led the public opinion of Bengal for very many years, and would have occupied the chair of the Indian National Congress had he not been cut off prematurely from among our midst. There was also the Revd. Dr. K. M. Banerji. He was persecuted when he first turned a Christian, but when the people

Babu Ambika Charan Mazumdar.

found out the sterling qualities that were in him they chose him to be one of their leaders and he became the President of the Indian Association a public body consisting mainly of middle class and poorer middle class men. I need not multiply instances. These examples will show that so far as the Presidency over which Your Excellency presides is concerned there is no distinction between a Brahmin and a non-Brahmin in public life, and for Sir John Hewett's statement I see no justification in Bengal. Then it has been said with reference to the Indianisation of the public services that Europeans would not submit to medical treatment at the hands of Indian doctors. My Lord, in this connection I am reminded of the late Surgeon-Major Chandra, Dr. Goodeve Chakravarti and others, and how their services used to be in great demand by the European community. I don't know how Sir John Hewett in order to damn the Reform Scheme could make such a statement in the face of these facts. Let it go forth from this Council Chamber and I hope it would reach his ears, that I challenge him to contradict the statement that I make now. It has also been said that the scheme if given effect to would diminish the power and authority of the Civil Service. My Lord, are we to understand that we will always remain hewers of wood and drawers of water for the sake of seven or eight hundred members of the Indian Civil Service. My Lord, pride of race is a noble feeling—it is the mother of great deeds, but when it degenerates into a mere race antipathy it creates mischief. I know there are several members of the Indian Civil Service who can rise to the height of the occasion and can sympathise with our aspirations. I am sure the Indian Civil Service recruited as it is, from that great nation which has held aloft the standard of freedom for centuries, will adapt themselves to the altered circumstances of the time and will not grudge giving up some of the powers, which it has exercised for over a century and a half, to the Indian people who are devoted subjects of the British Crown.

In conclusion, my Lord. I welcome the scheme. I welcome it not because I hold that the bureaucracy cannot serve India any more, but because I believe that the time has come when Indians can, and should be allowed to, govern themselves under the fostering care and guidance of England. The bureaucracy has done splendid work in the past which I gratefully acknowledge, but the bureaucratic system has, as was observed by one of our public men, acted as a dead-weight on the soul of India, and cannot be prolonged without doing irreparable injury to the cause of our national development. It has been said that we lack experience, administrative capacity and the powers of initiative. But, my Lord, if we are ever to remain in our present position as irresponsible critics we will never learn to rely on our own initiative. The scheme furnishes a training ground for Indians in the art of self-government under adequate safeguards. We will learn by experience, and we will emerge stronger and wiser through our mistakes and failures and ere long develop a capacity for larger powers of responsibility in the administration of our own country."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

My lord, the first portion of the resolution which stood against my name, I have given to my hon'ble friend Rai Debender Chunder Ghose Bahadur and the second part to the Hon'ble Rai Radha Charan Pal Bahadur. In connection with the second portion of my resolution which is covered by the resolution just moved before Your Excellency I wished to refer to certain defects of the scheme which have given rise to sharp criticisms among certain sections of my countrymen. To a very few of these vital defects I wish to refer very briefly. My lord, the minister with the transferred subjects included in his portfolio is the most important feature of the whole scheme.

Resolutions.

Babu Ambika Charan Mazumdar.

In fact to my mind it clearly foreshadows the future cabinet form of Government in India Unfortunately, however, it is proposed to make this minister entirely irresponsible to the Legislative Council during the tenure of his office. It is certainly not open to any reasonable objection that the minister will be appointed by the Governor ; for even under the British Constitution the Premier has to be chosen by the Crown, but once he assumes office he at once becomes responsible to Parliament. That, my lord, constitutes the essence of responsible government enjoyed by Great Britain. Of course the illustrious authors of this scheme appear to be fully conscious of this defect and it is therefore proposed to put the responsibility of this irresponsible minister to its test at each general election. In the first place, such an indirect test of responsibility is perhaps not recognised in the constitution of any country which enjoys self-government. In the second place, such a limited and shadowy responsibility over the head of the elected representatives of the people would, it seems to me, defeat the avowed objects of the scheme, would eliminate the very substance of responsible government, would weaken representation and would reduce the Legislative Council to the position of a mere deliberative body without any touch with the real administration, and the worst of all is, my Lord, that such a system will leave the elected representatives of the people exactly in the same position which they now occupy, namely, that of irresponsible critics of the Government without the sense of responsible partnership in the Government, with this difference perhaps that the target of their criticisms will henceforth be shifted from the members of Your Excellency's Executive Government to this newly created minister of your Government.

My Lord, the minister ought to be somewhat responsible to the Legislative Council. As an additional safeguard it may be provided that he shall not be liable to resign his office except by a very substantial majority of votes, say of two-thirds of the members and as a further safeguard it may be provided that he shall not be liable to resign his office except in certain important matters to be determined by the Governor or the President of the Council.

My lord, these safeguards ought to satisfy the most cautious Government. Without some such responsibility the minister, I am afraid, will only add one more irresponsible Indian official in the higher administration of the country. I therefore cannot too strongly urge the necessity of making the minister to some extent responsible to the Legislative Council.

My lord, it is justly proposed to make the electorates as large and as wide as possible and in a country like this where the electorates must be varied and many it would not be at all difficult even for the most unpopular minister, with his official prestige and support at his back, to get himself returned through one of these electorates. Last of all Your Excellency will consider that the hydra-headed mass in no country are ever so much guided by judgment but are led by various extraneous influences, and it would be too much to expect them to form a correct estimate of the work done by the minister after a lapse of five years. Under all these conditions and circumstances I earnestly hope that the great Reform may not be reduced to a disappointing minimum by making the minister entirely irresponsible to the Council.

My lord, as regards the Grand Committee I have been unable to satisfy myself as to the necessity for its introduction. It seems to me that it is going to be a grand nonentity. It will have no vote and it will simply encumber the machinery of the Government. If a difference arises in respect to any matter or Bill or motion referring to a reserved subject, the matter could be referred to the Supreme Government for their decision which should be final. My lord, I am one of those who are in favour of having a division between the reserved and transferred subjects at the very outset. You have

Resolutions.

Maulvi A. K. Fazl-ul-Haq.

'Law and Justice' as reserved subjects and I submit that the reservation should be preceded by a complete separation of the Judicial and the Executive functions. The scheme stands emphatically for good Government and I do not know what other measure can be given effect to for the purpose of good government more effectually than this separation. The matter has been before the Council for the last 30 years, and it is a matter of great regret to me that in the report which is now before us the matter has been altogether lost sight of both by the Secretary of State and the Viceroy. There is no mention of it in the scheme.

I find that there is another subject mentioned in the reserved list which is 'Appointment.' If I understand that all the appointments are meant to be reserved, then I submit that a serious injustice will be done to the minister. As regards appointments connected with the departments proposed to be transferred to him, I think he should have a potential voice, otherwise he will only be a more figurehead and his position will be an extremely awkward one.

The next point to which I would draw your attention is the Public Services. It is gratifying to find that it is proposed to increase the percentage of persons in the Public Services recruited in this country, but the report is silent as to the method of their recruitment. I hope and trust it will be by open competitive examination. Unless this is done then the ever-increasing percentage of recruitment in India will be a fruitful source of ever-increasing demoralisation in the public services.

My lord, these are some of the defects to which I draw the attention of the Hon'ble Members though there are other defects too. I believe however that they will be fully considered by the Committee which it is proposed to appoint in this House. However, I need not take the time of the Council any further. I hope and trust that this great experiment which is going to be made will prove success and I also trust that Government will not support any scheme which stands the risk of failure. My lord, I again repeat that it is apprehended that if we make the minister to some extent responsible to the Council the position would be very intolerable. But I do not think that there is any reasonable ground for any such apprehension. A House consisting of not less than 100 members cannot be so perverse as to oppose Government for the mere fun of opposition only. I appeal to Your Excellency to consider for a moment how often have we not in this very House in our present irresponsible position stood divided amongst ourselves, how many motions, resolutions and amendments have we not lost during the last 3 years and did we lose them all because of the loud cry of noes which invariably rises in an unbroken chorus from your right or because some of the left have gone over to the right to divide them? My lord, responsiblity is the strongest safeguard against lightheartedness and Co-partnership—a sovereign remedy for all political distemper. If you make the minister responsible the responsibility will be shared by all the members of the House and I daresay they will never show any vagary or lightheartedness merely for the sake of showing them. At the same time if no responsibility is attached the minister he will stand isolated, and he will be regarded in the same light as the Hon'ble Members of the Executive Council are regarded now. There will be no danger in making him responsible but there are positive dangers in making him irresponsible. With these few words I support the resolution."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My lord, I did not intend to take any further part in the business of this Council to-day but I just want to say a word or two with reference to what has fallen from the Hon'ble Mover. I suppose I am expected to explain

Resolutions.

Radha Charan Pal Bahadur; Rai Debender Chander Ghose; The President.

my position. But before I do that I would like the Hon'ble Rai Radha Charan Pal Bahadur to tell me whether he is going to approve my speech before it is delivered. I do not know what the total number of elected members will be, I do not know what number of seats are going to be given to my community, and before I know all these, before I know that our interests are properly safeguarded, it is impossible to say whether I accept the Reform or not. That is my position. If then he insists on knowing whether I approve of the scheme in its present shape, without the slightest change or modification, I will say 'No'. So far therefore as his question to me is concerned, I answer it with a most unqualified and emphatic negative."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My lord, I have listened to the observations of my hon'ble friend Maulvi Fazl-ul-Haq. The resolution which has been moved by my predecessor the Hon'ble Rai Debender Chunder Ghose Bahadur and the one moved by me are quite two distinct things as I have already explained. I want to ask the Hon'ble Maulvi Fazl-ul-Haq again—though I am sorry he will not have any chance of replying—whether he is prepared to accept the policy laid down in the report by the distinguished authors for the progressive realisation of self-government, whether the items to which we have referred are not acceptable to him and whether if he does not get all of them or some of them, having regard to our present position here, he will be quite content with the continuation of the existing situation. Of course I do not say that there are not defects in the scheme or that it cannot be improved, but I challenge my hon'ble friend to deny that definite steps are clearly laid down in the scheme—steps which if clearly followed will lead us to the goal of self-government. I do not know whether he will deny this fact but if he does, I could only attribute it to prejudice.

The Resolution was then put and agreed to.

The Council was then adjourned for lunch till 2-30 P.M.

AFTER LUNCH.

LIST OF BUSINESS—ITEM No. 9.

The Hon'ble Mr. F. W. Carter moved the following resolution :—

"This Council is of opinion while accepting the ideal of eventual self-government for India, that the present time is not opportune for making changes in the administration of the country."

The Hon'ble RAI DEBENDER CHUNDER GHOSE said :—

"My lord, after the acceptance by this House of some of the resolutions this morning, I do not know how the present resolution of the Hon'ble Mr. Carter can be considered by this House."

The PRESIDENT said :—

"The motion of the Hon'ble Member is in order. It does not negative the decision which has already been come to by the Council in respect of the other resolutions. The Hon'ble Mr. Carter in his motion proposes to accept the ideal of self-government for India, but he wishes to record an opinion as to the time at which these steps should be taken ; that does not negative anything which has already been decided by the Council."

Resolutions.

Mr. F. W. Carter; The President.

The Hon'ble MR. F. W. CARTER said :—

"My lord, my resolution was framed before the successful completion of the war and the position has therefore changed to a certain extent ; that being so with Your Excellency's permission I will withdraw the resolution as it stands, but I should like to say a few words on the question of the time at which these reforms should be brought forward. Although the war is over and does not now fully occupy the attention of the Government of Great Britain, I still think the time is inopportune as the Government of Great Britain will now be entirely occupied with the terms of peace. The war we will all admit has been without precedent and the peace which ends it will be of a character wholly unique. I speak not merely of the infinite number of questions, territorial and otherwise, which will have to be settled with : I have in mind chiefly the fact that this is to be what no other peace has been, a final peace, a permanent settlement of world-wide disputes, a complete chaining up of the forces which drive nations into war. It looks therefore as if the Montagu-Chelmsford Scheme *conceived* amidst the distractions of such a war as the world has never known, is to be *born* amidst the distractions of a peace equally beyond the experience of mankind.

In such circumstances *no* Cabinet can judge it rightly, *no* Cabinet can secure from Parliament a well-considered verdict on the scheme. I content that the reforms cannot be rightly judged now by the *Government* of Great Britain. Moreover, the unseemly haste which is being displayed in appointing the Committees to consider the details under the Reforms does not allow of full consideration being given to such momentous changes in the Government of this country.

I also consider the scheme inopportune because it was not produced in response to any general demand by the peoples of India. It is practically admitted in the report that the proportion of *politically* minded Indians to the total population does not exceed 5 per cent. Moreover, the authors of the report clearly admit that the changes they are introducing are not in response to *even* a minority demand but are due simply to 'the faith that is in us.' It is *this* faith, the report tells us, and *not* any demand, which constrains them to disturb what they describe as 'the placid pathetic contentment of the masses.'

Now, had there been a general and insistent demand for some such scheme as Mr. Montagu and His Excellency Lord Chelmsford have produced, there would have been some excuse for putting forward new constitutional reforms. But there was no such demand ; they expressly disclaim having acted in response to *any* demand ; they declare that even if the politically minded classes were 20 per cent. of the total population, instead of only about 5 per cent., that would not have counted with them. What justification, therefore, is there for the hasty introduction of these reforms ?

The people in general do not demand them and the British Parliament cannot, under existing circumstances, judge them. The authors of the scheme are the two highest representatives of the British authorities in India and therefore all criticism in regard to them must be done away with. Much of what I have said may not be pleasing to the ears of my Indian friends. We are in favour of progressive reforms. We fully realise the natural aspirations of Indians to take a large part in the government of the country. Put the discussion of those reforms off for a year and we are ready to listen to any proposal that may be brought forward. We are not narrow-minded as my hon'ble friend Rai Debender Chunder Ghose Bahadur has said."

The PRESIDENT said : "Do I understand that the Hon'ble mover is asking for permission to withdraw his resolution ?"

Mr. Carter; The President; Rai Radha Charan Pal Bahadur; Sir Deba Prasad Sarbadhikari.

The Hon'ble MR. CARTER said: "Yes, my lord."

The PRESIDENT: "Is it your pleasure that the resolution be withdrawn?"

The Hon'ble RAI RADHA CHARAN PAL BAHADUR at first objected to the resolution being withdrawn, but on reconsideration withdrew his objection.

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 10.

The Hon'ble SIR DEBA PRASAD SARBADHIKARI moved the following resolution:—

"This Council is of opinion that a Committee consisting of its non-official members should be appointed to consider the Reform proposals and submit their report thereon to the Government of Bengal at an early date."

He said: "My lord, after Your Excellency's opening remarks this morning and in view of some of the difficulties that Your Excellency pointed out, I was inclined to think that it would perhaps be best for me to withdraw this motion and to let the consideration of the 240 resolutions go on in Council. This morning's experience, however, has made me change my mind; and with Your Excellency's permission I propose to move the motion standing in my name.

My lord, there are on the business paper two other motions in similar terms. We had not had an opportunity of consulting one another, and yet three members independently thought that a matter like this is best considered in Committee. I am not acting without precedent. Such a procedure was followed with marked success in the Supreme Council and I am sure that if the Council adopts my motion there will be considerable economy of time and much needless heat will be spared. Of course as Your Excellency has pointed out, the authority of the Council is supreme and after we have done Committee work, all that would be necessary is for the report to go before the Council to be confirmed and forwarded to the proper quarter. Owing to Your Excellency's kindness we have had this debate adjourned longer than has been possible in the other Provinces. This delay had its advantages and probably its disadvantages also. But one advantage that can be claimed for the situation is that much—almost all that could be said on one side or the other—has been said in the Press, on the platform, here and in England, in Parliament and in the different Councils here, Imperial and Provincial, in the Congress and in the Conference at Bombay and various other Conferences that we have had over this question all over the country among different communities. There is hardly therefore much scope for a debate—far less a lengthy and acrimonious debate—such as is bound to be attendant upon the consideration of the question in full Council when there is so much difference of opinion. In Committees, my experience tells me—and that must be the experience of others—we get on much sooner and much more pleasantly round the table, away from limelight than in Council. If that is so, and having regard to what Your Excellency has pointed out, the overlapping nature of some of the resolutions, and the possibility of treating others as amendments would enable us to finish our work much quicker. Possibly we shall be spared some demonstrations, I shall not call of temper, but of indiscretion, of which we have had illustrations this morning—questionings and cross-questionings across the floor of this Council do not advance the deliberations such as those in which we are engaged. However

fitting and necessary they may be deemed outside the Council they are useless and gratuitous in Council. Ours is not propaganda but consultative work. All that need be done in Committee is to enunciate the contending propositions and quietly to take the opinions of the members or to take their votes and formulate a business-like report amidst serene peace environments. We have all sent our individual opinions to the Government as Members of Council, to be forwarded to the authorities, and the resolutions of this council obtained in the way I indicate will be before the authorities; they must be put as majority resolutions as happened this morning, as we cannot expect to be unanimous with regard to all of them. Having regard to these circumstances, my lord, I should like to move that the Committee that I propose be appointed with instructions to submit an early report."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My lord, my motion stands on the same lines as those of my friend the Hon'ble Sir Deba Prasad Sarbadhikari. The difficulty was this, my lord, that during the Puja time we were scattered in different places and therefore could not meet and come to a definite understanding as regards the resolutions to be moved, and that is why Your Excellency has before this Council 240 motions on the different items. I support the motion which is practically the same as mine to appoint a Committee of non-official members. In the Committee long speeches will be avoided, and as we have all got our views already settled one way or the other, we shall probably be able to submit a joint report even if there be some dissentients on some points. For these reasons I support this resolution and I do hope that our hon'ble colleagues of the European committee will cordially join and help us in drawing up a unanimous report for the consideration of the authorities. That will have a very marked effect on the country at the present moment as showing their practical sympathy with our aspirations to attain the goal of self-government within the Empire."

The Hon'ble BABU MAHENDRA NATH RAY said :—

"My lord, as I understand the motion the report of the Committee is to be submitted to the Government of Bengal and not to this Council. I think I am right in this view."

The PRESIDENT said :—

"As the Hon'ble Mr. Ray has pointed out that is the form of the motion before the Council."

The Hon'ble BABU MAHENDRA NATH RAY said :—

"I do not know, my lord, whether this is in order, but perhaps in order to save time it would be better if the Committee were permitted to submit their report direct to the Government of Bengal. I do not know however whether this is in order and whether the report of a Committee of this House can be submitted directly to the Government of Bengal."

The PRESIDENT said :—

"I see no objection to that under the particular circumstances under which we are meeting now. This is not exactly a meeting of the Bengal Legislative Council in the ordinary sense, because I have asked the official members to take no part in the proceedings. Under the circumstances I see no objection if it is the desire of the non-official members to submit their report to Government instead of to the Council."

Resolutions.

Babu Kishori Mohan Chaudhari; Babu Ambika Charan Mazumdar; Rai Mahendra Chandra Mitra Bahadur.

The Hon'ble BABU KISHORI MOHAN CHAUDHARI said :—

"My lord, I support the motion moved by my hon'ble friend. When I submitted my resolution it struck me whether I should state that the report should be submitted to this Council or to the Government of Bengal. Without saying anything I simply said 'to make their recommendations' in whatever shape it may be thought convenient. As Your Excellency has observed that is the real form—that the recommendations should be submitted to the Government of Bengal; and though my friend suggests that they may be put up before this Council again for confirmation, I think if all the non-official members form a Committee and make their recommendations they may be submitted to Your Excellency and then dealt with and submitted to the Government of India as Your Excellency thinks fit and proper. I support the motion as it would be convenient to deal with the recommendations in the Committee—probably no lengthy discussions will be necessary there, and that will be the more convenient form of dealing with the subject."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My lord, I have welcomed the proposals though I have suggested a few modifications. I have suggested the modifications because I welcome the proposals and I welcome the proposals because I consider them to be susceptible of modification and gradual improvement. The motion which has been brought forward by Sir Deba Prasad Sarbadhikari has my fullest support for the very reason which Your Excellency pointed out at the opening of this Council. The question raised by my hon'ble friend to the right was to clear up whether the recommendations of the Committee will again come up before this Council for discussion. If that is to be so I do not see any use whatever of going into Committee. It will bring us again into the same troublesome discussion which we want to avoid at this Council. I think that if a Committee is formed and the whole House of non-official members go into it they will have their suggestions there and the suggestions embodied in the report by the majority ought to be sufficient for the purpose of explaining our views before Government. I do not think it will be necessary and I think it would be positively harmful if after the recommendation is made we have to discuss it again in this Council. It will make confusion worse confounded. I heartily support the motion made by Sir Deba Prasad Sarbadhikari that it should go into Committee and the Committee submit their recommendation to Your Excellency's Government and Your Excellency's Government will forward it to the Government of India and that I think is the proper procedure and in that view I heartily accept the motion which has been moved by my hon'ble friend."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said :—

"My lord, I heartily support the motion which has been made. I consider it necessary that the non-official members should sit together and discuss the various modifications which are in their minds and to be in a position to submit a representation to Government. We have already submitted our individual opinions on the various points that have been raised, and it would be far better if, by the light of the representations which we have individually put forward, we also jointly discuss the various questions at issue. It will be very convenient if this procedure be accepted by the non-official members, both Indians and Europeans, and to come to a conclusion which will be satisfactory to all. To my mind, this procedure is a simpler one; to discuss the various resolutions which have been brought forward before the Council will

entail much time; but at the same time, if that procedure be adopted, we think that we will not be in a position to come to a satisfactory conclusion. In that view of the matter, I do support the motion which has been moved."

The Hon'ble MR. CRUM said :—

"My lord, when I came to this Council this morning I had a talk with the proposer on the question of the proposed Committee and I told him that it was my intention to oppose this motion. After this morning's debate I have however changed my mind, and I agree now that probably the most expeditious way of getting through the business would be to accept his motion. But I accept it with a proviso, and that proviso is very important. I understand Sir Deba Prasad to say that he proposes that the 'majority' report should come before the Council and be submitted to Your Excellency. Now, one advantage of discussing subjects in public, as we have been doing this morning, is that the views of the minority are also made public. If, as he suggests, the majority report is to be sent either to Government or to Council, as a report of the Committee, then I am not certainly prepared to accept the resolution, and I think that this will affect not only the position of my community which is in the minority, but also possibly all other communities which are in the minority. What I propose is that the House do go into Committee as is suggested; but not only the majority report be submitted, but that if any gentlemen wish to submit either separately or in agreement as bodies minority reports, they could be allowed to do so and these minority reports should really carry as much weight as the majority reports as representing the views of these particular communities."

The Hon'ble MR. P. C. MITTER said :—

"My lord, as the Hon'ble Sir Deba Prasad Sarbadhikari has framed his resolution it says that a Committee of the non-official members of this Council be appointed to consider the Reform proposals and submit their report to the Government of Bengal at an early date. Therefore so far as the resolution goes, he does not intend that merely the majority report should go in. No doubt in his speech he said that the majority report should go in. I entirely agree with the Hon'ble Mr. Crum that it is only proper that the majority report as well as the minority report, if any, should be sent in, and I do hope and trust that the Hon'ble Mover will accept this suggestion."

The Hon'ble SIR DEBA PRASAD SARBADHIKARI said :—

"My lord, nothing was further from my mind than to exclude the minority report. When one talks of majority report, the minority report is always there. My resolution does not exclude minority reports being forwarded, and I fully appreciate what the Hon'ble Mr. Crum has said and I cordially accept his suggestion."

The resolution was then put and agreed.

The PRESIDENT said :—

"Under these circumstances the Council will now resolve itself into a Committee of non-official members. The Hon'ble the Vice-President of the Council will be glad, as soon as I leave the chair, to take my place informally,

in case Hon'ble Members desire the assistance of Government before they start their deliberations. I shall also ask the Legislative Department and their staff to remain at the service of the Committee. It will be for the Committee to elect or nominate their own Chairman, and for the Committee to decide the hours at which they should sit. So far as the Government is concerned, there is no objection to the Committee commencing their sitting in this Chamber forthwith, and if the Committee desire the use of this Chamber on future days, they are at liberty to have it."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"Will your Excellency fix a date within which the report should be submitted ?"

The PRESIDENT said :—

"I think it would be preferable if the Committee would fix their own date, and they are at liberty to do so."

ADJOURNMENT.

The Council was then adjourned.

Acts of the Indian Legislative Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 26th September 1918, and is hereby promulgated for general information :—

ACT No. XX OF 1918.

An Act to take power to prohibit the alteration, except with the sanction of the Governor General in Council, of articles of association which restrict foreign interests in certain Companies, and to provide for other purposes connected therewith.

WHEREAS it is expedient to take power to prohibit the alteration, except with the sanction of the Governor General in Council, of articles of association which restrict foreign interests in certain companies, and to provide for other purposes connected therewith; It is hereby enacted as follows :—

1. This Act may be called the Indian Companies (Foreign Interests) Act, 1918.

Short title.

2. (*1*) In this Act—

Definitions.

(*a*) the expression "British subject" has the same meaning as in section 27 of the British Nationality and Status of Aliens Act, 1914, but shall include any person who holds a certificate of naturalisation as a British subject granted under any Act of the Governor General in Council for the time being in force, and any association incorporated in any part of His Majesty's dominions : Provided that the said expression shall, for the purposes of this Act, be deemed to apply to any subject of a State in India ;

4 & 5 Geo. 5, c. 17.

(*b*) the expression "restrictive provision" means any provision in the articles of association of a company which, in the opinion of the Governor General in Council, is designed to restrict or limit or has the effect of restricting or limiting the share or shares or interest which may be held, or the rights, powers or authority which may be conferred upon or exercised by or on behalf of persons other than British subjects in the company, or in respect of the control, management or direction of the affairs thereof.

(*2*) All words and expressions used in this Act and defined in the Indian Companies Act, 1913, shall be deemed to have the meanings respectively attributed to them by that Act.

3. This Act shall apply to such companies as the Governor General in Council may, by notification in the Gazette of India, declare to be companies with restrictive provisions, and any such notification shall specify the restrictive provisions.

VII of 1913

Application of Act.

4. So long as a notification issued under section 3 is in force in respect of any company, notwithstanding anything to the contrary in any other Act—

Alterations in restrictive provisions and winding up.

(*1*) no alteration of the articles of association of the company affecting either directly

or indirectly any restrictive provision shall be of any effect until it has received the consent in writing of the Governor General in Council;

(2) a resolution for the voluntary winding up of the company shall be of no effect unless the Governor General in Council authorises or ratifies it by a written consent;

(3) any Court which has jurisdiction to wind up the company may in its discretion refuse to make a winding up order. In the exercise of its discretion the Court shall be guided by the consideration whether the winding up is *bond fide* with a view to the discontinuance of the undertaking, or is with a view to continuing the undertaking freed either wholly or in part from any restrictive provision;

(4) the Governor General in Council in giving consent, or the Court in making a winding up order, as the case may be, may impose such terms or conditions for giving effect to the purposes of this Act as he or it thinks fit.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 26th September 1918, and is hereby promulgated for general information :—

ACT No. XXII OF 1918.

An Act to provide that certain bronze coins coined outside British India shall be legal tender in British India.

WHEREAS it is expedient to provide that certain bronze coins coined outside British India shall be legal tender in British India; It is hereby enacted as follows :—

Short title

1. This Act may be called the Bronze Coin (Legal Tender) Act, 1918.

Power to declare certain bronze coins coined outside British India to be legal tender.

2. (*1*) Where bronze coins of any of the denominations specified in section 8 of the Indian Coinage Act, 1906, are coined outside British India at the request of the Governor General in Council, and the Governor General in Council is satisfied that such coins are in accordance with the requirements of section 9 and of any notification for the time being in force under section 10 of the said Act, he may, by notification in the Gazette of India, direct the issue of any such coins, and thereafter any such coins shall be legal tender in payment or on account in the same way and to the same extent as were coins referred to in section 14 of the said Act, and the provisions of the said Act shall apply accordingly III of 1906.

(*2*) Every coin which is declared to be legal tender by sub-section (*1*) shall be deemed to be Queen's coin within the meaning of section 230 of the Indian Penal Code. XLV of 1860.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 26th September 1918, and is hereby promulgated for general information :—

ACT No. XXIII OF 1918.

An Act to take powers to provide for the cheap supply of cotton cloth to the poorer classes of the community.

WHEREAS it is expedient to take powers for the purpose of encouraging or maintaining the supply, at reasonable rates, to the poorer classes of the community, of cotton cloth manufactured in this country; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Cotton Cloth Act, 1918.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "Controller" means a Controller appointed under this Act;

(*b*) "Cotton cloth" means cotton cloth manufactured in this country; and

(*c*) "Standard cloth" means any kind of cotton cloth which a Controller may, from time to time, declare to be standard cloth.

Power to appoint Controllers.

3. The Governor General in Council may, by notification in the Gazette of India, appoint one or more persons as he may think fit to be Controllers for the purposes of this Act, and shall specify in any such notification the area in which any Controller so appointed shall exercise his powers.

Powers of the Controller.

4. (*1*) Whenever it appears to a Controller that such a course is necessary or expedient for the purpose of encouraging or maintaining the supply of standard cloth, at reasonable rates to the poorer classes of the community, he may (subject to this Act and the rules made thereunder and to the control of the Governor General in Council) make general or special orders regulating or giving directions within the area in which he is empowered, with respect to the manufacture, transport, distribution and sale or purchase of, or other dealings in, cotton cloth.

(*2*) Without prejudice to the generality of the foregoing power, orders may be made by a Controller—

(*a*) declaring and defining the classes of standard cloth;

(*b*) prescribing distinctive indications which shall be woven into, impressed or otherwise displayed upon, different classes of standard cloth;

(*c*) requiring any person, who ordinarily manufactures cotton cloth, to manufacture, or provide for the manufacture of, standard cloth in such quantity, of such quality and by such date as the Controller may direct; and

(*d*) fixing the prices to be paid to the manufacturer for standard cloth or for any particular class of standard cloth, and providing for the payment thereof on delivery :

Provided that in fixing prices the Controller shall have regard to the cost of production and to the allowance of a reasonable profit, without necessarily taking into consideration the market-price, and if the Controller is satisfied that the manufacturer has incurred actual loss arising out of forward contracts entered into before the commencement of this Act, and that such loss is immediately attributable to an order under this Act, he may take such loss into account :

Provided further that the Controller may fix different prices in the case of different localities or, if special reasons exist, in respect of different manufacturers in the same locality.

Appointment of Advisory Committees.

5. Where a Controller is appointed in exercise of the power conferred by section 3, the Governor General in Council shall appoint a Committee consisting of such number of persons having knowledge of the cotton or cotton cloth trade as he thinks fit to assist the Controller with their advice in the performance of his duties. Before a Controller issues any order declaring and defining the classes of standard cloth or fixing the prices to be paid to the manufacturer, he shall consult the Committee, and he may consult the Committee on any other matter connected with his duties :

Provided that, if the opinion of the majority of members of the Committee who are present at any meeting is adverse to the issue of any order, the Controller shall, if he does not accept the Committee's advice, refer the matter for the decision of the Governor General in Council.

Manufacture and delivery of standard cloth.

6. Where, by an order made in the exercise of powers conferred by section 4, the Controller has directed a manufacturer to manufacture, or provide for the manufacture of, standard cloth and has fixed the price therefor, the manufacturer shall deliver the same at such time and place and in such manner as the Controller may specify from time to time, and the Controller shall pay or cause to be paid to the manufacturer the said price, together with the freight, if any, actually paid by the manufacturer.

Delegation of powers.

7. Subject to the control of the Governor General in Council, a Controller may, from time to time by order in writing, delegate all or any of his powers

subject to such conditions and restrictions as may be prescribed therein.

Penalty for disobedience of orders under section 4.

8. If any person acts in contravention of or, without reasonable cause, fails to comply with the provisions of any order made under section 4, or counterfeits upon any cloth a distinctive indication prescribed by the Controller, such person shall be punishable with imprisonment which may extend to six months, or with fine or with both.

Power to fix prices of standard cloth.

9. (*1*) The Local Government shall, if standard cloth is sold in the province, by order in writing which shall be notified in the local official gazette, fix the price at which alone standard cloth or any class of standard cloth shall be sold to the public.

(*2*) Orders may be made fixing different prices for different localities or for different methods of sale.

(*3*) Every such order shall be published in such manner as the Local Government may consider to be best adapted for bringing the prices so fixed to the notice of the poorer classes.

Limitation of sale of standard cloth.

10. (*1*) No person shall sell or keep, offer or expose for sale to the public, standard cloth otherwise than at such price as may be fixed by the Local Government and in accordance with the terms and conditions of a license issued in this behalf.

(*2*) If any person contravenes the provisions of sub-section (*1*), he shall be punishable with imprisonment which may extend to six months, or with one or with both.

Grant of licenses for sale of standard cloth.

11. A license for the sale of standard cloth shall be granted by such authority, in such form and subject to such conditions as the Local Government may prescribe by rules made under this Act.

Rule-making power.

12. (*1*) The Governor General in Council may make rules—

(*a*) prescribing the powers and duties of the Controller,

(*b*) prescribing the manner in which the Controller's orders shall be published or served, as the case may be, and

(*c*) generally giving effect to the provisions of this Act.

(*2*) The Local Government shall, if standard cloth is sold in the province, make rules prescribing the authority by which, the form in which and the conditions under which, any license or class of licenses for the sale of standard cloth shall be granted.

(*3*) Rules made under this Act shall be published in the Gazette of India or the local official gazette, as the case may be, and on such publication shall have effect as if enacted in this Act.

Protection for acts done under the Act.

13. No suit, prosecution or other legal proceeding shall lie against any person for anything which is in good faith done or intended to be done under this Act.

Powers of Act to be cumulative.

14. All powers given by this Act shall be in addition to and not in derogation of any other powers conferred by or under any enactment, and all such powers may be exercised in the same manner and by the same authority as if this Act had not been made.

Bills introduced in the Indian Legislative Council, Reports of Select Committees, presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Indian Legislative Council on the 26th September 1918:—

No. 24 OF 1918.

A Bill to provide that certain persons liable to military service under the Indian Defence Force Act, 1917, should be liable to perform war work.

WHEREAS it is expedient to provide that certain persons deemed to be enrolled for military service, under the Indian Defence Force Act, 1917, may be called upon to perform war work; It is hereby enacted as follows:— III of 1917.

Short title and duration.

1. (*1*) This Act may be called the Industrial Compulsion Act, 191 .

(*2*) It shall remain in force during the continuance of the War and for a period of six months thereafter.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

"industrial worker" means any member of the Indian Defence Force who has been called upon to perform war work in accordance with the provisions of this Act;

"Government control" means any form of Government control by which an industrial concern is controlled in respect of outturn and profits;

"member of the Indian Defence Force" means any person deemed to be enrolled for general or local military service under section 3 or 4, as the case may be, of the Indian Defence Force Act, 1917, whether such person is or is not the holder of a certificate of exemption granted under that Act; III of 1917.

"prescribed" means prescribed by rules made under this Act;

"selection committee" means any authority constituted under the Indian Defence Force Act, 1917, for the purpose of assisting in the selection of persons to be called out for general military service under that Act; and III of 1917

"war work" means work in connection with the prosecution of the present war which—

(*a*) requires special technical knowledge and training, and

(*b*) is work in an industrial concern carried on by Government or under Government control.

3. Subject to the provisions of this Act, every member of the Indian Defence Force who has been trained for any industrial work and has special technical knowledge thereof shall be liable to be called upon to perform war work.

Liability to perform war work.

4. (*1*) If the prescribed authority is of opinion that—

Selection of persons to perform war work.

(*a*) it is necessary in the public interest to call upon industrial workers and

(*b*) persons subject to the liability imposed by section 3 are resident in any area for which a selection committee has been or may hereafter be constituted,

such authority may, by order in writing, require the selection committee of that area to select such number of such persons for such war work as it may specify in the requisition.

(*2*) When any requisition is made under sub-section (*1*), the prescribed authority shall at the same time furnish the selection committee with all available information necessary to enable it to carry out its duties under this section.

(*3*) The selection committee shall, as far as may be, comply with any requisition under sub-section (*1*), and shall report the names of the persons selected by it to the prescribed authority, and shall indicate on what class of war work such persons should be employed.

5. Every member of the Indian Defence Force shall, if so called upon by notice in writing, attend the selection committee at such time and place as may be specified in the notice, and shall be legally bound to answer any question relating to himself or his employment which may be put to him by the selection committee for the purposes of this Act, and the selection committee when exercising its powers under this Act shall be deemed to be a public servant within the meaning of the Indian Penal Code.

Duty of a member of the Indian Defence Force to appear before and answer questions of selection committee.

XLV of 1860.

6. The prescribed authority may serve on any person whose name has been reported by the selection committee, in accordance with the provisions of section 4 (*3*), a notice in writing calling upon him to perform any war work of the nature indicated by the selection committee in respect of such person, and the service of the notice shall constitute such person an industrial worker.

Industrial workers.

7. Every member of the Indian Defence Force who at the commencement of this Act is employed on war work shall continue in his employment unless he receives the permission of the prescribed authority to leave the same and, until he receives such permission, shall be deemed to be an industrial worker.

Persons employed on war work at the commencement of the Act.

8. Every industrial worker shall be subject to the following liabilities, namely :—

Liabilities of industrial workers.

(*a*) If he is a person deemed to be enrolled for general military service under section 3 of the Indian Defence Force Act, 1917, he shall be liable to perform war work in any part of India, and shall be deemed to have been called out for general military service under the Indian Defence Force Act, 1917, and the Army Act, and any orders, rules or regulations made thereunder or under the Indian Defence Force Act, 1917 shall apply to him accordingly with such modifications or restrictions as may be prescribed.

III of 1917.

III of 1917.

(*b*) If he is a person deemed to be enrolled for local military service, under section 4 of the Indian Defence Force Act, 1917, he shall be liable to perform war work in the local area prescribed in pursuance of the proviso to section 7 of the said Act, and shall be deemed to have been called out for the purposes of actual military duty within the meaning of the said Act, and shall be liable to such further obligations as may be prescribed.

III of 1917.

9. If any question arises whether any work is war work within the meaning of this Act, a certificate signed by a Secretary to the Government of India shall be conclusive on the point.

Decision of disputes as to what is war work.

10. Every industrial worker shall receive such reasonable remuneration as the Governor General in Council may by general or special order in writing determine :

Remuneration for industrial workers

Provided that, in determining the rate of remuneration, the Governor General in Council shall have regard to the character and nature of the war work which the industrial worker has been called upon to perform.

11. No industrial worker shall, as long as he is engaged on war work, be required to perform any kind of military service.

Exemption of industrial workers from military service.

12. (*1*) The Governor General in Council may make rules for carrying into effect the provisions of this Act.

Power to make rules.

(*2*) In particular and without prejudice to the generality of the foregoing power, rules under this section may provide for—

(*a*) the manner and form in which any order or notice under this Act shall be given or served,

(*b*) the procedure to be followed by selection committees in performing their duties under this Act, and

(*c*) any other matter which by this Act has to be prescribed.

(*3*) All rules made under this Act shall be published in the Gazette of India, and on such publication shall have effect as if enacted in this Act.

STATEMENT OF OBJECTS AND REASONS.

Certain industries of national importance, which are essential to the maintenance of the forces in the field, are steadily expanding on a large scale, necessitating the employment of men with special technical knowledge and training on a scale commensurate with such expansion. It is becoming increasingly difficult to obtain the services of specialists from the United Kingdom, and it is proposed to utilise to the fullest extent the services of those who are in India. The Bill is designed to give effect to this proposal.

Briefly, the Bill provides for taking power by an order in writing to require any member of the European portion of the Indian Defence Force, whether in possession of an exemption certificate or not, to take up or continue any employment in any industry declared to be of national importance by the Governor General in Council. Persons in respect of whom such an order has been made will be deemed to have been called out for general military service, or to have been called upon to perform actual military duty, as the case may be, according as they belong to the general military service or local military service class.

It is not intended to exercise this power, except for the purposes of Government service and industrial concerns under Government control. It is proposed to make provision for the payment of reasonable salaries to persons employed on technical work, and to utilise the services of the Selection Committees formed under the Indian Defence Force Act for advising Government as regards individual cases.

SIMLA,
The 23rd September, 1918.

C. C. MONRO, *General*,
Commander-in-Chief in India.

Traffic Regulations, Extinction of Lights, and Discontinuance or Withdrawal of Aids to Navigation:

No. 343 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1054 of 1918), are republished :—

Former Notice.—No. 1018 of 1918 : hereby cancelled.

I. PHILIPPINE ISLANDS.

MANILA BAY.

The South Channel into Manila Bay is closed to traffic and is protected by mines ; this channel extends from Caballo Island on the north to Restinga Point on the south.

The North Channel between Corregidor Island and the shore of Bataan province to the northward is closed to inward bound traffic from sunset to sunrise, except to certain vessels engaged in public service. Vessels are, however, permitted to leave Manila Bay by the North Channel without restriction as to time.

Obedience to the above regulations will be enforced by vessels of the United States Navy and by the shore batteries.

Failure to comply with any of the above regulations may result in the destruction of the offending vessels.

SÚBIC BAY.

Súbic Bay is closed to traffic ; any unauthorised vessel attempting to enter the port does so at her peril.

II. HONGKONG.

Cape Collinson light is extinguished.

_____| |_____, _____| |_____. Green Island light is normally extinguished, but will be exhibited when the local Typhoon signals are hoisted, and will be shown until the signals are hauled down.

III. SWATAU.

The following Regulations have been made by the Local Military Authorities at Swatau with reference to the existence of mines in the approaches to that port, and are now in force :—

1. Vessels are forbidden to proceed by the channel northward of Sugar Loaf lighthouse.
2. All vessels, including men-of-war, must enter and leave the port by the channel to the southward of Sugar Loaf lighthouse.
3. All vessels, including men-of-war, when entering and leaving, must, when at a distance of 3 miles from Sugar Loaf lighthouse, slow down to a speed not exceeding 6 knots.
4. Vessels leaving or approaching Sugar Loaf lighthouse may not anchor within a distance of 4 miles outside and 2 miles inside thereof, nor throw overboard heavy articles, to do so being dangerous.

5. A guardboat will be stationed by the authorities, which, in case of changes in the minefield, will approach and guide incoming and outgoing steamers.
6. All incoming and outgoing men-of-war and armed steamers should give 24 hours' notice of their expected arrival or departure to the Swatau police.
7. If vessels, including men-of-war, disregard the above rules and thereby incur risks, the local authorities will not accept responsibility.
8. The time for leaving and entering the port is fixed for the hours between 6 A.M. and 6 P.M.

IV. RUSSIAN MARITIME PROVINCE.

All lights are liable to be extinguished and aids to navigation discontinued or withdrawn on the coasts of the Russian Maritime Province.

V. SANDWICH ISLANDS, HONOLULU.

All lights in Honolulu harbour are extinguished, and the harbour is closed by night.

VI. SOCIETY ISLANDS, TAHITI.

Leading lights for Papiete Pass are extinguished.

Audit Certificate on the Accounts of the Calcutta Port Trust and of the Howrah Bridge for the year 1917-18.

CERTIFIED that the accounts of the Commissioners for the Port of Calcutta and of the Howrah Bridge for the year 1917-18 have been audited under our supervision. Exception must be taken in audit to a credit of Rs. 82,821 in the Revenue Fund Account, which represents a withdrawal of that amount from the Sinking Fund in excess of the amount available for withdrawal as certified by the Accountant-General, Bengal, under Section 24-A of the Calcutta Port Act: Certified also that the Balance Sheets and the Statements of Income and Expenditure prepared from the accounts have been checked and found to agree with the books. The balance of the Nett Revenue Account is in excess by Rs. 82,821 and the Miscellaneous and Suspense Accounts balance is short by the same amount. The value of half of the Block "Railway sub-way at Howrah Bridge", amounting to Rs. 1,94,691-6-11, created out of the H. B. Reserve Fund, has not been added to the balance of the H. B. Block and "Contribution from Reserve Fund". A separate communication will be addressed to the Commissioners and to the Local Government dealing with instances in which the financial provisions of the Calcutta Port Act appear to have been departed from.

The Report on the Working of Co-operative Societies in Bengal for the year ending the 30th June 1918.

THE principal features of the year ending the 30th June 1918 are first a very marked extension of the machinery for organization and control. and second the strain which has been put upon societies by the low prices

obtained by cultivators for their jute and rice. The total number of societies and members now stand at 3,643 and 162,986 ; and the working capital is rupees 1 crore 19 lakhs.

2. Three Deputy Collectors chosen for their experience in co-operation were deputed during the year to assist the Registrar. The powers of a Registrar have been conferred upon them, and they have been entrusted with the supervision of definite areas within which they reside. The number of inspectors has been raised from 22 to 41, and a chief auditor and 14 auditors, the former partly and the latter wholly paid by contributions levied from societies, have been appointed. The inauguration of the Bengal Provincial Co-operative Federation and that of the Bengal Co-operative Organization Society also provide a notable addition to the means for encouraging and controlling the movement. The Public Demands Recovery Amendment Act has provided improved facilities for liquidation. The Registrar's report contains evidence that the co-operative movement in Bengal stands in need of the most careful guidance by these new officers and organizations.

3. Though excellent crops of jute and rice were harvested, the shortage of transport resulted in abnormally low prices ; consequently recoveries were seriously affected, and societies showed caution in advancing loans. The Central Banks advanced Rs. 18 lakhs in 1917-18 compared with Rs. 26½ lakhs in 1916-17, while their recoveries fell from nearly Rs. 15 lakhs or 21·4 per cent. of the outstanding loans to Rs. 10¾ lakhs or 14·7 per cent. Similarly, agricultural societies advanced Rs. 23¾ lakhs compared with Rs. 26½ lakhs in the previous year, and recovered Rs. 15¼ lakhs compared with Rs. 18¾ lakhs ; and the overdue loans rose from Rs. 17 lakhs to Rs. 28 lakhs. It is satisfactory to learn that with the improvement in the price of jute in the current year collections are now progressing satisfactorily. The amount of overdue loans is serious, but there can be no question of the relief which co-operation has afforded in a season of unusual difficulty, and the increase in the reserve funds from under Rs. 11 to over Rs. 13 lakhs is a satisfactory feature.

4. The Provincial Bank, or, more correctly, the Provincial Co-operative Federation, began its operations on the 1st April 1918. Its main object is to assist its member societies in obtaining funds from outside their areas ; and within three months of its inauguration, 28 out of 52 Central Banks had joined. The depositors who had previously invested money in individual Central Banks have shown their appreciation of the improved security offered by the Federation, and Rs. 13 lakhs out of Rs. 20 lakhs thus invested have been transferred to it from individual banks at reduced rates of interest. The Federation has made a favourable start, and it affords excellent prospects for the economical utilization of surplus funds.

5. The number of Central Banks has increased from 47 to 52 ; their working capital from Rs. 59 lakhs to Rs. 67½ lakhs ; and their paid-up share capital from Rs. 8¾ lakhs to Rs. 10 lakhs. Only 11 of these banks have appointed paid secretaries or assistant secretaries. The number of supervisional unions is still 13, and the conditions of the year did not encourage rural societies to combine into unions and undertake the liabilities of others in addition to their own.

6. There are now 3,374 agricultural societies, compared with 2,857 at the end of 1916-17 and 2,067 at the end of 1915-16. The number of members has increased by 13·1 per cent. and is now 125,590, and the working capital by 20 per cent. to Rs. 80½ lakhs. The increase in the inspecting staff is reported to have resulted in a decrease of the misdeeds of office-bearers ; but the detailed classification of societies shows that there are still more than 400 societies which do not deserve the title of co-operative societies, and which must either mend their ways or be dissolved.

7. Among non-agricultural societies the most interesting development is that of weaving societies to which the high prices of cloth have directed special attention. The number of these societies increased from 34 to 65 ; and towards the end of the year the Bankura District Industrial Co-operative Union was registered with the objects of financing the industrial societies in Bankura district, of supplying raw material and of helping in the disposal of produce. The report shows that no pains have been spared in the

organization of these societies; but future prospects are uncertain, chiefly on account of the thriftless habits of the weavers. Fishermen's societies have increased from 16 to 25, but it has not yet been found possible to establish co-operative methods of fishing and disposal of fish. The six milk societies in Barasat subdivision which now send nine maunds of milk daily to Calcutta indicate one line of action in dealing with the difficult problem of milk supply in cities. The cost of management is high, and the most hopeful prospect of diminishing the cost is by combination among societies and the increase of their number. No relaxation of the methods adopted for ensuring purity of the supply should be allowed with a view to decreasing the cost of management. The Naugaon Ganja Cultivators Society has achieved a notable success on a large scale, making a profit of Rs. 5 lakhs during the year. In view of the opposition which it encountered at its inauguration this success is particularly gratifying.

8. The Bengal Co-operative Organization Society has been started with the object of developing general interest in co-operation. It has taken over the Co-operative Journal which is now shared with the province of Bihar and Orissa, and also publishes a monthly Bengali journal for the benefit of rural societies. A library has been opened, and a programme of public lectures has been arranged. The interest which this organization has evoked is only one out of many indications of the favourable attitude of the public towards the movement.

9. His Excellency in Council has read Mr Donovan's report with great interest and is satisfied that much valuable work has been done during the year. He records his thanks to all those who have given assistance and in particular, to Professors Coyajee and Mukharji for their work in connection with the Co-operative Journal. His Excellency had occasion during the year under report, when opening the Provincial Co-operative Conference, to express his confidence in the value of co-operation and his determination to give it all possible support. Each year shows more clearly the immense possibilities for good which co-operation offers in Bengal; but the full realization of these possibilities can only be achieved if all official and honorary workers are determined to tolerate no slackness or selfishness, and to be content only with the highest standards of co-operation.

By order of the Governor in Council,

M. C. McALPIN,

Offg. Secy. to the Govt. of Bengal.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR OCTOBER 1918.

I. **Character of season.**—The rainfall was much in defect throughout the province. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of jute was finished. Lands were being prepared for the spring crops. Sowing commenced, but the operations were impeded for want of rain and sufficient moisture in the soil.

III. **State of standing crops.**—Absence of October rains has adversely affected the winter rice crop.

IV. **Prospects and probable outturn.**—The prospects of the winter rice crop were unfavourable in Northern and Western Bengal, but fair in Eastern Bengal. The outturn of the crop is expected to fall below the normal.

V. **Damage to standing crops.**—Continued drought caused paddy to wither in many places of the province. Damage is apprehended to be considerable.

VI. **Condition of agricultural stock.**—Cattle-disease was reported from parts of Burdwan, Bankura and Cooch Behar. The condition of agricultural stock was fair.

VII. **Failure of pasturage and fodder.**—Fodder was insufficient in some tracts of Northern and Eastern Bengal, more especially in the flood-affected areas.

VIII. **Prices of food-grains.**—During the second fortnight of the month under review the prices of common rice rose in eleven districts, fell in six, and remained stationary in the rest. The prices varied from 10 seers per rupee at Jessore and the Chittagong Hill Tracts to 6 seers 8 chitaks at Darjeeling.

IX. **Condition of agricultural people.**—The condition of agricultural people was reported as fair.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 21st November 1918.

Summary.—There was no rain during the week excepting light showers in some of the eastern districts. Rain is urgently wanted for the sowing and growth of the spring crops. Their prospects are unfavourable. Harvesting of winter paddy has commenced. In some places the standing paddy crop is drying up and ripening prematurely especially in the western districts. The average price of common rice for the province has risen by about 2·3 per cent. as compared with that of the previous week.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

The following notification is published for general information and guidance.

J. H. KERR.
Chief Secy. to the Govt. of Bengal.

MILITARY SECRETARY'S OFFICE.

NOTIFICATION.

Delhi, the 27th November 1918.

No. 6750-M.—His Excellency the Viceroy and Governor-General will hold a Levée at Government House, Calcutta, at 9-30 P.M. on Wednesday, the 1st January 1919.

The following rules are published for general information :—

I.—The undermentioned are eligible for presentation at His Excellency's Levée, whether European or Indian :—

(*a*) All gentlemen who have been presented at the Court of St. James or at the Viceregal Court.
(*b*) All Ruling Chiefs.
(*c*) All Commissioned Officers in the Civil, Naval, Military (British and Indian), Marine and Volunteer Services.
(*d*) All Gazetted Officers of the first class in Government employ.
(*e*) All gentlemen who have received titles of honour from His Majesty the King-Emperor, or His Excellency the Viceroy.

II.—Gentlemen, whether European or Indian, who desire to attend the Levée and are eligible to do so by previous presentation at the Court of St. James, or at the Viceregal Court, are requested to make their applications to the **Military Secretary to His Excellency the Governor,** Government House, Calcutta, stating at which Court they have been presented, on or before the 20th December. *This applies to both the Private and Public Entrees.* Applications reaching the Military Secretary after this date cannot be considered. Gentlemen who have not been presented at the Court of St. James or at the Viceregal Court, but who desire to attend the Levée, will be presented by gentlemen who have had the honour of presentation at the Court of St. James or at the Viceregal Court, and will submit their applications through them.

NOTE.—No applications can be received direct by the Military Secretary to the Governor from gentlemen who wish to be presented. Their names must be forwarded by the gentlemen who wish to make the presentation.

III.—Gentlemen who propose, and are entitled to present others, should apply to the Military Secretary to the Governor for a form of presentation which, after the necessary particulars have been entered, will be returned to the Military Secretary's Office *not later than the 16th December*, for submission to His Excellency the Governor when, if approved, tickets of admission will be issued to the presentor.

IV.—Gentlemen who present others must themselves attend the Levée.

V. In the case of all Government officials, or gentlemen engaged in business, the presentor must ordinarily be the head of the Department or Firm and in the case of Military Officers the General Officer Commanding the Presidency Brigade.

VI. Applications for presentation, submitted on behalf of non-official gentlemen, whether European or Indian, will be referred to the local authorities by the Military Secretary to the Governor. Only those who are declared eligible on account of their social status will be permitted to attend.

VII.—Admission to Government House will be by ticket only and gentlemen receiving cards will show them first to the police at the gates and secondly will hand them to the Military Secretary to His Excellency the Viceroy in the Levée Room.

VIII.—Dress :—

(*a*) Civil and Military Officers—Levée Dress, Service Dress may be worn by those Military Officers not in possession of Levée Dress (helmets will not be taken to the Levée).

(*b*) Clergymen being University gruduates and other gentlemen entitled to wear robes or gowns on account of Judicial or Academical office or status and not entitled to wear uniform, will appear in such robes or gowns.

(*c*) Gentlemen not entitled to wear uniform, or robes or gowns, will appear in court or evening dress.

(*d*) Indian gentlemen who do not appear in the dress prescribed above will wear Choga, Aba or Jubba and Chapkan, Chilta, Saya or Kaba with trousers and their distinctive national head dress, or the ceremonial dress, approved for the class by the Local Government.

(*e*) In the case of Bengali gentlemen the head dress should be a Pugree generally known as Shamla or Mouratta, and not a brimless cap.

(*f*) In the case of Burmese gentlemen the head dress should be a white fillet, the hair being dressed in a top knot.

(*g*) Indian gentlemen who do not appear in the dress prescribed in (*a*), (*b*) or (*c*) should not remove their head dress when they pass His Excellency.

At the Viceregal Court only patent leather boots or shoes of an English pattern are allowed to be worn, except in the case of Indian Military Officers who wear the particular style of boot or shoe which forms part of their uniform.

NOTE.—Gentlemen who had intended to be present but have found themselves unable to do so should submit an explanatory letter to the Military Secretary to His Excellency the Governor before, or as soon as possible after, the Levée.

By Command,

R. VERNEY, *Lieut.-Colonel*,

Military Secretary to the Viceroy

PART IA.

Orders and Notifications by the Government of India.

The following resolutions, issued by the Government of India in the Department of Commerce and Industry, published in the *Gazette of India* dated the 23rd November 1918, are republished for general information.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

No. 1-D., dated Delhi, the 18th November 1918.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

THE following paper is published in accordance with Rule 29 of the Assam Labour Board Rules:—

Annual Report on the working of the Assam Labour Board during the year ending the 30th June 1918.

I.—ADMINISTRATIVE.

Membership of the Board and Executive Committee.

1. Mr. R W. Davies, I.C.S., Madras, continued to act as Chairman till the 10th September 1917, when he was relieved by Lieutenant-Colonel W. M. Kennedy, C.I.E, I.A., the permanent incumbent, on the termination of the latter's deputation to England. The triennial period for which the elected members were appointed having expired on the 13th April 1918 a general election was held, which was followed by a fresh election of members to serve on the Executive Committee for the ensuing three years. The changes in the elected *personnel* of the Board and of the Executive Committee are given in detail in Appendix A.

Chairman appointed Tea Commissioner for India.

2. With effect from the 20th November 1917 Lieutenant-Colonel Kennedy was appointed Tea Commissioner for India in addition to his duties as Chairman. In view of the fact that the Food Controller's scheme for the purchase in India of tea for the United Kingdom occupies the greater portion of Lieutenant-Colonel Kennedy's time and greatly restricts his touring as Chairman, the Government of India have ruled that half his salary as Chairman of the Board should be chargeable to the Food Controller, and that the Government of India and the Board should contribute the remaining half in equal shares.

Alterations in the Act and Rules.

3. Owing to a technical account objection to refunds of cess being made by the Board, a new rule, number 24A, was prescribed under section 116F(*d*), Act VI of 1901, regulating the purposes to which the cess may be applied. The rule, which was published under Notification No. 990, dated the 6th April 1918, of the Government of India, in the Department of Commerce and Industry, authorises the application of the cess to the payment of—

(*a*) Such portion of the salary and allowances of the Chairman as the Governor-General in Council may direct;

(*b*) Allowances to members of the Board to meet their expenses in attending meetings of the Board, or on other journeys performed on the business of the Board;

(*c*) The salary and allowances of the supervisors and other establishment appointed by the Board, including any leave allowances, pensions and contributions towards a Provident Fund sanctioned by the Board, and including also such contributions towards the leave allowances and pensions of officers whose services have been lent by Government as the Governor-General in Council may direct;

(*d*) Contingent and other incidental expenses, including tour charges, connected with the maintenance of the Board's office and of the offices of the officers appointed by them;

(*e*) Rewards for the detection or prosecution of offences under the Act;

(*f*) Refunds of the cess realised in respect of:—

(*i*) Garden-sardars and emigrants on whom it has been erroneously realised;

(*ii*) Emigrants whose services as labourers have, in the opinion of the Board, for any reason not become available or fully available to employers;

(*g*) Interest which may fall due on any loan contracted by the Board or on any overdraft of the Board's account with the Bank of Bengal sanctioned by the Board;

(*h*) Such other charges as the Board may, with the general or special sanction of the Government of India, direct.

Meetings of the Board.

4. The two statutory meetings of the Board were held respectively on the 11th October 1917 and the 7th March 1918, and were attended by all the members except the following who were unavoidably absent:—

September Meeting—Messrs. C. Wood and N. M. Ross

March Meeting.—Messrs. H. W. Carr, E. H. Hannay, the Hon'ble Sir E. H. Bray, and the Hon'ble Lieutenant-Colonel W. Mason.

Meetings of the Executive Committee

5. After each of the meetings of the Board a meeting of the Executive Committee was held both being attended by all the members.

Tours of Chairman.

6. The Chairman was on tour for 33 days, and the acting Chairman for 45 days. Details of the places visited will be found in Appendix B. Owing to his duties as Tea Commissioner, the Chairman's touring had to be greatly restricted. With the exception of two hurried visits to Madras in connection with the tea purchase scheme he was unable, because of press of work, to leave Calcutta from November 1917 to the end of April 1918.

Supervisors.

7. The following table shows the touring and inspection work of Mr. C. E. Middleton Stewart, supervisor:—

Number of days on tour.	Number of Stations visited.		Number of local agencies inspected.		Number of transport agencies inspected.	
	Once.	More than once.	Once.	More than once.	Once.	More than once.
203	15	24	9	15	...	12

As explained in last year's report, Mr. Stewart is now single-handed and he had to carry out, in addition to his own duties, those of the two supervisors whose services were lent to Government for employment with war Labour Corps. Mr. Stewart was most active in his inspection work, as also in investigating reports of illegal or irregular recruitment and did much useful work in removing local difficulties in the recruiting districts. Towards the close of the year, however, owing to the further combing out of the Government services in order to supply recruits for the Indian Army Reserve of Officers, the Inspector-General of Police, Central Provinces, informed the Board that he is unable to spare Mr. Stewart's services to the Board any longer. Latter has, accordingly, applied for a commission in the Indian Army Reserve of Officers, which, it is expected, will shortly be granted.

As a temporary measure, for the period of the war, the Board have since the close of the year under review sanctioned the appointment of Mr. P. D. Kirkham to act as supervisor *vice* Mr. Stewart. Mr. Kirkham retired last year from the Government service as Superintendent of Police, Central Provinces, and has since been working under the Tea Districts Labour Supply Association as local agent at Bilaspur.

Difficulties having been experienced by supervisors owing to their not being empowered to record evidence in cases of illegal recruitment under investigation by them, or to order the arrest of persons actually engaged in their presence in the offence of illegal recruitment, the Board enquired of local Governments whether there would be any objection to the investiture of Mr. Middleton Stewart with powers of a Magistrate of the third class for purposes of the investigation but not of the trial of cases under section 164, Act VI of 1901. Except the Chief Commissioner of Assam, who for technical reasons was unable to accept the Board's recommendations, all the local Governments concerned agreed, as an experimental measure for one year, to accede to the request of the Board, and have vested Mr. Stewart with powers of a Magistrate of the third class for purposes of the investigation but not the trial of cases of illegal recruitment. It is too soon yet to estimate the practical effect of this concession.

Appointment of subordinate investigating agency.

8. Since it seemed desirable that the supervisor should, as an experimental measure, be allowed a reliable assistant in order to help in the investigation of cases of illegal recruitment, which often require a good deal of detailed work, including prolonged watching for the despatch of illegally recruited gangs of coolies and the following up of such gangs from the recruiting district to the tea estate, the Board decided to enquire from local Governments whether they would have any objection to the appointment of a reliable inspector or sub-inspector of police to work under Mr. Stewart. All the local Governments concerned agreed to the appointment being made except the Government of Madras who were inclined to the opinion that the appointment is not necessary in that province in view of the absence of reports of cases of abuses in recruitment. The Board, accordingly, decided to obtain a suitable officer to work under Mr. Stewart in all the provinces concerned except Madras, and an inspector of police, whose services have kindly been lent to the Board by the Government of Bihar and Orissa, was towards the close of the year appointed to the post on salary equivalent to that which he received from Government, *plus* a deputation allowance of Rs. 50 a month, the Board paying in addition the usual contribution towards his leave and retiring allowances. The inspector makes detailed investigations under the orders of Mr. Stewart and patrols the transit routes. A better idea will be gained of the utility of the appointment after a year's experience.

II.—SUPERVISION OF LOCAL AGENTS.

Appointment of local agents.

9. Fifty-nine applications for the grant or renewal of licenses as local agents were received, all of which the Board recommended to be granted. No applications were pending at the close of the year. Superintendents of Emigration in all cases accepted the Board's recommendations.

Of the 59 persons who held licenses as local agents at the close of the year, 53 were employés of the Tea Districts Labour Supply Association, the

remainder being appointed by individual estates or firms or combinations thereof.

Number of local agencies.

10. On the 1st July 1917 there were altogether 35 local agencies at work, distributed as follows :—

Bengal two, Madras five, Bihar and Orissa eighteen, United Provinces six, Central Provinces four. Of these thirty were under the Tea Districts Labour Supply Association and five under individual firms or estates.

In the course of the year the Makum and Namdang Tea Companies closed their local agency at Ranchi but later on the Namdang Tea Company opened a new agency there under Mr. Halford, who was till recently local agent at Dumka for the estates represented by Messrs. Williamson Magor and Company, Messrs. Balmer Lawrie and Company, and Messrs. Barry and Company. These firms closed down their separate local agency at Dumka in the month of December 1917.

The Scandinavian Home Mission to the Santals opened a local agency at Dumka, in charge of the Reverend Boe Bojeson Bogh, M B., in the interests of the mission's tea estate at Ding Dinga in the Goalpara district.

The Tea Districts Labour Supply Association closed their local agency at Baidyanath in the Santal Parganas, as the results did not justify its maintenance. In Madras they transferred the Bezwada local agency to Rajahmundry in the district of Godavery. Bezwada is a large railway junction. No *bonâ fide* local coolies are available there, those picked up by the garden-sarders being of the waif and stray type. It was, moreover, difficult for the local agent effectively to control the garden-sarders in a place of this description. The local agency at Parvatipur in Vizagapatam district was, also at the desire of the District Magistrate, transferred from that place to Waltair, the headquarters of the district. The most convenient location for the local agency in that district would probably be Vizianagram. Two special local agencies to supervise recruitment in the Ganjam and Vizagapatam Agency tracts were opened, but have since been amalgamated with the local agencies at Berhampore and Vizagapatam.

Mr. White, local agent of the Salonah Tea Company, Limited, at Cuttack, died towards the end of the year, and the agency has remained closed up to the present.

The above changes left thirty-two local agencies at work at the close of the year.

Conduct of local agents.

11. The work of the different local agencies was carried on generally to the satisfaction of the Board. One local agent, of whose methods of working the Board did not approve, resigned his license.

Tea Districts Labour Supply Association.

12. Owing to the war and causes connected therewith, there has been a great drain on the European staff of the Tea Districts Labour Supply Association. A number of their agents have joined the army; Mr. H. A. Pickford, one of the oldest and most respected of the local agents, died when on sick leave and several others have been incapacitated owing to illness. It is practically impossible to secure suitable men to fill the vacancies. The shortage of men has greatly handicapped the Association in their work during the past year. The decrease in recruitment, also, has hit the Association hard financially As mentioned in paragraph 10 of last year's report, negotiations are in progress with the object of reorganising the constitution of the Association and of broadening the basis of membership, and the general principles on which it is proposed that the scheme should be worked have been formulated. The detailed scheme, however, has not as yet been prepared.

Temporary appointment of local agents in emergent cases.

13. As it not infrequently happens that acting local agents have to be appointed for a month or so in temporary emergencies, due to the illness of the permanent incumbent or other urgent causes, it has been arranged with local Governments that Superintendents of Emigration should issue temporary licenses in such cases, informing the Board of the action taken, since if the applications were to be submitted through the Board much delay would be occasioned.

III.—RECRUITMENT.

General results of the year.

14. In paragraph 12 of last year's report it was mentioned that the prospects of recruitment for the year 1917-18 were not bright. This forecast has unfortunately proved to be correct. The cess returns (including those for June 1918, which for financial purposes appertain to the succeeding year) show that 13,452 garden-sardars obtained 12.849 labouring recruits from the 1st July 1917 to the 30th June 1918, the figures for the previous year being 28,317 garden-sardars and 33,759 labouring recruits respectively. Taking the figures of the Tea Districts Labour Supply Association, under whose supervision almost the whole of the recruitment for Assam is carried out, these show that, including garden-sardars still in the recruiting districts at the beginning of the year 1917-18, there were altogether 15,384 at work as against 28,521 in the year 1916-17, and that in the past year 13,970 adults or 17,735 souls were recruited, the figures for the previous season being 26.828 adults and 36,315 souls respectively. It may be explained that the Association's year begins on the 1st September and that their system of classifying adults for the purpose of the levy of their fees is different from that on which the cess is assessed. The reduction was shared by all the recruiting areas. Results were best in Ranchi and the United Provinces Except in the latter area the number of recruits per garden-sardar fell short of the 1916-17 standard, which itself was lower than that of the previous year. The causes for the less satisfactory results were various, one of the chief being that agricultural conditions were good, so the poorer people were not obliged to emigrate under stress of want. In this connection it is interesting to note that the Chairman and supervisor, in the course of their inspections of local agencies, have drawn attention to the large proportion of the recruits which were related to the garden-sardars, a fact which indicates that the latter had not much success outside of their immediate *clientèle*. Had there been famine or scarcity in any area their operations would have been more widespread. An explanation of the shortage of recruits, which is almost universally put forward by local agents and which is undoubtedly correct, is that garden-sardars were deputed in fewer numbers and too late in the season. As explained in the report for 1916-17, this was due to the uncertainty of the outlook for tea during the opening months of the season. The Food Controller's tea purchase scheme, however, had a most reassuring effect, and from January onwards garden-sardars were sent down in increasing numbers, with the result that there was a marked recovery in the numbers of labourers and dependants engaged. The greater demand for recruits for war purposes, both combatant and especially non-combatant, also affected results. Speaking generally the good pay offered for military service, the temporary nature of the employment and the prestige which attaches to service under Government are attractive to the emigrant coolie. In some directions, also, recruitment for Assam was directly restricted owing to the needs of the war. In the Ganjam Agency Tract the engagement of labourers and dependants was stopped altogether for three months, in order not to interfere with recruitment for the local Labour Corps. In Saran the emigration of males of the sweeper caste was temporarily forbidden, as efforts were being made to obtain them for Mesopotamia. The embargo was, however, eventually removed since the attempt to induce these people to enlist in a sweeper's corps failed. More seribus has been the complete stoppage of the recruitment of Nepalese in the Gorakhpur district for the coal mines of the Assam Railways and Trading Company at Margherita, which used to draw from this area a considerable supply of short-term labour consisting of immigrant Nepalese. Under previous arrangements recruits used to be produced before the local military Recruiting Staff Officer, who selected those suitable for army purposes, the remainder being allowed to proceed to Assam. But at the instance of the Nepal Durbar, who wish to conserve their man-power for purely military purposes, the Government of the United Provinces requested that the recruitment of Nepalese should be discontinued, and this has been done. The Board and the tea industry recognise that recruitment for war purposes has the paramount claim, and are always ready to assist in the promotion of all reasonable measures which Government may consider to be necessary in order to secure recruits for the army or subsidiary war services in the field. All that is asked is that measures should not be adopted which would injure recruitment for Assam,

without conferring a corresponding benefit on recruitment for war purposes. Apart from the demands of the Army Department, the growth of local industries in the recruiting districts as the result of the war constitutes an additional drain on the available supply of labour. Chota Nagpur and the Feudatory States of Bihar and Orissa are the main recruiting grounds for Assam. In this area there is the promise of great industrial development. Large industries, such as the Tata Iron and Steel Works at Sakchi, already employ great numbers of unskilled labourers at high rates of pay. In the Tata Works alone it is stated that 10,000 coolies are employed, and the Board understand that many new applications are being made for mining and other concessions. There are also numerous small industrial concerns which employ unskilled labour. These sources of employment, paying good wages and close to the homes of the coolies, cannot but prove a powerful counter-attraction to comparatively distant Assam, and contribute to some extent to the ill-success of the garden-sardar. At Chaibassa, for the last two or three years, several estates secured a connection by employing short-term labour, which was going forward fairly freely. This short-term emigration has now, however, unfortunately ceased, but the Board hope that the cessation is temporary only, and that it will be possible before long to revive this type of emigration, which provides a useful means by which gardens, and especially new gardens, can establish a recruiting connection. The Tea Districts Labour Supply Association have arranged that their local agents should send reminders to managers a few weeks before short-term coolies are due to return to their home districts, since it is absolutely essential for the success of the short-term system that managers should insist upon coolies, whose period on the garden has expired, returning to their homes, whether they wish to remain or not. This is necessary in order to give confidence and to show the village people that promises are kept. Such emigrants can after a short stay in their villages be returned to the garden to settle there permanently if they wish to do so. Managers who omit to insist upon the return of short-term labour not only damage their own recruiting, but injure that also of all other estates wishing to employ this class of labour.

Measures affecting recruitment.

15. The acting Chairman, after personal consultation with the Agents to the Governor in Vizagapatam and Godavery, addressed these officers in connection with the extension of recruiting facilities in the Agency Tracts of those districts. In the case of the Vizagapatam Tract the Agent was unable to support the proposals, except as regards the expatriation of the families of coolies now in Assam, and he thought that the castes, the recruitment of which in the open area is now permitted, should still further be restricted. The Government of Madras, however, decided to leave matters as they are in the latter respect, but accepted the recommendation of the Agent and acting Chairman as regards the expatriation of the families of coolies from the Vizagapatam Tract now in Assam, namely, that a coolie wishing to take his family from the closed area to Assam should be sent down to the local agent, who would then be in a better position to ascertain their whereabouts by personal enquiry from the coolie than the taluk officer, who, under the existing orders, has only the lists, generally erroneous, supplied by the tea garden manager to guide him.

From the portion of the Ganjam Agency Tract recently thrown open some 103 souls were recruited by 153 garden-sardars last season. Only 20 souls were obtained by 16 garden-sardars this season, but, as explained above, recruitment was stopped altogether for three months. On the whole, the results are encouraging and give grounds for the hope that an extension of the area of recruitment would yield a welcome addition to the Assam labour force, as the people are reported to be poor and ready enough to emigrate in order to better themselves. From the experience gained however, the Board have come to the conclusion that the opening to recruitment of small areas, hedged round with restrictions, while adjacent areas remain closed, leads to much confusion, considerable expenditure and small results. It is exceedingly difficult for managers in Assam and even for the local agent to be certain what villages are within the open area, as the definition of boundaries is inevitably vague, and this applies with greater force to the garden-sardars themselves who are apt to stray beyond the prescribed boundaries, thereby tending to the creation of cases of misdescription and illegal recruitment with the active connivance of the recruits themselves, who are anxious to emigrate. Much unnecessary

trouble, also, is caused to the local officers of Government dealing with emigration who have to decide whether intending emigrants come from the open or closed area. The Board, therefore, are of opinion that, in the interests of all concerned, it is desirable that, if any extensions of the recruiting area are granted in the future, they should comprise either whole Tracts or a substantial proportion thereof, and that special restrictions should be reduced to a minimum; in fact they think that recruitment should be carried on under ordinary conditions or not at all. Since the close of the year the Chairman has had the advantage of discussing this difficult question with the Government of Madras and with the Agent to the Governor in Ganjam, and the Board hope to be in a position before long to submit proposals as regards the Ganjam Tract, which will, at any rate, ameliorate the difficulties now being experienced in that area.

The rules for the regularization of recruitment in the Feudatory States of Bihar and Orissa are still under the consideration of the Government of that Province. Their promulgation is expected shortly.

Speaking generally, the present is not a favourable time for pressing for extended facilities for recruitment or for the opening of new local agencies, in view of the strenuous attempts of Government to obtain recruits for the combatant and non-combatant war services.

16. This question, as mentioned in paragraph 14 of the report of last year, has been under the consideration of the Indian Tea Association with a view to the limitation of advances and bonuses paid to garden-sardars. Owing to the disturbed and unusual conditions which are concomitants of the war, the Association have decided that the time is not opportune for arriving at a definite decision as to the limitations to be imposed. Further consideration of the matter has, therefore, been postponed until normal conditions shall be restored. As a result of the inspections of the Board's officers, however, the Board are satisfied that the advances made to garden-sardars are generally moderate and are insufficient to enable them to lay out money in the purchase of coolies, at any rate to any appreciable extent. The practice of paying *per capita* bonuses through local agents has been stopped, and the utmost vigilance is exercised in order to insure that garden-sardars are not financed direct by the estates. In one respect it has been unfortunately necessary to increase expenditure since the Tea Districts Labour Supply Association, owing to the falling off in recruitment, have been obliged to raise the fees to Rs. 20 per adult, the income of the Association being derived from fees charged on the persons recruited. But the enhancement of the fees is, it is hoped, temporary, and the situation would be eased were all estates to pay more attention to recruitment and to depute garden-sardars earlier in the season and in larger numbers. The payment of a bonus to the immigrant to be taken with him or left with his family has been suggested as a stimulus to recruiting. It is understood that such bonuses have been paid to recruits for Labour Corps and in Ranchi small payments of this description have to be made to intending emigrants, as it is the local custom, the practice being somewhat similar to that obtaining at hiring fairs in Ireland. No one objects to the coolie being granted a bonus, provided that it can be insured that he actually receives it and that it is not filched away from him or his family and applied to improper purposes, and provided, also, that the practice does not tend to bring into existence the professional emigrant who accepts the bonus and turns "unwilling" when in transit, knowing well that it is practically impossible to recover the bonus from him or to secure his conviction in a court of law for cheating.

Cost of sardari recruitment.

17. Notwithstanding the activity in recruitment for war purposes, the prospects for the ensuing season in many of the recruiting areas are distinctly good, so far as can be judged at present. In a number of districts the rainfall has been deficient, and an early cessation of the rains seems to be probable. These conditions may result in a partial failure of the crops in portions of the recruiting districts. Garden managers may, therefore, depute garden-sardars freely in the reasonable hope that results will be substantially better than those of last year. There is, however, no reason to apprehend that the results should be worse than in the past season, and, indeed, if concerns send down their garden-sardars in good time, there is every reason to believe that last year's figures will be improved upon. But looking beyond the

Prospects for the season 1918-19.

immediate future, there are indications that it will be necessary for the tea industry to take stock of its position if it is to hold its own in the face of other competing interests. Allusion has already been made to the ever-growing industrial activity in the areas from which Assam draws its labour, which is providing increased employment on liberal rates of pay, close to the home of the emigrant coolie. In view of these developments it will probably be necessary for the tea industry in the near future to consider whether additional inducements in the matter of pay should not be offered. It is true that the outdoor employment on tea estates, the easy conditions as regards leave, etc., the provision of rice fields and the good prospects of eventual settlement on Government land as peasant proprietors tend to attract coolies to and to keep them in Assam. It is true, also, that actual pecuniary inducements have in many cases at present little or no influence on the coolie's decision to emigrate. Many of them pay little regard to the terms offered and leave their homes either to join their relatives in Assam or simply because they wish to get away for one reason or another. Nevertheless, with the growth of local industries, attended by a rise in the local rate of wages and extended local employment, it is reasonable to suppose that the coolie will, in time, be more and more influenced by financial considerations, and will learn to weigh the relative advantages of employment nearer his home, which will not entail the break up of his household, and emigration to Assam. It is unfortunate that under the Assam system wages are presented to the would-be emigrant in the most unfavourable light. What may be described as the standard wage is admittedly low, and it is difficult to explain to the coolies that this can be earned by a few hours' work, and that the diligent coolie can, if he wishes, earn additional wages which compare favourably with those paid by other industries. Even without raising the standard wage the Board think that an improvement would be effected if each estate were to furnish its garden-sardars with a statement in the vernacular of the recruiting district setting forth the advantages which it has to offer, not only in the matter of regular wages, *ticca*, and bonuses, but also as regards housing, medical attendance, leave, sick and pregnant allowances, fuel, the supply of rice at reduced rates when prices are high, the provision of garden plots and rice lands, and facilities for the formation of hamlets of coolies of the same caste. This has often been recommended and the Assam Labour Enquiry Committee laid considerable stress on the advantages of advertisement in paragraph 65 of their report. The suggestion has not. however, been acted upon up to the present, at least to any great extent. The Board have thought it right to put forward the above considerations, in the hope that the tea industry will give the matter thought with a view to timely measures being taken to meet difficulties in recruitment which may arise in the future. With wages and the cost of living rising on all sides the tea industry can scarcely afford to stand still much longer.

IV.—ILLEGAL RECRUITMENT.

Recruitment by arkatties.

18. It is with much pleasure that the Board have to record a great improvement under this head. Only one important case of attempted illegal recruitment was brought to light. It concerned one Banerji, who, with the assistance of one Chakrabarty, a Duars recruiter, engaged to supply coolies to a certain estate in Assam on the *per capita* payment basis. The investigations of the supervisor and inspector disclosed the fact that Banerji had obtained from the manager a letter appointing him local agent of the estate. This letter, of course, had no legal effect. The case was detected in time to prevent the supply of any coolies, though it is believed that some were collected ready for despatch. The manager, when called upon for an explanation, readily admitted his fault and assisted the Board by furnishing all the information at his disposal. The Board, accordingly, dealt with the case by a reprimand which has been published in the proceedings of the local Branch of the Indian Tea Association. A case has been instituted against Banerji and Chakrabarty.

Two other cases of suspected dealings with arkatties are under investigation, one in the Balaghat district and the other at Buxar in the Saran district. In the latter case suspicion has been aroused regarding a gang of coolies who turned unwilling at Goalundo. There are grounds for the belief

that they were not *bonâ fide* emigrants and that the garden-sardar obtained them from a well-known arkatti at Buxar. Unfortunately the Magistrate at Goalundo released the coolies without referring to the local agent or the Board, so it is difficult to trace them, but the supervisor and the inspector have the matter in hand.

Taking it all round, the Board consider that the position as regards illegal recruitment is now satisfactory. Doubtless there are occasionally isolated cases of garden-sardars obta ning coolies from petty arkatties, which are generally detected owing to the vigilance of local agents, but the organised gangs have been broken up and are no longer at work. This happy result is due in a great measure to the loyal support which the Board have received from employers, who as a body refuse to have any dealings with illegal recruiters. It was mentioned in paragraph 15 of last year's report that the Central Provinces Administration had prohibited recruitment by garden-sardars not working under a local agent. Similar notifications have been published by the other local Governments in the recruiting districts. Thus a definite stop has been put to recruitment by independent garden sardars, who generally either were themselves arkatties or obtained their recruits through the latter.

Offences of garden-sardars.

19. Garden-sardars are not always free from blame, their most common offence being misdescription at which the emigrants themselves actively connive. Such cases are reported by the local agent to the Magistrate, with the result that the garden-sardar is generally convicted and imprisoned. In comparison with the large number of garden-sardars at work the cases are not numerous.

V.—FINANCIAL.

Collection and refund of cess.

20. By Department of Commerce and Industry Notification No. 1092, dated the 6th April 1918, the rate of cess during the year under review was fixed at Rs. 2 per garden-sardar and labouring emigrant. The cess was punctually collected, collections by local agents being checked locally by the supervisor in the course of his inspections as provided in revised rule 24 (4). The Chairman also checked collection work in some cases A total sum of Rs. 1,500 was refunded, viz., Rs. 1,128 on 564 garden-sardars and Rs. 372 on 186 emigrants.

Receipts and expenditure.

21. In Appendix C will be found the auditor's report and the audited statement of accounts. In the budget estimate for the year an income of Rs 2,93,395-9-8 was estimated for, comprised of an opening balance of Rs. 1,59,000 which included Rs. 1,25,000 invested (the actual opening balance being Rs. 1,59,414-0-10), a Government grant towards the Chairman's salary of Rs. 14,145-9-8, a sum of Rs. 1,18,000 being the cess on 26,000 garden-sardars and 33,000 emigrants, and Rs. 2,250 as interest on investments. The actual income amounted to Rs. 2,33,499-10-10, including the above opening balance, but excluding receipts due to withdrawals of fixed deposits and realisations from matured Treasury Bills, other than a sum of Rs. 312-8-0 being the interest thereon which is included in the sum of Rs. 25 000 shown as matured on the receipt side of the audited statement of accounts, the decrease being due to lower realisations from cess on garden-sardars and emigrants which fell short of the estimate by Rs. 65,398. The apparent large reduction in the opening balance, as shown in the audited statement of receipts and expenditure, is due to the exclusion of Rs. 75,000 invested in 5½ per cent. War Bonds and Rs. 50,000 placed in fixed deposit with the Bank of Bengal. It may be explained that the audited statement of accounts is prepared from the cash-book and, therefore, differs from the budget estimate, which includes in the opening balance sums invested and on fixed deposit at the close of the previous year, but excludes fixed deposits and purchase of Treasury Bills which are made and which mature during the course of the year. The expenditure, excluding sums invested, amounted to Rs. 72,334-12-5 against an estimate of Rs. 1,21,116-7-9 the reduction being due chiefly to the fact that the staff of supervisors was reduced to one. There were also economies under almost all other heads. The closing

balance amounted to Rs. 1,61,164-14-5, as compared with the budget estimate of Rs 1,72,279-1-11. The closing balance was comprised as follows :—

	Rs.	A.	P.
Cash balance	11,477	6	5
Fixed deposit with Bank of Bengal ...	50,000	0	0
5½ per cent. War Bonds	75,000	0	0
Three months' Treasury Bills	24,687	8	0
Total ...	1,61,164	14	5

The adjustment of the shares of the Chairman's salary from the 20th November 1917 to the 30th April 1918, between the Ministry of Food, the Government of India and the Board will bring in a further sum of Rs. 4,830-7 to the Board.

Budget estimate for 1918-19.

22. The budget estimate for 1918-19, as passed at the meeting of the Board held in March 1918, provides for an income of Rs. 2,49,134-3-6 made up as follows :—

	Rs.	A.	P.
Opening balance	1,64,454	0	0
Cess at Rs. 2 on garden-sardars and emigrants	64,000	0	0
Government of India's contribution (which will now be reduced as the result of the redistribution of the contributions towards the Chairman's salary).	15,679	3	6
Interest on investments	5,001	0	0

An expenditure of Rs. 90,926-3-0 has been budgetted for, leaving an estimated closing balance of Rs. 1,58,208-0-6.

VI.—MISCELLANEOUS.

Certificates of garden-sardars.

23. Doubt having arisen as to whether the currency of the certificates granted to garden-sardars is governed by the endorsement signed by the countersigning officer to the effect that the certificate ceases to be in force on the expiry of twelve months from the date of countersignature, or by the entry made by the employer in column 12, specifying the period within which the garden-sardar is required to return to the garden, the question was referred to the Assam Administration, who ruled that the period is governed by the endorsement and that all certificates are, therefore, in force *proprio vigore* for one year from the date of countersignature, the entry in column 12 by the employer being merely an instruction. In order to make this quite clear a revised certificate and endorsement have been prescribed by the Chief Commissioner. The matter is of importance since courts, as a rule, were under the impression that the currency of the certificate depended upon the entry in column 12, with the result that garden-sardars bringing in recruits after the expiry of the period specified in that column were often prosecuted and in some cases sentenced to substantial terms of imprisonment. Countersigning officers in Assam used frequently, also erroneously, to correct the endorsement so as to bring the period into conformity with that specified in column 12. Garden-sardars are generally ignorant people with a very hazy idea as to dates, and when they visit their villages are rather apt to take their own time in returning. If they bring in coolies after their certificates have expired a technical offence has undoubtedly been committed, but as long as the recruits are

produced before the local agent for registration no actual harm is done to any one, so the Board are of opinion that sentences of imprisonment in such cases are to be deprecated as an unduly harsh punishment.

A minor matter in connection with these certificates, which often occasions trouble and delay, is the fact that technical mistakes are not infrequently made by employers in filling them up, and this is especially the case when a local agency comprises more districts than one. In strict law the certificates must be returned to the labour district for amendment, and countersigning officers often require the reappearance before them of the garden-sardar when attesting the correction. This entails considerable expense and delay as well as harassment to the garden-sardar. The Tea Districts Labour Supply Association accordingly suggested that Magistrates in the recruiting districts might be authorised, as an executive measure, to make the necessary corrections. The Board recommended this suggestion to local Governments in the recruiting districts and favourable replies have been received from the Governments of Madras, Bengal, the United Provinces, and the Central Provinces. The Government of Bihar and Orissa were unable to agree to the proposal on the technical grounds already mentioned, but have suggested that the necessary corrections can be made by the countersigning officer in Assam under section 60 of the Act without requiring the reappearance of the garden-sardar. A reference has been made to the Assam Administration on this point.

Transit arrangements.

24. Transit arrangements are generally satisfactory. The rest-houses maintained by the forwarding agents were inspected by the Board's staff. who found the arrangements, including those for the supply of food, to be adequate. Several conferences have been held with the administration of the Eastern Bengal Railway, with a view to the improvement of transit facilities on the Amingaon route, and the Board wish to acknowledge the sympathetic consideration given to the subject by the Agent and his staff. The revised arrangements, when completed, will place the transit facilities on this railway on a very satisfactory footing. The route is one which is likely to become increasingly popular owing to the saving of time effected.

Thanks of Government.

25. The Board received the thanks of the Government of India, Army Department, and of the Government of Bihar and Orissa for the assistance rendered by them in raising Labour Corps in Chota Nagpur and the Santal Parganas.

No. 12814, dated Simla, the 18th November 1918.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

THE following review by the Actuary to the Government of India of the working of the Indian Life Assurance Companies Act, VI of 1912, for the year 1917, is published for general information.

Report by the Government Actuary on the working of the Indian Life Assurance Companies Act, 1912, for the year 1917.

There are at present 68 companies subject to the Indian Life Assurance Companies Act. Of these 44 are Indian, 17 British, 1 Colonial, 2 are constituted in Shanghai and 1 is an American Company. The summaries relating to these concerns are now published in a form which has been found much more convenient than the former cumbrous method. The particulars of each company's accounts are now set forth so as to facilitate comparison not only with the corresponding particulars of other companies for the same year, but what is frequently more important, with the returns from the same company in previous years. Summaries of all the valuation returns submitted since the passing of that Act are also published, together with fairly lengthy extracts from the triennial or quinquennial valuation statements submitted since the previous year's issue of these returns. The valuation statements are usually of considerably greater importance than the annual accounts, and as in the majority of cases it will be another five years before the next valuation falls to be made, it has been considered desirable to publish such portions as would for the next few years clearly show the financial position of a company as last ascertained. The impossibility of ascertaining the relation of liabilities to assets from an examination of ordinary accounts and balance sheets is possibly more pronounced in the case of life assurance than any other class of business, and forms consequently an additional reason for the publication of the more interesting portions of the valuation statements

The returns from the Indian Companies show a marked improvement in many respects. The new sums assured are nearly 35 lakhs in excess of the amount in either of the previous two years, and although the amount is not equal to the pre-war figure it is satisfactory to see such a marked recovery. The total sums assured remaining in force also show a marked increase and now amount to nearly 21 crores of rupees. This is more than one crore in excess of the amount in any previous year. It is interesting to observe the variation in each of the past three years in the ratio to the new sums assured which is borne by the total sums written off from all causes including claims, surrenders, lapses, etc. In 1915, the sums assured written off exceeded the new business. In 1916 they were only slightly less. But last year they did not amount to half of the new sums assured and were nearly 1 crore less than the 1915 amount. Each year since the Act came into force there has been a decrease both in the expense ratio and in the amount of the sums falling due under claims by death. As was to be expected, the rate of interest earned on these Life Funds again shows an increase. Since the outbreak of war the net interest rate has increased from under 4½ to over 4¾ per cent. and a further increase may be expected. This is a very important consideration in view of the fact that Indian Companies issue mainly endowment assurances and under that class of policy the principal source of profit is generally surplus interest.

Depreciation.

The amount written off to depreciation or transferred to the Investment Reserve Fund for the purpose of meeting the decreased value of securities has since the outbreak of war been nearly one crore, but notwithstanding this the total amount of the Life Assurance Funds shows an increase each year and is now more than one-third greater than it was five years before.

The Directors of a company need not necessarily be alarmed if, owing to depreciation of securities, the Actuary's valuation report does not permit of a bonus being paid, provided the valuation proves the company to be solvent. The fact that securities stand at a low price has the effect of forming a contingent reserve fund, and a company's financial position will be all the stronger for any prudent action which may be taken now.

Although the decrease in the value of the securities may make it seem prudent in some cases not to pay any bonus or dividend, the effect of the decrease may not be so serious as many may imagine. The income in most cases exceeds the company's outgo and, consequently, there is seldom any question of the securities having to be realised at the present low prices. Moreover, in the case of Indian companies they consist mainly of Indian Government securities; hence no question arises of any decrease in the rate of interest income. At the outbreak of War, 3½ per cent. Government Promissory Notes were worth about 95½ per cent. of the face value and at that price they yielded a return of about 3⅝ per cent. to the purchaser. Recently the price was under 64 or about one-third lower than it was before the War. At this low value the yield has increased to nearly 5½ per cent. This year's War Loan gives a still larger return. Allowing for repayment at a premium ten years hence the return is nearly 5·9 per cent. free from income tax. This is about the same as a 6¼ per cent. return subject to a one anna income-tax. This increased rate of interest is of great importance to Indian companies, and in many cases will go far to counterbalance the decrease in capital values at the time of an actuarial valuation of the company's financial position. With British Companies, however, the case is different, as owing to the very heavy rate of income-tax to which they are now subject, any increase in the gross rate of interest return is generally counterbalanced by an increase in the rate of income-tax. Notwithstanding this, the financial position of the British Companies was so strong that, after providing for depreciation, they have been able to show good results by valuations based on the same interest rates as formerly. The following table culled from an article in one of the English papers shows the results of all valuations of British Companies announced in 1916 and 1917 :—

Basis of valuation.	Number of valuations which resulted in bonus being		
	Maintained at former rate.	Paid at a reduced rate.	Passed altogether.
Unaltered	7	4	21
Weakened	2	3	5

It will be seen that only 10 out of the 42 adopted a weaker basis of valuation. This was done generally by increasing the rate of interest assumed in the valuation. Although 26 of these 42 decided to pay no bonus, many of these valuations disclosed large surpluses but which the companies with their accustomed prudence decided to carry over until more settled times.

War Risk.

Some interesting statistics were recently published by the Prudential Assurance Company of London showing how the war had affected the rate of mortality amongst the male industrial lives assured. In 1917 the rate of mortality at age 20 was nearly 5 per cent., which is more than twelve times as great as it was before the war. The rate of mortality decreased for each higher age and reached a minimum at age 44 when it was less than a

quarter of the rate at age 20. At ages over 44 the 1917 mortality rates were less than normal and, although increasing from age to age, it was not till about age 65 that the rate equalled the high rate for age 20. At ages under 20, the 1917 rates were less than those for the two previous years, thereby indicating the benefit to health which results from military training. As the data did not relate exclusively to those in the Army, it does not show what extra premium should be charged for war risk.

The majority of the companies transacting life assurance business in India are unwilling to issue policies to combatant officers at the front. Some companies accept the risk on the condition of charging extra premiums, others of reducing the sum payable at death; but whichever method be adopted it seems that if a combatant officer under orders to proceed to the front were to insure now, he would be required to pay each year, in ordinary and extra premium combined, a sum of not less than about 20 per cent. of the net amount payable at death. This of course is different from charging an extra of 20 per cent., as, if for instance the insurance be made payable at the end of 20 years or at previous death, the annual extra would be about 15 per cent. of the sum assured. For endowment assurances of shorter terms the extra would be less.

Indian Mortality Rates.

The companies should keep a permanent record of every life insurance policy they have issued, in order that, when their mortality experience becomes more mature, they may be in a position to have an investigation made into the rate of mortality they are experiencing. In the meantime, the valuation might suitably be made on the assumption that the mortality likely to be experienced will be that given in the $O^{m(5)}$ table with an addition of 7 years to the age of the life. A more accurate approximation to represent the mortality of the better class of Indian lives which are insured in the companies subject to the Life Act would be that the Indian $\mu_{[x]+n} = O^{[m]}\,\mu_{[x]+6+n} + \cdot0015$. This approximation is however less easy to apply than that previously mentioned. If there has been no medical examination at the time of insurance the rate of mortality has been found to be very much higher. In such circumstances the rate of mortality might reasonably be assumed to be equal to $H^m q_{x+7}\,(1 - \cdot0095) - \cdot0095$. This approximation has the advantage of enabling the annuity values based on this heavy rate of mortality to be represented by using the annuity values from the H^m table with an addition of 7 years to the age of the life and at a rate of interest one per cent. higher than the valuation rate. This well known method may be demonstrated in the following way. If p_x represents the probability of a life aged x living till age $x+1$, and q_x the probability of his dying in that year, the value of an annuity at 4 per cent would be

$$= \frac{p_x}{1\cdot04} + \frac{p_x \times p_{x+1}}{(1\cdot04)^2} + \frac{p_x \times p_{x+1} \times p_{x+2}}{(1\cdot04)^3} + \text{etc.}$$

$$= \frac{1\cdot05}{1\cdot04} \times \frac{p_x}{1\cdot05} + \frac{1\cdot05}{1\cdot04} \times \frac{p_x}{1\cdot05} \times \frac{1\cdot05}{1\cdot04} \times \frac{p_{x+1}}{1\cdot05} + \text{etc,}$$

$$= \frac{p'_y}{1\cdot05} + \frac{p'_y \times p'_{y+1}}{(1\cdot05)^2} + \text{etc.}$$

=an annuity at 5 % interest at a different rate of mortality represented by the equation $\frac{1\cdot05}{1\cdot04} p_{x+n} = p'_{y+n}$ and $\therefore$ by $p_x = \frac{1\cdot04}{1\cdot05} p'_y$

$$\therefore \text{by } 1 - p_x = 1 - \frac{1\cdot04}{1\cdot05}\, p'_y \;\therefore \text{by } q'_y = 1 - \frac{104}{105}\,(1 - q'_y) = \frac{104}{105}\, q'_y - \frac{1}{105}$$

$$= q'_y\,(1 - \cdot0095) - \cdot0095.$$

Fortunately very few Indian companies now issue policies without requiring a medical examination: so the question of the mortality likely to be

experienced under them is one of decreasing importance. I am of opinion that in India the mortality varies with the class of policy to a greater extent than is the case in the United Kingdom, being very high under temporary insurances for short periods and low under annuity contracts.

Actuarial Valuations.

Since the issue of the previous Blue Book, valuation particulars have been received from the following nine Indian companies :—

Name of Company.	Head office in	Result of valuation.
Indian Life	Karachi	Divisible surplus.
United India	Madras	
Empire of India	Bombay	Surplus carried forward.
B. B. and C. I.	Bombay	
Aryya	Silchar	
National Indian	Calcutta	Deficits mainly covered by paid-up capital.
British Indian	Lahore	
Unique	Calcutta	
Goan Mutual	Bombay	Deficit removed by reduction of sums assured.

Extracts from the returns made by each of these companies under the Fourth Schedule to the Life Act are published in this issue. The Balance Sheet of each is also published in order that the assets as well as the liabilites may be fully shown.

Up till now 32 of the Indian companies have submitted the results of actuarial valuations of their assets and liabilities. Exactly one half of these valuations disclosed a surplus. In 10 of the remaining sixteen, the deficit was covered by the paid-up capital, thus proving solvency but precluding the payment of either bonus or dividend. In five cases solvency was restored by reduction of sums assured or by calling up further capital. In one case the degree of insolvency necessitated the winding up of the concern. Many of the other companies which went into liquidation without an actuarial valuation being made, adopted this course as the unsoundness of their financial position could be clearly demonstrated without it.

Mutual companies.

With two exceptions, all the Indian companies shown as established within the last 21 years are proprietary companies with a share capital ; but of the older companies, the great majority are mutual companies. These mutual companies generally have very small funds and it is found that payment of the full deposit prescribed in section 4 of the Life Act sometimes presses unduly on their resources, and as payment of the full deposit also interferes with the formation of new mutual companies, Government will be prepared to consider any application from an Indian mutual company for permission to pay a smaller deposit. Another privilege which Government have decided to extend to mutual companies is with regard to the audit of their accounts. While life assurance companies having a share capital may employ as an auditor only the holder of an unrestricted certificate or the member of one of the six exempted societies of accountants, mutual life assurance companies may, alternatively, employ the holder of a restricted certificate. One or two of the existing Life Offices are called Mutual Companies even although they have share capital · such nomenclature should be avoided in the case of companies established hereafter, as there is generally a recognised technical meaning attached to the use of the word " Mutual " in connection with life assurance, in consequence of which its use by a company having a share capital is likely to be misleading.

Provident Funds.

Although some of the Indian Life Assurance Companies which formerly issued policies may deservedly have bad records, it must be remembered that a great deal of discredit has been brought on the better class of such companies owing to a large number of the unsound Provident

Societies having names which suggested that they were ordinary Life Assurance Companies. This confusion is certain to decrease, as it is probable that some of the existing Provident societies which call themselves Life Assurance Companies will disappear. Moreover, the rules under the Provident Insurance Societies Act which have been adopted by nearly all the local Governments provide that no new Society subject to that Act may be started with a name in which the words "life insurance" or "life assurance" occur. About twelve years ago there were about 1,200 Provident Insurance societies in existence in India. Now about 45 remain. The unsound ones were very similar to the dividing societies whose methods I have dealt with in previous issues of these returns. The essential difference between a Life Assurance Company and a Provident Insurance Society is that the company is subject to the Life Act and not to the Provident Act, if under insurances payable at the death or survivance of any one life, it undertakes either to pay sums which in the aggregate exceed Rs. 500 or receive premiums which in the aggregate exceed Rs. 25 in any one year where the period for which the premiums are payable is unlimited, or Rs 250 altogether where such period is limited. If, as may happen in the case of a dividing society, the sum assured is not fixed but may in certain contingencies exceed Rs. 500, the society is subject to the Life Act.

New Companies.

The Mysore Government Security Life and Marriage Assurance Company, Mysore, has become subject to the provisions of the Life Act This Company's head office is in the Native State of Mysore. The Mysore Government is, however, in no way concerned with the Company and by a Notification, dated the 23rd December 1914, published in the Mysore Gazette, it announced that the use of the words "Mysore Government" in the name of the company did not mean that the Mysore Government authorized its formation or in any way supervised its business.

This Mysore company for about a year past has endeavoured to transact insurance business of the Dividing Society type in British India. By keeping its life assurance contracts within the limits prescribed for Provident Societies, it first of all escaped compliance with the Life Act and by only having canvassers working in British India and so restricting their powers it endeavoured to escape compliance with the provisions of the Provident Insurance Societies Act. On being informed that this could not be done it has decided to issue policies which make it subject to the Life Act.

Only one other company, viz., the Indian Allied Life Insurance Company, Limited, which has recently been established at Allahabad, has become subject to the Life Act during the year. This issue, however, contains no particulars of either of the above mentioned companies.

Agents.

The greatest possible care should be taken by the less experienced companies in selecting as agents only those of whose integrity they have no doubt, as thereby they would lessen the risk of policy-holders being defrauded. Possibly more care would be exercised in this matter if companies realised that they were greatly responsible for the action of their agents. The following extract from a recent article in one of the English Insurance papers will possible indicate the extent to which the company may be responsible :—

"The contract of insurance is in most cases made through the intervention of agents whose acts bind their principals in the same way as other business transactions. All incorporated companies must necessarily act through agents, and their officers are specially appointed and clothed with powers more or less specific to facilitate the transaction of business. To these in cases of emergency are added special or general agents who at home and abroad exercise very extensive powers. What is the fair scope

of the authority of these agents, now so numerous, to whom are entrusted the duties partly or wholly of soliciting risks, receiving and forwarding applications, being supplied with blanks for the purpose, receiving premiums and deposit notes and delivering policies? This question has given rise to some of the most perplexing difficulties, and to a larger proportion, perhaps, than any other of the controversies in Courts of Law. An agent acting within the general scope of his authority binds his principal, notwithstanding that he may have departed from his instructions, provided the party with whom he contracts had no knowledge of those instructions. And even in cases where the contract might be avoided in consequence of the agent departing from his instructions, a subsequent ratification by his principal, even after a loss, makes it binding. As a corporation can act only through agents, it is responsible for the acts and contracts of such agents within the scope of their authority. The declaration, too, of its agents acting within the scope of their authority is evidence against the company. If these agents in the line, of their employment are guilty of falsehood and fraud, their principal is liable for the consequences which may flow therefrom. If they commit a fraud in the course of their employment and while acting in the business of their principal, the parties injured by their misconduct or fraud can resort for redress to the persons who clothed them with power to act on their behalf, and who have received the benefits resulting from their agency."

Liquidation.

Since the passing of the Life Act the following eighteen Indian Life Assurance Companies have gone into liquidation. This was rendered necessary in the majority of the cases by financial difficulties brought about by insurance business having been transacted on the dividing society principle. Under this system the sum assured is not fixed but depends each year on a division of a portion of the premium income amongst the policies which have become claims; usually the premium is the same for all ages at entry and there is no medical examination.

The Universal Assurance Company, Ltd., of Calcutta, which at my suggestion has not issued any policies since June 1916, states that it is taking steps to go into liquidation; but its account books which have had to be produced in connection with a criminal action against Jogesh Chandra Sarker, Secretary, and Shayama Charan Sarker, Director of the Company, have not yet been received back from the Court.

Dividing Insurance business.

The following existing companies have ceased to issue policies on the dividing principle :—

1. India Equitable
2. Popular
3. Universal
4. Bengal Mercantile

} which issued policies payable at Death and on Marriage.

5. Aryya, which issued policies payable at Death, on Marriage and at Upanayan ceremony.
6. Unique, which issued policies payable at Death, on Marriage, at Birth and at Upanayan ceremony.

Many of the above mentioned companies must regret that they ever undertook such business. Notwithstanding the protestations contained in the prospectuses of the companies as to the soundness and advantage of the various schemes of dividing insurance, it has, I consider, been the curse of insurance enterprise in India. I trust that the well-wishers of Indian insurance companies will impress on Directors the necessity of avoiding all forms of dividing society business and other forms of insurance not based on actuarial principles. The following three† Life Assurance companies are the only ones which now issue policies on the dividing principle :—

1. All India and Burma Provident Fund of Bangalore.
2. Hindustan Assurance and Mutual Benefit Society of Gujranwala.
3. Sind Hindu Provident Funds Society of Hyderabad, Sind.

In every case where any of these nine companies has guaranteed a minimum benefit in respect of each policy, that minimum amount is all that is now being paid. Although this is very much less than many policyholders were originally led to expect, it is more than some of the companies can now afford to pay. Companies transacting life insurance on the dividing principle must realise that it entails more than a liability for the period ordinarily covered by the premiums paid and that it is imperative to build up a reserve on actuarial principles to ensure payment of the benefit guaranteed at death or on survivance. In the early years the premium should be more than sufficient to meet the risk run by the Company after meeting current expenses; in the later years, however, the risk increases as the life assured becomes older and ultimately exceeds the amount of the premium. Unless therefore a reserve has been formed in the early years, the company will get into financial difficulties.

Of the Indian companies now working, 7 were established over 42 years ago. This is shown in the following list where the names of the existing Indian life assurance companies have been arranged, according to their respective dates of establishment as also with reference to the Province in which the Head Office of each is now situated.

Business other than Life Assurance.

Since the Life Act was passed in 1912, there has been a considerable reduction in the number of Indian companies transacting other classes of business in addition to life assurance, the number having decreased from twenty-one to the nine noted below:—

1. All India United which transacts Fire Insurance.
2. Bharat
3. Empire
4. National
5. National Indian

„ Fidelity Guarantee Insurance.

6. Rechabites „ Sickness Insurance.
7. Hindustan of Gujranwala
8. Sind Hindu Provident Funds Society.

„ Marriage Insurance.

9. Christian Mutual „ Capital Redemption Business.

Statistical Information.

For the convenience of those not conversant with the Indian monetary system, it may be pointed out that, on the basis of a gold mohur being equal

to a pound, the sterling equivalents of various sums in Indian currency are as follows :—

	1 Pie	= Rs. 0·0052 = ½ of a penny	= £0·00035.
3	Pies = 1 Paisa	= „ 0·0156 = 1 farthing	= £0·00104.
12	Pies = 1 Anna	= „ 0·0625 = 1 penny	= £0·00117.
16	Annas = 1 Rupee		= 1 shilling and 4 pence.
15	Rupees = 1 Gold Mohur		= £1.
	1 Gold Mohur and 12 annas		= £1-1-0= 1 Guinea.
1,00,000	Rupees = 1 Lakh		= £6,666-13-4.
1,00,00,000	Rupees = 1 Crore		= £666,666-13-4.
1,50,00,000	Rupees = 1½ crores=1 million pounds sterling		= £1,000,000.

The new sums assured by Indian companies under ordinary life assurance policies during the year under review show a considerable increase, the total amount being nearly 2¼ crores as against one crore and ninety lakhs in each of the two previous years.

Whole Life policies were issued last year for	17½	lakhs, or	7·8	of the total.	
Limited Payment policies „	„	„ 19	„	„ 8·4	„
Endowment Assurance policies	„	„ 172	„	„ 77·0	„
Children's Endowments	„	„ 6	„	„ 2·6	„
Other classes of policies	„	„ 9½	„	„ 4·2	„
Total		... 224	„	100	

The total sums assured, including bonus additions, under ordinary life assurance policies issued by Indian companies, have increased by over 5 per cent. during the year and amount to over 24 crores of rupees, or about 15 million pounds sterling.

Neither the total sums assured remaining in force nor the total amount for which policies are issued each year in India by all companies can be stated, as unfortunately particulars of this nature are not required to be submitted by the British companies and by some of the other companies which transact business both in United Kingdom and in India.

The average rate of annual premium payable under the policies issued by Indian companies exceeds 5⅓ per cent. of the sum assured. This is slightly higher than the rate in either of the previous two years.* The corresponding rate deduced from the returns of the British Board of Trade is about 1 per cent. lower. This difference between these two rates is largely due to the fact that endowment assurances constitute nearly twice as large a proportion of the policies issued by Indian as by British companies.

The average amount of sum assured under the policies issued by the more soundly established Indian Companies is only about Rs. 1,800 or £120. In the United Kingdom the average sum assured under ordinary policies is nearly twice as large. Under most of the Indian companies' policies, the premiums are payable by monthly instalments. In the United Kingdom a much larger proportion of the premiums are renewable yearly and half yearly than monthly.

The Life Assurance revenue accounts for 1917 of the Indian Companies show that—

110 lakhs	or 76·6 per cent.	of the total income was derived from Life Assurance premiums.
33 lakhs	or 22·8 per cent.	of the total income was derived from interests and rents (less tax).
1 lakh	or ·6 per cent.	of the total income was derived from other items.
Total ... 144 lakhs	100	

* In previous years the classification was based according to the calendar year in which the accounts were due for submission to Government. Now it is based according to the calendar year to which the accounts relate.

For each of the past 5 years the total life assurance income of the companies now working was—

130 lakhs in 1913	137 lakhs in 1916
135 „ 1914	144 „ 1917
141 „ 1915	

The manner in which this income was disposed of is shown in the following interesting table :—

Nature of payment.	In 1913.	In 1914.	In 1915.	In 1916.	In 1917.
	Per cent.	Per cent.	Per cent.	Per cent.	Per cent.

Total ...	100·	100	100·	100·	100·

The ratio of the total expenses to the life assurance premium income was—

23·8 per cent. in 1913	20·5 per cent. in 1916
21·6 „ 1914	20·2 „ 1917
21·1 „ 1915	

These rates as well as those in the previous table would have exhibited a more marked improvement each year, if the figures relating to companies which have gone into liquidation in the meantime had not been entirely omitted.

In the United Kingdom the ratio of expenses to life assurance premium income is 13 per cent. for ordinary business and 43 per cent. for industrial business.

The satisfactory manner in which the amounts both of the Life Assurance Funds and of the interest realized thereon have increased may be seen from the following table :—

Year.	Life Fund.	Net interest income.	Rate per cent. of interest realised.
	Lakhs.	Lakhs.	
1913	583	23½	4·29
1914	636	25	4·21
1915	677	27½	4·29
1916	686	29½	4·43
1917	720	33	4·78

The total assets of the Indian Companies consist mainly of Indian Government securities which at their face-value amounted to the large sum of Rs. 5¾ crores. The only other stock exchange securities consisted of nearly 1½ crores of Municipal and Port Trust Debentures and only 19 lakhs in Railway and other shares. At the time of the periodical actuarial valuation, the Life Act requires not only a statement of how the values of stock exchange securities are arrived at, but also a certificate to the effect that the assets set forth in the Balance sheet are in the aggregate fully of the value stated therein less any Investment Reserve Fund taken into account. In arriving at this value Government advise that the stock exchange securities shall not be given a rate in excess of the market value

at the close of the valuation period. Applying the Investment Reserve Funds to meet the depreciations of these securities they are shown in the accounts at a value of Rs. 614 lakhs. On this basis the total assets would be as follows :—

	Lakhs
Indian Government securities, Indian Municipal and Port Trusts Debentures, and other Indian stock exchange securities	614
Mortgages on property in India	30
Loans on Companies' policies within their surrender values	68
Loans in personal security, etc	2
Land and house property	51
Agents' balances, outstanding premiums and outstanding interest	14
Accrued interest	10
Deposits, cash, stamps, etc.	24
Stationery, furniture, etc.	2
Sundry debtors and other miscellaneous assets ...	2
	817

Capital outlay for preliminary and organisation expenses, etc., is not included in the above statement; it amounted to 15 lakhs, due mainly to the capital expenditure of the Hindusthan Co-operative Insurance Society.

British, Colonial and Foreign Companies.

There are at present 24 British, Colonial and Foreign Life Offices which have a place of business in India. Of these, 17 are constituted in Britain, 2 in Canada, 1 in Australia, 1 in the Straits Settlements, 2 in Shanghai and 1 in the United States of America. Nearly all are partially exempt from the operation of the Indian Life Assurance Companies Act of 1912, on the ground that, when it came into force, they were carrying on business in the United Kingdom in conformity with the provisions of the British Assurance Companies Act of 1909.

The classes of business, in addition to ordinary life assurance, transacted by these 24 companies are shown in the following statement :—

A = Life Annuities ; F = Fire insurance ; M = Marine insurance.
C = Annuities certain, Capital redemption, etc. ; S = Sickness and accident.
E = Employers' liability ; G = Burglary and Fidelity Guarantee, etc.

The principal effects of the exemptions allowed to these British Colonial and Foreign companies are that they are freed from the necessity either of making a deposit with the Controller of Currency or of stating the amount

of business they do in India. Those granted exemptions are allowed to submit their accounts in the form required by the British Assurance Companies Act of 1909. That Act is very similar to the Indian one.

Accounts and Valuation Statements of Non-Indian Companies.

A summary of the Revenue Accounts of each of the non-Indian companies for each of the past three years, so far as available, has been given in this publication. Since the issue of the last Blue Book no companies have published their quinquennial or triennial valuation returns except the Great Eastern Life Assurance Company of Singapore. This issue contains a summary of and abstracts from the valuation returns of that company together with its full balance sheet, along with a summary of the valuation returns previously received from the 23 other non-India companies.

The China Mutual, Manufacturers, New York, Shanghai and Sun of Canada have their valuations made annually, and as their previous returns were fully printed in the earlier editions of this publication, the returns received in the year under review have been omitted, except to the extent of the particulars shown in the general summary of the valuations of non Indian companies.

Exemptions.

During the year under review, complete exemption from the operation of the Act was not granted to any company.

The following companies and pension funds were previously granted complete exemption from compliance with the Act. This publication therefore contains no particulars relating to any of them except the Madras Equitable:—

(*a*) Companies no longer issuing policies in India—
English and Scottish Law Life Assurance Association, Edinburgh.
London and Lancashire Life and General Assurance Association, London.
National Mutual Life Assurance Society, London.
Scottish Metropolitan Assurance Company, Edinburgh.
Star Assurance Society, London.
Sun Life Assurance Society, London.
Madras Equitable Assurance Society. (This Indian Society is governed by a separate Act passed by the Madras Legislature and has not issued any policies since 1910.)

(*b*) Funds connected with Indian Government services—
Postal Insurance Fund.
Bengal Civil Fund.
Indian Civil Service Family Pension Fund.
Bengal and Bombay Uncovenanted Service Family Pension Fund.
Bengal and Madras Service Family Pension Fund.
Indian Civil Service Annuity Fund.
Indian Military Service Family Pension Fund.
Queen's Military Widows' Fund.
Madras Civil Fund.
Madras Military Assistant Surgeons' Fund.

(*c*) Other Funds—
Bengal Christian Family Pension Fund.
General Family Pension Fund.
Hindu Family Annuity Fund.

CALCUTTA UNIVERSITY.

NOTICE.

IN accordance with the provision in section 4, sub-section (*2*) of the Indian Universities Act, 1904 (VIII of 1904), the following Ordinary Fellows of the Calcutta University elected by the Registered Graduates in 1914 will vacate their Fellowships on the 29th of March 1919 :—

The Hon'ble Mr. Mahendranath Ray, M.A., B.L., C.I.E.

The Hon'ble Mr. Bhupendranath Basu, M.A., B.L.

In exercise of the powers conferred by section 7 (1) of the Indian Universities Act, 1904 (VIII of 1904), His Excellency the Chancellor of the Calcutta University is pleased to direct that two Ordinary Fellows shall be elected in January next by the Registered Graduates of the Calcutta University from among themselves.

The election will take place at the Senate House in the Registrar's Room, Darbhanga Library Building, on Saturday, the 18th January 1919.

No person, unless his name has been entered in the Register of Graduates and unless he has paid his fee the year, will be qualified to nominate, to vote, or to stand as a candidate for election.

Every candidate for election must be nominated by a Registered Graduate, and no person will be allowed to nominate more than *one* candidate. The nomination of a candidate shall be made in writing in the following form, which will be signed by the person making the nomination :—

FORM OF NOMINATION.

I, _____ Registered Graduate No. _____, do hereby nominate _____ Registered Graduate No. _____ as a candidate for election as an Ordinary Fellow of the Calcutta University, subject to the approval of His Excellency the Chancellor.

The following is a brief statement of the special qualifications of my nominee :—

_____

_____

The _____ *191* *Signature* _____

The nomination paper should be, on the face of it, addressed to the Registrar, Calcutta University, and must reach his office not later than 5 P.M. on the 27th December 1918. A printed list of the nominees (with the name of the first proposer in each case) and statements of their qualifications will be forwarded to the Registered Graduates on the 31st of December 1918.

On the 3rd January 1919. the Registrar will forward a Voting paper, containing the names of the candidates proposed and their first proposers, by registered post to each of the Registered Graduates. *The Voting paper must be filled up and signed in the presence of the Registrar at the Darbhanga Library Building, on the 18th January 1919, between the hours of 10 a.m. and 3 p.m.; but Graduates who will not be able to appear in person before the Registrar may fill up and sign their Voting papers in the presence of a Magistrate, a Judge, a Subordinate Judge, a Munsiff (excluding Village Munsiffs), a Fellow of the University (including Honorary Fellows), or a Principal of a College affiliated to this University. In the absence of a Magisterial or Judicial Officer of the rank aforesaid in a Native State, the signature must be acknowledged before the Chief Minister or the Chief Magisterial Officer of the State.* Voting papers may also be filled up and signed before the Registrar, between 4 and 5 P.M., any day (other than a Sunday or holiday) between the 4th and the 17th January 1919. The officer before whom such acknowledgment is made or the Registrar, as the case may be, shall countersign the Voting paper, as having been signed before him by the person whose signature it bears. A voter of the rank aforesaid will not be competent to countersign his own voting paper. All voting papers duly signed and countersigned as aforesaid must reach the Registrar not later than 3 P.M. on Saturday, the 18th January 1919, after which no voting paper will be accepted. A Graduate who is not known to the officer in whose presence he intends to fill up and sign his voting paper must bring with him his Diploma or other satisfactory proof of identity.

Each voter shall have only *one* vote for each vacancy which is to be filled up and can give only one vote to any one candidate.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned lots of land no longer required by Government, situated along the Bhairab Tangi Branch of the Assam-Bengal Railway, in the district of Dacca, will be put up to sale at the Dacca Collectorate, at 11 A.M., on the 21st day of December 1918, corresponding with the 6th of Paus 1325 B.S.

The purchasers of the several lots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway land, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in case of original sale.

4th.—The lots of land will be sold to the highest bidders subject to the payment of usual rent to their immediate superior landlords.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioners confirming it and a regular conveyance will then be granted to the purchasers.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

Paper No. 14—Letter, dated the 6th May, 1918, from the Honorary Secretary, the Indian Muslim Association.

Papers No. 15—Letter, dated the 2nd September, 1918, from the Honorary Secretary to the Anti-Smoking Society, with enclosure.

We, the undersigned Members of the Select Committee, to which the Bill for the prevention of smoking by juveniles was referred, have considered the Bill and the papers noted in the margin, and have the honour to submit this, our Report, with the Bill, as amended by us, annexed hereto. In reprinting the Bill, all changes made by us have so far as possible been underlined, but in the present report we refer specifically to such changes only as appear to us to be of some importance.

Clause 2.—We consider that the scope of the Bill should be extended so as to apply to tobacco and smoking mixtures generally. We have, therefore, inserted a definition of "tobacco" on the lines of that in section 2 of the Punjab Act VII of 1918.

We have retained the definition of "cigarettes" in sub-clause (*a*) of clause 2 for the purposes of the proviso which we have added to clause 3(*1*).

The definition of "teacher" in clause 2 of the Bill has been omitted in view of the alterations which we have made in clause 4.

Clauses 3 and 4.—We have reduced the age limit for persons to be dealt with under the Bill from 21 to 16 in both these clauses, as we consider 21 to be too high.

Clause 3 (1), new proviso.—This new proviso is based on section 43(*2*) of the Children Act, 1908 (8 Edw. 7, c. 67), and has been inserted in the Bill in order to give protection to a person selling tobacco other than "cigarettes", as defined in the Bill (which include cigars and *biris*), to a person apparently under the age of 16 years, if he did not know, and had no reason to believe, that the tobacco was for the use of the purchaser.

Clause 4.—We have confined the power of seizure under this clause to police-officers in uniform and any other person or class of persons duly authorised by the Local Government in this behalf.

We have altered the latter part of clause 4 so as to authorise the destruction of any articles seized under the clause. This follows section 4 of the Punjab Act VII of 1918.

New clause 4A.—We consider it desirable that a clear provision should be made as to the person who should have the power of initiating proceedings.

We recommend that the Bill, as now amended by us, be passed.

NOTE OF DISSENT BY THE HON'BLE DR. ABDULLA-AL-MAMUN SUHRAWARDY.

I AM of opinion that in the definition of "police-officer" the words "and includes a constable" should be omitted and the words "above the rank of a head constable" should be substituted for them.

NOTE OF DISSENT BY THE HON'BLE SIR DEBA PRASAD SARBADHIKARI.

When the Bill was referred to the Select Committee, the Government, through the Hon'ble the Maharajadhiraja Bahadur of Burdwan, indicated the points which would be pressed before the Committee on behalf of the Government :—

(*1*) The age limit of 21 is *prima facie* too high and should be reduced to 15.

(*2*) Provisions similar to those contained in sub-sections (*2*) and (*3*) of section 43 of the English Children Act, 1908, should be inserted in the Bill. In other words, Government consider that the provisions of the Bill about cigarettes should also apply to tobacco and smoking mixtures, with the exception recognized in England that a person shall not be guilty of an offence for selling them to a person apparently under the age of 16 years, if he does not know and has no reason to believe that it is for his personal use. The Bill, as it stands, guards against the sale of cigars, cigarettes, *biris*, pipes, or cigarette papers, but not against the sale of tobacco other than cigarettes. There is a similar omission as regards the power of seizure. Government are of opinion that in this matter the English law should be followed if the Council decides that legislation is necessary.

(*3*) The power to seize cigars, etc., referred to in clause 4 should be expressly confined to police-officers (including constables) in uniform. Power should, at the same time, be taken to authorise any other person to exercise the right of seizure. The object of this latter provision is to leave Government free to decide as to the class of officers or persons on whom this duty may be suitably imposed, and, lastly,—there should be a clear provision as to the person who should have the power of initiating proceedings.

It will be seen from the revised Bill and the Report of the Select Committee that all these points have been now provided in the Bill on the lines indicated by the Government. Their good will towards and support of the Bill may therefore be now well bespoken. This is of the utmost importance if the provisions of the Bill are to have a fair trial and if they are not to be wrecked from the beginning. Though on some of the points indicated above some of us did not quite see eye to eye with the Government it was felt that in the interest of the measure such difference of opinion should be sunk and a working compromise should be effected as the first step towards a much needed and beneficial reform.

There is one point, however, about which I have great hesitation and I feel it my duty to press the objection. I press it in the interest of the object we all have in view and I feel that if this objection is not removed the Act will be worse than useless and will give rise to annoyance and irritation that will wholly baffle the object in view.

I, therefore, propose that the definition of "police-officer" be amended by substituting the words "above the rank of a head constable" in the place of the words "and includes a constable" in clause 2 (*b*).

In pressing for this substitution I know we are having for the present fewer agents for giving effect to the provisions of the law. But in a place like Calcutta, police-officers of and above the rank of Sub-Inspectors and other special agents that the Government have been authorised to depute will be able to make a good beginning.

Public criticism is strong against the employment of the police at all and the least we can do for the present is to confer the powers on officers not below the rank of Sub-Inspectors.

NOTE OF DISSENT BY THE HON'BLE SIR NILRATAN SIRCAR.

I agree with Sir Deba Prasad Sarbadhikari.

THE BENGAL JUVENILE SMOKING BILL, 1918;

(as amended by the Select Committee).

[NOTE.—The amendments made by the Select Committee have been underlined.]

A

BILL

for the Prevention of Smoking by Juveniles.

Preamble

WHEREAS it is expedient to make provision for the prevention of smoking by young persons;

It is hereby enacted as follows:—

Short title, local extent, and commencement

1. (*1*) This Act may be called the Bengal Juvenile Smoking Act, 1918.

(*2*) It extends in the first instance to Calcutta, as defined in clause (*7*) of section 3 of the Calcutta Municipal Act, 1899: [Ben. Act III of 1899.]

Provided that the Local Government may, from time to time, by notification in the *Calcutta Gazette*, extend this Act to any other town or place in Bengal.

(*3*) It shall come into force on such date as the Local Government may, by notification in the *Calcutta Gazette*, direct.

Definitions

2. In this Act, unless there is anything repugnant in the subject or context,— [*Cf.* 8 Edw. 7, c. 67, s. 43.]

(*a*) "cigarettes" include cut tobacco rolled up in paper, tobacco leaf, or other material in such form as to be capable of immediate use for smoking;

(*b*) "police-officer" means a member of an established police force and includes a constable; and

(*bb*) "tobacco" means tobacco in any form, and includes any smoking mixture intended as a substitute for tobacco. [*Cf.* Pun. Act VII of 1918, s. 2.]

(*c*) *(omitted.)*

Prohibition against sale of tobacco etc., to young persons

3. (*1*) No person shall sell or give to a person apparently under the age of sixteen years any tobacco, pipes or cigarette papers, whether for his own use or not: [*Cf.* 8 Edw. 7, c. 67, s. 39.]

Provided that a person shall not be guilty of an offence under this sub-section for selling tobacco, other than cigarettes, to a person apparently under the age of sixteen years if he did not know, and had no reason to believe, that it was for the use of that person. [*Cf.* 8 Edw. 7, c. 67, s. 43 (2).]

(*2*) If any person contravenes the provisions of sub-section (*1*), he shall be liable on summary conviction before a Magistrate to a fine not exceeding ten rupees, and in the case of a second offence to a fine not exceeding twenty rupees, and in the case of a subsequent offence to a fine not exceeding fifty rupees.

The Bengal Juvenile Smoking Bill, 1918.

(*Clauses 4-5.*)

Power of police-officers and others to seize and destroy tobacco etc, in the possession of a young person in certain places

4. It shall be lawful for a police-officer in uniform, or any other person or class of persons duly authorised by the Local Government in this behalf, to seize any tobacco, pipes or cigarette papers in the possession of any person apparently under the age of sixteen years whom he finds smoking in any street or public place, and to destroy any such article. [*Cf.* 8 Edw 7, c 67, s 40]

Institution of proceedings

4A. No Magistrate shall take cognizance of an offence under this Act, except upon a complaint made by, or at the instance of, the parent or guardian of the young person concerned or a police-officer or other person empowered to make a seizure under section 4. [*Cf.* Act V of 1898, s. 199]

Act not to apply in certain cases

5. The provisions of this Act shall not apply when the person to whom the tobacco, pipes or cigarette papers are sold, or in whose possession they are found, was at the time employed by a manufacturer of, or dealer in, such articles, either wholesale or retail, for the purposes of his business. [*Cf.* 8 Edw 7, c 67, s 42]

APPOINTMENT DEPARTMENT.

CALCUTTA, THE 2ND DECEMBER 1918.

RESOLUTION—No. 6774A.

IN the course of the investigations regarding the formation of electorates under the Reform Scheme, certain statistics have been collected, and as it is thought that they may be of general interest, they are published for information.

The figures have been collected under great pressure, and *primâ facie* in some instances disclose discrepancies which are not easily intelligible. Their absolute accuracy cannot, therefore, be guaranteed, but they indicate approximately the size and nature of the electorates likely to be secured by the adoption of different qualifications, and to that extent afford a useful basis of discussion.

By order of the Governor in Council,

Chief Secy. to the Govt of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR THE PORT OF CALCUTTA FOR THE YEAR 1917-18.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 3RD DECEMBER 1918.

RESOLUTION No. 2876Marine.

READ—

The Administration Report of the Commissioners for the Port of Calcutta, for the year 1917-18.

General features of the Administration.—During the year under review, the continuance of the war affected the trade of the port even more seriously than had been anticipated. In the opening months of the year, the loss of vessels engaged in trade with Calcutta was particularly heavy through enemy action at sea; some ships were diverted to the Cape route, while others were withdrawn from eastern waters to meet the losses of tonnage in Europe. The imposition of the restriction on the import of Burma rice into Calcutta also contributed to a further shrinkage of tonnage. To remedy the consequent and serious shrinkage in the revenue of the Trust, Government approved the proposal of the Commissioners for an enhancement of the war Sur-charges on goods and vessels, from the 1st August 1917. These charges, accompanied as they were by a certain improvement in the general trade of the port, enabled the Commissioners after meeting demands on the revenue, to carry a credit balance of Rs. 2·41 lakhs forward to the next year. The serious effect of the war on the trade of the port is strikingly illustrated by the following comparative statistics of traffic :—

	1913-14.	1914-15.	1915-16.	1916-17.	1917-18.

(a) Revised figures.

It will be seen that there has been a decrease under every head in comparison with the figures of the last pre-war year, while the decrease in the export of coal is particularly marked.

Receipts.—The total receipts amounted to Rs. 1,58,39,175 against an estimate of Rs. 1,52,26,862 for the year under review, and the actuals of Rs. 1,57,23,432 for the preceding year. Under the following heads, the receipts fell appreciably below the estimate for the year :—

	Actual.	Estimate	Decrease
	Rs.	Rs.	Rs.
Jetties ...	16,35,103	16,92,150	57,047
Petroleum ...	3,93,141	4,32,570	39,429
Port ...	4,12,514	4,74,000	61,486
Railway ...	13,47,246	15,79,000	2,31,754
Wet Docks ...	36,62,894	39,55,410	2,92,516
River Dues ...	12,12,954	16,41,875	4,28,921

The decrease was more than counter-balanced by increases over the budget estimates under certain heads of which the following are the more important :—

	Actual.	Estimate.	Increase.
	Rs.	Rs.	Rs.
Tea warehouse	4,59,796	3,01,000	1,58,796
Special war Sur-charges ...	39,90,286	26,00,000	13,90,286

Expenditure.—The expenditure on Revenue Account amounted to Rs. 1,56,29,349 against Rs. 1,56,31,738 in the previous year, and an estimate of Rs. 1,55,70,715 for the year under review. The chief items of excess of actual expenditure over the estimate were as follows :—

	Actual.	Estimate.	Increase.
	Rs.	Rs.	Rs.
Control	10,64,440	9,96,294	68,146
Contribution to Vessels Replacement Fund ...	5,00,000	2,00,000	3,00,000
Depreciation of G. P. Notes of Revenue Reserve Fund at market value ...	1,76,590	.....	1,76,590
Depreciation of Securities of Vessels Replacement Fund	58,585	.....	58,585
Depreciation of Securities of Fire Insurance Fund ...	1,17,077	.....	1,17,077
War Bonus	1,50,000	.....	1,50,000

Jetties.—The tonnage handled at the jetties amounted to Rs. 6,33,693 against Rs. 6,86,010 for the year 1916-17, and the total earnings of jetties traffic were Rs. 13,52,222 against Rs. 14,33,623 for the preceding year.

Docks.—The number of vessels entering the Docks during the year was Rs. 840 against Rs. 1,018 in the previous year. Of these the number of hired transports and R. I. M. vessels was 88, while that for the year 1916-17 was 65. The total imports and exports traffic including coal, in tons at the Docks were 363,383 and 2,010,105, respectively, against 444,210 and 3,179,687 (revised figures) in the previous year.

The revenue from imports traffic at the Docks decreased by Rs. 4,68,552 as there was a heavy decline of business in the imports of Burma rice. The other principal item of import was sugar and it showed slight improvement. Wheat from Australia was imported for the first time ; it was intended for transhipment to the United Kingdom.

There was a decline in tonnage in the general exports, the principal items of decrease being under jute, hemp, hides and skins. Against this decrease, however, there was an appreciable improvement in the exports of wheat and seeds, tea gunnies and rice, due to the increased demands of Government. In 1916-17 the export of gunnies, viz., 100,951 tons reached the highest figure then known ; but the year under review has easily passed this record with a total export of 1,37.010 tons. There was also a marked advance in the total exports of tea amounting to 135,947 tons against 96,037 tons in 1916-17.

As previously mentioned, there was a very heavy decline in the export of coal : the total for the year under review was 1,014,993 tons against 1,994,528 tons in the previous year.

Ferry Service.—The three ferry steamers "Basanta", "Kamala" and "Ashmani" were requisitioned by Government during the year 1916-17 ; of these, the two former have since been permanently taken over, on the terms awarded by the River Craft Arbitration Committee which the Commissioners accepted, and the last was returned to the Commissioners on the 15th January 1918. The total number of passengers travelling in the ferry steamers declined appreciably, with a corresponding decrease in the earnings.

Engineering.—The Commissioners again carried out the necessary maintenance and repairs of their properties with the strictest regard to economy. Owing to the cessation of shipments of steel work from England, progress in almost all constructional work has been greatly impeded.

The more important works of maintenance carried out during the year were the thorough overhaul of the L. V. "Luna," the Dredger "Bully" the survey vessel "Deligence", and the two launches the "Wasp" and "Reajuddi".

The sinking of the three trial wells in connection with the lock entrance to the proposed King George's docks was completed during the year.

Port and Port approaches.—The "Retriever" was employed mainly in inspecting the light-vessels and the unattended gas-light vessels, gas buoy-boats, buoys and semaphores. The other D. V. "Guide" was lost at False Point, having sprung a leak there while employed on Government duty; all removable gear was, however, salved by the "Retriever."

The bars and channels in the lower reaches from Kulpi to the Lower Gasper light-vessel were surveyed by the "Industry" in company with the "Diligence", while the latter was engaged during the greater part of the year in surveying the upper reaches. All the river marks were overhauled during the year and a leading mark erected at Nurpur to facilitate navigation of that reach; a mast 71 feet high was also erected for the Gungra mark. The Ganga-Saugor semaphore was shifted to a new position owing to erosion of the foreshore, and the Phuldobi automatic semaphore relit from the 15th February 1918 worked satisfactorily. The two upper bars, viz., the Moyapore bar and the Eastern Gut channel, were maintained in a condition superior to that of the two lower bars, the Balari and the Gabtola, the latter of which showed the worse record. The general condition of the river channels remained good; there was a steady increase in the number of deep-draft vessels, and a marked decrease of instances in which vessels were neaped for want of sufficient depth of water.

In view of the obvious necessity, owing to the war, of expediting the movement of vessels in every way possible, the Port Commissioners raised the question of the navigation by night of vessels, both inward-bound and outward-bound, in the lower reaches of the river Hughli between Mud Point and Saugor. This important question received the careful consideration of Government, and it has been finally decided that the restriction on night navigation of that portion of the river, which was partially removed for outward-bound ships in February 1915, and which was re-imposed for military reasons from February to December 1917, should be entirely removed for inward-bound as well as outward-bound ships, it being clearly laid down that night navigation is not compulsory and must be left to the discretion of the pilot.

Capital Expenditure.—The total expenditure on capital works amounted to Rs. 19·93 lakhs excluding the sum of Rs. 1·52 lakhs spent by the Commissioners at Budge-Budge on behalf of the Tank Storage and the Standard Oil companies. This amount was expended in connection with the Commissioners' Dock Extension Scheme, comprising the general berths at Garden Reach, reclamation work, trial wells, entrance to King George's docks, coaling berths and Hide Road warehouse.

Capital Account.—The capital account closed with a credit balance of Rs. 43·82 lakhs. The capital debt of the Trust was ten and-a-half crores against estimated assets of fourteen and-a-half crores.

General.—As in the previous year, the war has seriously affected the administration of the Trust. At the close of the year under review, 18 members of the supervising staff were absent on war work, in addition to 23 members of the subordinate staff serving with the forces. Further, the Port Commissioners placed at the disposal of the Munitions Department a considerable quantity of plant and materials required in connection with the prosecution of the war. The Commissioners sanctioned a scheme for the assistance of those employés who wished to subscribe to the first Indian War Loan, and the sum thus subscribed amounted to Rs. 1,17,000, besides Rs. 1 lakh invested in that Loan by the Provident Fund. The proposal of the Commissioners for the establishment of a Widows' and Children's Pension Fund is under the consideration of Government.

During the year under review, the Port Commissioners sustained a grievous loss by the death in France, on 3rd June 1917, from wounds received in action, of Mr. H. J. Hilary, who for ten years had held the posts of Secretary and Vice-Chairman with conspicuous ability and devotion. The

Governor in Council wishes to take this opportunity of placing on record his entire concurrence in the tribute paid to the services of the late Mr. Hilary in the Resolution passed by the Port Commissioners at their meeting of the 18th June 1917, which runs as follows :—

"That the Commissioners place on record their high appreciation of the exceptionally valuable services rendered to the Trust by the late Mr. Hilary, during the ten years of his occupation of the posts of Secretary and Vice-Chairman, and their sense of the heavy loss which the Administration has experienced through his premature death in the service of his country, and that this expression of admiration and regret be conveyed with their respectful sympathy to his wife and family in their bereavement."

Mr. S. C. Williams, who acted as Vice-Chairman, was confirmed in that appointment, *vice* Mr. H. J. Hilary. Mr. Williams held that post during the year under review, save for the month of October, when he was absent on privilege leave, and Mr. T. J. McCloughin, the Traffic Manager, officiated as Vice-Chairman. The Governor in Council again desires to thank the Chairman Mr. Stevenson-Moore, C.V.O., I.C.S., the Vice-Chairman Mr. S. C. Williams, and the Commissioners for their able management of the affairs of the Trust in a year of ever-increasing strain and difficulty.

ORDER.—Ordered that copies of the Resolution be forwarded to the Government of India and to the officers and departments concerned, and that it be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Governor in Council,

F. A A. COWLEY,

Secy. to the Govt. of Bengal.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, *i.e.*, by rail, river, canal, road, and sea, of the Calcutta Block* in certain selected articles during the months of April to September, 1918, as compared with the corresponding period of 1917 and 1916. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta* by rail, river, canal, road, and sea (coastwise) during the months of April to September, 1918, amounted to 6,410,000 maunds as against 5,298.000 maunds in the corresponding period of the preceding year,—an increase of 21 per cent. There was a decrease (2 per cent) in the imports of coal and coke (41,057,000 maunds as against 41,955,000 maunds last year). The imports by rail, river, road, and sea (coastwise) of Indian cotton piece goods showed an increase of 27 per cent, the total value amounting to Rs. 2,70,97,000 as against Rs. 2,13,09,000 in 1917. The quantity of indigo imported during the months of April to September, 1918, increased by 2,800 maunds, or 162 per cent. to 4,600 maunds. The imports of raw jute amounted to 2,357,000 bales as against 1,492,000 bales,—an increase of 57 per cent. The importations of gunny-bags also showed an increase of 14 per cent (243 million bags as against 212 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) increased by 35 per cent from 2,543,000 maunds to 3,427,000 maunds. The imports of tea increased by 13 per cent from 1,387,000 maunds to 1,564,000 maunds, and those of sugar by 1 per cent from 346,000 maunds to 349,000 maunds.

Exports.—The exports of cotton piece goods, foreign, from Calcutta* by all routes during the months of April to September, 1918, increased by 6 per cent (Rs. 12,50,51,000 as against Rs. 11,80,80,000 last year). The exports of gunny bags (excluding the exports by sea to foreign countries) increased from 47 million bags to 69 million bags. The shipments of gunny bags to other Indian ports increased by 9,426,000 in number in the period under review (20,788,000 as against 11,362,000 last year). The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) decreased from 2,883,000 maunds to 2,473,000 maunds, or by 14 per cent.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.
† One maund of paddy is equivalent to 25 seers of rice.
